Scientific best sellers...science classics... important scientific reference work- all at substantial discounts!

(Retail prices shown)

70240. PRE-COLUMBIAN CITIES. *Jorge E. Hardoy.* A distinguished authority on ancient and modern city planning synthesizes a wealth of archaeological detail in a remarkable study of Western hemisphere prehistoric civilizations. Implications for the contemporary urban crisis in America. Counts as 2 of your 3 selections. **\$19.95**

88020. X-RAYING THE PHAROHS. *James E. Harris and Kent R. Weeks.* Not since Howard Carter opened the tomb of Tutankhamen, a half-century ago, has science made archaeological discoveries to equal those revealed for the first time in this handsome new volume. Illustrated in color and black and white. **\$10.00**

36280. A BIOGRAPHICAL DICTIONARY OF SCIENTISTS. *Edited by Trevor I. Williams.* Over 1000 biographies of scientists in every field, from agriculture to zoology. Describes the lives of these men but assesses their contributions and relates them to those of their predecessors, contemporaries, and successors. A unique and splendid reference. **\$9.95**

36400. BLAKISTON'S GOULD MEDICAL DICTIONARY. *Third Edition.* Over 75,000 definitions in this newly revised third edition of the most famous and modern compendium of the terms used in all branches of medicine and related sciences. 35 contributing American specialists make it an invaluable reference tool for expert and general reader alike. **\$18.50**

42261. DIGITAL COMPUTING AND NUMERICAL METHODS. *Brice Carnahan and James O. Wilkes.* A brilliant presentation of numerical methods with practical application to their implementation on digital computers. A "must" for every mathematician and engineer. **\$13.95**

86070. WANDERING LANDS AND ANIMALS. *Edwin H. Colbert.* A boldly original epic history of our planet's drifting continents and the spread of animals through the ages. Replete with charts, tables, maps, illustrations and impressive glossary. Recounts the finding of *Lystrosaurus* in Antarctica, now regarded as keystone evidence to explain continental drift. **\$12.50**

45471. ENVIRONMENTAL GEOSCIENCE. *Arthur N. Strahler and Alan H. Strahler.* The dean of American geomorphologists ably assisted by his son (a plant geographer at the University of Virginia), masterfully explores the physical and biological processes involved in interactions between Man and the environment of energy and matter which surrounds him. **\$12.95**

46590. EVOLUTIONARY OPERATION. *George E. P. Box and Norman R. Draper.* Business, industry and technology are benefiting from the methods of *Evolutionary Operation*, a process improvement technique that utilizes the concepts of natural selection and the tools of mathematical statistics to maximize industrial efficiency. **\$12.50**

84451. TOWARD A GENERAL SCIENCE OF VIABLE SYSTEMS. *Arthur S. Iberall.* Introduces a science that attempts to unify our understanding of all autonomous systems—natural, organic or man-made—proposing a continuum ranging from nuclear particles at one end of the scale to the cosmos at the other. **\$14.50**

62801. MODERN COSMOLOGY. *D. W. Sciama.* "This book is a masterpiece. Stylistically there is not a word wasted and not one needs to be added. From the standpoint of readability, orderliness, continuity, evenness of level, and its ability to hold one's attention, the book is three standard deviations above the mean. It is almost unbelievably up to date."—*Physics Today* **\$9.95**

The LIBRARY OF SCIENCE

invites you to

Take any 3 books (values as high as \$56.40) all for only \$3.95

(You simply agree to buy 3 more books—all at handsome discount—over the next 12 months.)

38310. CLASSICAL ELECTRODYNAMICS. *John David Jackson.* Electromagnetic theory on the graduate level handled both conventionally and through consideration of the properties and interactions of charged particles. Ideal reference work for the physicist. **\$17.95**

61360. MATHEMATICAL STATISTICS WITH APPLICATIONS. *William Men-denhall and Richard L. Scheaffer.* A uniquely practical work which stresses inference as the objective of statistics and emphasizes the role of probability in inference making. Covers statistical theory, hypothesis testing, linear models, more. **\$12.95**

42070. THE DEVELOPMENT OF MODERN CHEMISTRY. *Aaron J. Ihde.* Revised, updated and reprinted, an 850-page history of chemistry filling the niche between short, popularized works and exhaustive, pedantic treatments. "Scholarly and well written."—*Scientific American* **\$14.95**

63131. MOLECULES AND LIFE. *Joseph S. Fruton.* The interplay of chemical and biological ideas is presented with full documentation for the period from about 1800 to 1950, with some reference to both earlier and later developments. **\$19.95**

48400. THE FASCINATION OF REPTILES. *Maurice Richardson.* A colorful and handsomely illustrated appreciation of these scientifically neglected and often maligned animals. Includes information on the care and feeding of reptiles. **\$10.00**

