

SPACE-AGE WRAPAROUND SUNGLASSES MAKE ALL OTHERS OBSOLETE!

FIT COMFORTABLY OVER YOUR OWN GLASSES!

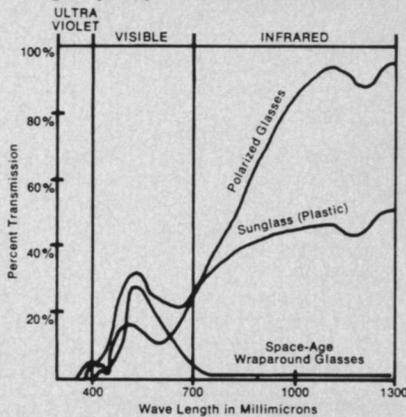

Formulated with Revolutionary "IR and UV Absorbers" Used for Eye Protection in U.S. Space Program!

ideal for both men and women

These new Space-Age Wraparound Sunglasses include the latest advances from space research! They do things for your eyes that no sunglasses could ever do for you before! With them, you see farther through fog, rain . . . even blizzards. You'll enjoy clearer visibility where, before, you could only see a blur! See details more exactly. Distant, indistinct objects suddenly appear sharper and clearer! You see through the sun's reflected glare and blinding snow! And oncoming car lights don't dazzle you into losing sight of the road! And, even more important — they protect your eyes against sun damage, by eliminating 99% of the dangerous infra-red and ultra-violet light that can hurt your eyes and cause eyestrain and eye fatigue! (To see exactly *how much* greater protection than either conventional or polarized sunglasses these revolutionary Wraparound Sunglasses give you, just look at the chart below).

Join the Sunglass Revolution!

These space-age sunglasses also feature a special side-shield construction, to block out windblown grit and the glare of the sun. The high-impact plastic frame and lenses are practically unbreakable! They fit easily over your regular prescription glasses — and refuse to fog in the foulest weather!

Drivers and pilots depend upon our Wraparound Sunglasses to cut down dangerous glare and improve general visibility. Contact lens wearers swear by them. And major clinics prescribe them for their post-operative eye patients! Great for fishing, skiing, or just walking outdoors.

Don't rely on obsolete, unsafe sunglasses again! Protect your eyes and your family's with these super sunglasses. Order today! Only \$14.99 per pair — complete with specially designed leather grained protective case.
