Probing Antarctica's Past

A historic project to drill
into Antarctica's dry valleys

The BantamTM Still with the heavyweight credentials.

Just plug in our low cost, portable still. And get up to 1.8 liters per hour of high quality distilled water.

With no permanent plumbing or electrical connections. Just plug your 115 volt or 230 volt model into any outlet.

And our new Bantam Still is made of copper, which won't crack or shatter. Then it's coated with tin to keep your pure water pure. On top of that, the atmospherically vented condenser gets rid of gaseous impurities before they can redissolve in the distillate.

Also, the still has a low water cut-off that makes it tough to burn out the heater.

And this great little still comes in manual or automatic models. So it's tough to make up your mind.

But either way, you get a still that's backed by almost one hundred years in the water treatment field.

To order the Bantam Still, just call your favorite lab supply dealer. Tell him Barnstead sent you.

Barnstead. The people who know everything you need to know about water.

"Why not stop basic research and apply what we already know?"

Eighteen noted specialists in science answer that question in

The Greatest Adventure

Basic Research that Shapes Our Lives

Edited by

EUGENE H. KONE and HELENE J. JORDAN

Introduction by ISAAC ASIMOV

Its four sections—Earth, Life, Health, and Civilization—tell how we and our planet mold each other: in population growth, pollution, energy problems, health, and communicating with others who share our world.

And they show how everyone of us is a part of science—that we and basic research form a partnership of progress.

In the words of Dr. Asimov, "Today's science is tomorrow's solution—and tomorrow's problems, too—and, most of all, it is mankind's greatest adventure, now and forever."

300 pp., illus., biographies of the authors, reading suggestions, index. \$9.80

Order your copy from:

Equipment for Field Study and Classroom Investigation of our Environment

HICKOK SCIENCE offers a broad line of equipment for collecting data and specimens from water, soil and air which includes:

- CHEMICAL ANALYSIS KITS
- FILTRATION KITS
- MEASURING INSTRUMENTS
- WEATHER RECORDING DEVICES
- SPECIMEN COLLECTING APPARATUS

ALSO:

- CLASSROOM ECOLOGY KITS
- REFERENCE MATERIALS

Please send me your broad line catalog.

SOLVE THIS PUZZLE —

Jones, Brown, Smith, and Robinson were either a Driver, a Stoker, a Guard, or a Porter. Each wore either a red, blue, black or green shirt.

The Driver beat Brown at billiards and Smith and the Guard often played golf with the men in black and green shirts. Jones and the Porter disliked the man in the green shirt, but this was not the Stoker as he always wore a red shirt. What was each person's occupation and color of shirt?

The correct answer to this and 100 MORE varied mind-stretching Problems are found in **BRAIN PUZZLER'S DELIGHT** by E. R. Emmet. Order Now: \$5.95, plus 30¢ handling.

10-Day Money-Back Guarantee

Koslow's Full New Line of Chemical Test Kits

Koslow Chemical reagent test kits are now available for the more common elements and compounds. They are based on proven color reaction methods for positive identification of substances at ppm concentrations (mg/l). Uses are universal: **Pollutant detection; Educational projects; Qualitative identification; Clean-up monitoring; Corrosion detection of metals and alloys; Industrial hygiene and safety tests; Chemical process monitoring, etc.** Tests are conveniently and economically packaged — which makes them ideal for environmental courses.

AND PRICES BEGIN AT ONLY \$9.90