78190. SEXUAL SELECTION AND THE DESCENT OF MAN. *Edited by Bernard Campbell.* Eleven experts in the fields of biology, genetics and anthropology examine the evidence for Darwin's theory of sexual selection, the strongest factor in human evolution. **\$14.75**

34630. ASIMOV'S GUIDE TO SCIENCE. *Isaac Asimov.* The incomparable Isaac Asimov has done it again with this exciting general account of modern science — an encyclopedic work of 945 pages that is meant to be read and enjoyed. **\$15.00**

38011. CITIES AND GEOLOGY. *Robert F. Legget.* The first geological work to take up the special problems of urban areas. A must for scientists, engineers, planners, and architects. **\$15.50**

87210. WILDLIFE IN DANGER. *James Fisher, Noel Simon, and Jack Vincent.* Preface by Joseph Wood Krutch. Beautifully illustrated reference to all the species of animals and plants in danger of imminent extinction. "It will boil the blood of any sensible human being."—Peter Farb, author of *Man's Rise to Civilization.* **\$12.95**

Stop Saying . . . "I Can't Afford To Travel"

7 BOOKS THAT GIVE YOU THE FACTS ON HOW YOU CAN TRAVEL TODAY WITHOUT BEING RICH

AROUND THE WORLD BY FREIGHTER

Where and how to travel by freighter
—the lower cost way to travel

For no more than you'd spend at a resort, you can take a never-to-be-forgotten cruise to Rio or Buenos Aires. Or through the Canal or to the West Indies or to England, France, the Mediterranean, etc.

And what accommodations you get—large rooms with beds (not bunks), probably a private bath, lots of good food, and plenty of relaxation as you speed from port to port.

Travel Routes Around the World names the freighter lines (700 of them, with sailings from practically every port in the world), tells where they go, what they charge, briefly describes accommodations plus life on your freighter, clothes to take, etc.

To stop saying that travel is expensive get your copy now. Price \$1.50.

AMERICA BY CAR

This big book is your insurance of seeing all the 4-star sights in whatever corner of the U.S., Canada, or Mexico you drive to. Whether you're visiting New England or California, Florida or the National Parks, the Great Lakes, the Mississippi, the East, the South, the Southwest, the Indian country, etc., it tells you day by day and road by road the scenic way to go and it always directs you to the important sights along the way and in the cities. In Niagara or Los Angeles, Washington or New Orleans, the Black Hills or Montreal, it takes the guesswork out of travel.

America is so big you can easily overlook or forget important sights or make many a wrong turn. So get *America by Car*, the book that makes sure you'll see everything of consequence and always travel right. Only \$3.50 for this 170,000 word book (as big as 3 ordinary-sized novels).

SPECIAL OFFER: All 4 books above—*Travel Routes Around the World*, *America by Car*, *Fabulous Mexico—Where Everything Costs Less*, and *Off-the-Beaten Path*—(\$10 value) for only \$6.95.

DO YOU KNOW WHERE TO FIND

*The greatest retirement bargain in Florida? The most beautiful town in all California? The top-notch retirement communities in Arizona and New Mexico? The one place in the U.S. with the world's most perfect climate? The ideal island for retirement in the South with cool summers and warm winters. The one unspoiled retirement paradise in all the East?

These are only a handful of the hundreds of beauty spots, hideaways, and other places in the U.S. where you can retire now on little money and enjoy yourself completely.

Where to Retire on a Small Income selects out of the thousands of communities in the U.S. and its island territories only those places where living costs are less, where the surroundings are pleasant, and where nature and the community get together to guarantee a good time from fishing, boating, gardening, concerts, or the like. The book never overlooks the fact that some people must get part-time or seasonal work to pad out their income.

It covers cities, towns, and farms throughout America—from New England south to Florida, west to California and north to the Pacific Northwest. It includes both Hawaii and the American Virgin Islands. Some people spend hundreds of dollars trying to

FABULOUS MEXICO—WHERE EVERYTHING COSTS LESS

The land of retirement and vacation bargains—that's Mexico. Where an American retirement income looks like a fortune, and your vacation money can buy double or more what it might back home. Norman Ford shows you vacation and retirement values where you can live like a prince on what you might just get along on in the U.S.A. He pinpoints areas that look like the South Seas, others where it's like June all year round, towns where many other Americans have retired; shows where to find modern flower-bedecked hotels and inns that charge hardly half of what you'd expect to spend in even such a land of vacation and retirement bargains as Mexico. Plus a big section where to start your money earning so much more than in the U.S.A. \$2.50.

OFF-THE-BEATEN PATH

—these are America's own Bargain Paradises

Where to retire or vacation at what look like prewar prices and no one ever heard of nerves or worries.

