

Titles of Interest *from the* NATIONAL ACADEMY of SCIENCES

Critical Evaluation of Chemical and Physical Structural Information

Experimentalists and theorists in various areas of chemistry and physics address questions of accuracy and reliability of structural information derived from different types of measurements. ISBN 0-309-02146-4; 1974, xii + 616 pp., paper, \$26.25

Productive Agriculture and a Quality Environment

This report reviews available information on strategies for maintaining a strong food and fiber industry in the U.S. while incurring minimal environmental conflicts. ISBN 0-309-02215-0; 1974, vii + 189 pp., paper, \$8.50

Food Chemicals Codex, 2nd Edition

Officially recognized and endorsed by the Food and Drug Administration, this volume provides unified, authoritative standards of identity and chemical purity for more than 600 food-grade chemicals and describes testing methods required to determine purity levels. Annual supplements are sent to all holders of the book at no charge. ISBN 0-309-01949-4; 1972, xvi + 1040 pp., cloth, \$20.00

Physics in Perspective: The Nature of Physics and the Subfields of Physics, Student Edition

An overview of physics is presented in a form and at a level readily accessible to students, without mathematics or formal rigor, but with insight to the future directions of each subfield and to the greatest practical and societal applications. ISBN 0-309-02118-9; 1973, viii + 360 pp., paper, \$5.00

All titles can be ordered from Dept. JH 726, National Academy of Sciences, Printing and Publishing Office, 2101 Constitution Avenue, Washington, D.C. 20418. A check or money order must accompany all orders unless a bona fide purchase order is enclosed. Purchase orders of \$7.50 or under must be accompanied by a check or money order.

Toxicants Occurring Naturally in Foods, 2nd Edition

Subjects discussed include nitrates and nitrites, trace elements, toxicity of vitamins, toxicants in spices and flavors, and estrogens in foods. ISBN 0-309-02117-0; 1973, viii + 624 pp., cloth, \$10.50

Physics 50 Years Later

These essays provide interesting perspectives on the history, current activities, and potential contributions of such specialties as astronomy, optics, solid-state physics, nuclear structure, plasma physics, and gravitation theory. ISBN 0-309-02138-3; 1973, viii + 408 pp. (plus a 16-page insert), cloth, \$11.00

In Search of Population Policy: Views from the Developing World

Reporting the results of five regional seminars held throughout the world, this volume discusses migration, population distribution, health care, education, foreign assistance, and urbanization, viewing population issues at national, community, family, and individual levels. ISBN 0-309-02242-8; 1974, ix + 108 pp., paper, \$4.25

Study of Engineering in Medicine and Health Care

The focus of this summary volume reporting on several parallel studies is on application of technology to the problems of health care and the role of the university in responding to health care needs through biomedical engineering. ISBN 0-309-02148-0; 1974, ix + 59 pp., paper, \$3.50

Ethics of Health Care

These papers by experts in law, medicine, bioethics, religion, and economics focus on ethical issues such as treatment of the aged, government's role in life and death decisions, and selection processes for medical schools. ISBN 0-309-02249-5; 1974, xi + 313 pp., paper, \$6.00

How Safe is Safe? The Design of Policy on Drugs and Food Additives

Through the social device of a forum, this book explores the intricacies of relationships, philosophies, commitments, and other factors that influence those concerned with the development of drugs and food additives and the legal control of these products. ISBN 0-309-02222-3; 1974, ix + 241 pp., paper, \$6.25

U.S. Energy Prospects: An Engineering Viewpoint

Presented is an informed assessment of the realistic strategies that could be initiated if the United States chooses to become as independent as possible of foreign sources by 1985, based on technology now known or applicable by that date. ISBN 0-309-02237-1; 1974, iii + 141 pp., paper, \$5.75
