Top Science Stories of 1973
A Year-end review

BY JOVE!

Science Photo of the Year

**40 000 scientifiques
achètent chaque mois
'La Recherche'
10 000 d'entre eux
ne sont pas français**

If LA RECHERCHE has an international readership, it's probably simply because its contents is international. You'll find well known French authors in LA RECHERCHE :

E. Baulieu, F. Jacob, P. Jacquinet, F. Morel, X. Le Pichon, A. Leroi-Gourhan, L. Lliboutry, J. Monod, C. Ropartz, Ch. Thibault among many others. But you'll also find articles by H. Alfvén, J.E. Cleaver, Hong Yee Chiu, Th. Dobzhansky, G. Natta, O. Morgenstern, C. Ponnamparuma, D.W. Sciama, J. Tuck, S. Uyeda...

Enough name-dropping. Distinguished names are not sufficient to make a good publication. (Some of our predecessors prove this.) Written by scientists for scientists, LA RECHERCHE covers everything from biochemistry to astrophysics. But it does not stop at doling out monthly slices of a cake baked of arbitrarily selected "good" articles.

You see, we think that LA RECHERCHE is the best interdisciplinary monthly.

But, as its publishers, we have our prejudices.

What do you think? Even if your French is a little rusty, you can judge for yourself - free of charge - over a period of 3 months. All you need to do is fill in and return the coupon below.

Special offer

Mail to LA RECHERCHE, 4, place de l'Odéon, 75006 Paris, France.

EUSSN

I wish to receive the next 3 issues of LA RECHERCHE on a trial basis. If interested, I'll settle your invoice on receipt of the third issue and benefit from the special subscription rate of \$ 17 instead of the usual \$ 23 for a year's volume of 11 issues. Otherwise I'll keep the 3 issues received at no charge to me.

Van Nostrand Reinhold books on science exploration...

THE PSYCHOLOGY OF COMPUTER PROGRAMMING

By Gerald M. Weinberg

Investigates behavior and thought processes of programmers as they perform their daily activities. "The best book about programming yet . . . unconditionally recommended."—*Datamation*. 288 pp., 6 x 9, \$9.50

To order, circle "A" under
Van Nostrand Reinhold Books on Reader Service Card.

MODERN SOUND REPRODUCTION

By Harry F. Olson

Describes the most important elements and systems employed in the reproduction of sound in which the primary objective is a high order of excellence in performance. 416 pp., 6 x 9, 249 illus., \$17.50

To order, circle "E" under
Van Nostrand Reinhold Books on Reader Service Card.

THE ART OF LIGHT AND COLOR

By Tom Douglas Jones

Demonstrates the use of mobile colored light in the study of color, as a new approach to contemporary composition and design, and as an independent medium that is often employed in interaction with music. 120 pp., 8½ x 11, illus. color, \$15.00

FLY the WINNERS of the GREAT INTERNATIONAL PAPER AIRPLANE CONTEST

Now you can make and fly 20 of the most unusual paper airplanes in the world. All are replicas of the winning entries in SCIENTIFIC AMERICAN'S First International Paper Airplane Competition. Fantastic 128-page book has all 20 on perforated pages so you can easily tear them out, fold on the printed lines, and watch them go. You won't believe how they fly, and the records they achieved! See if you can match them. Big 9" x 11 1/4" volume includes plans of all winners, time-aloft records, photographs, technical data, commentary.

Young and old alike will be fascinated by this

official paperback by Mander, Dippel & Gossage. It's easy to read, highly entertaining and very practical for countless, amusing flying hours. The planes are wild and the information about them will make you a confirmed airplane buff, if you aren't already. The book will inspire your own "best aircraft engineer" contest . . . have you modifying and making your own models. It's a great way to learn to "fly" and maneuver various paper planes, even use them to send messages.

The various models in the book also make intriguing "place cards" at parties . . . and the book itself can be a cherished prize for party game winners.