Off-the-Beaten Path names the really low cost Florida retirement and vacationing towns, the topnotch values in Texas, the Southwest, California, the South and East, Canada, and a dozen other areas which the crowds have not yet discovered:

—Fabulous places like that undiscovered region where winters are as warm and sunny as Miami Beach's, yet costs can be 2/3rds less. Or that island that looks like Hawaii yet is 2000 miles nearer. Or France's only remaining outposts in this part of the world . . . or a village more Scottish than Scotland . . . or resort villages without crowds or high prices . . . or island paradises aplenty in the U.S. or Canada . . . or areas with almost a perfect climate. And for good measure you also read about low cost paradises in Hawaii, the Virgin Islands, and Puerto Rico.

A big book, with about 100,000 words. Yet it costs only \$2.50.

get information like this by traveling around the country. Frequently they fail—there is just too much of America to explore!

Where to Retire on a Small Income saves you from that danger. Yet the big NEW edition costs only \$2.50.

AMERICA'S MOST LIVEABLE, 284 WORRY-FREE TOWNS

—where it's a pleasure to live and retire

Where to Retire on a Small Income covers them—America's most peaceful, worry-free towns, where you'll enjoy staying a while or retiring. Here are the places where you can walk freely, leave your home without worrying about holdups or robbery; here are none of the overwhelming problems of vast cities, the troubles we read about daily in our newspapers. Instead, this is the America we all seek—its peaceful, most liveable towns where it's really a pleasure to live and retire.

A good trip begins with a Harian book
Publishers since 1935

ALL ABOUT ARIZONA —the healthful state

Just as a road map shows you how to reach your destination, this big book leads you to whatever you want in the fast growing state of sun and scenic wonderlands.

What do you want to know about Arizona? Where to retire at low cost? Where are summers cool, winters sunny most of the time? Where are the leading places for a job, a home, etc.? What must a newcomer watch out for? Is it true that living costs are less than in the East? What about salaries?

Or do you want to tour this Grand Canyon State? What's the most scenic way to see Arizona by car or otherwise? What is really the most satisfying way to see the Grand Canyon? The Indian reservations? The other 4-star sights? Which are the sure ways to cut travel costs in this big state?

Filled with facts, over 100,000 words long, this book almost brings Arizona to your door answering these and a hundred other questions. To know all you should about Arizona before you go for a home, a job, retirement in the sun, or a really memorable vacation, read this book. Price \$2.95.

WHERE WILL YOU GO IN FLORIDA?

Florida needn't be expensive—not if you know just where to go for whatever you seek in Florida. And if there's any man who can give you the facts you want, it's Norman Ford, founder of the world-famous Globe Trotters Club.

His big book, *Norman Ford's Florida*, tells you, first of all, road by road, mile by mile, everything you'll find in Florida, whether you're on vacation or looking over job, business, real estate, or retirement prospects.

Always, he names the hotels, motels and restaurants where you can stop for the best accommodations and meals at the price you want to pay. For that longer vacation, if you let Norman Ford guide you, you'll find a real "paradise"—Just the spot which has everything you want.

Of course, there's much more to this big book. If you want a home in Florida, he tells you just where to head. If you've ever wanted to run a tourist court or own an orange grove, he tells you today's inside story of these popular investments.

If you want to retire on a small income, Norman Ford tells you exactly where you can retire now on the money you've got, whether it's a little or a lot. Because he always tells you where life in Florida is pleasantest on a small income, he can help you to take life easy now.

Whatever you seek in Florida, *Norman Ford's Florida* gives you the facts you need to find exactly what you want. Well over 100,000 words but it costs only \$3.00—only a fraction of the money you'd spend needlessly if you went to Florida blind.

Amazing New Digital Thermometer FLASHES EXACT TEMPERATURE AT A GLANCE!

Half the fun of owning this revolutionary new digital thermometer will be in watching your friends trying to figure out how it works! Looks like magic. The secret is space-age liquid crystals that react to room temperature . . . reflecting light from appropriate digits that flash the exact temperature bright and clear, in actual numbers! But this isn't just a "fun" accessory—it's a completely functional, accurate, and convenient instrument! Where an old-fashioned needle-dial room thermometer makes you guess at the temperature, by giving you a different reading from every angle you happen to look at it . . . this precision instrument "reads" the same from anywhere in the room—at any distance and any angle! More, practical, too—because it's impossible to break! Completely self-contained unit comes in a sleekly modern 8-inch long aluminum case that is equally at home in office or home. Use it anywhere.

Covers temperature range from 66° to 86°F. A uniquely fascinating gift—for yourself . . . and for friends and business associates with an eye for the unusual . . . or a curiosity as to what makes things "tick"!

ONLY \$4.99 SPECIAL GIFT PRICES: 2 for \$8.99; 6 for \$24.00; 12 for \$44.00.
