Some McGraw-Hill choices for today's science-minded reader

McGraw-Hill DICTIONARY OF SCIENTIFIC AND TECHNICAL TERMS

Daniel N. Lapedes (Editor-in-Chief) and the Staff of the McGraw-Hill Encyclopedia of Science and Technology, with a Board of 30 Contributing and Consulting Editors. This greatest compilation of scientific, engineering, and technical terms ever published in one easy-access volume covers 100 separate disciplines, permitting readers to keep up not only with the proliferating language of their own disciplines but with that of 99 others. Each of the nearly 100,000 definitions is identified with its prime field. "Does a hard job superbly . . . probably one of the best buys around," says *Popular Science*, and "Highly Recommended," says *Library Journal*, who chose it as one of the Outstanding Science Books for 1974. 1,600 pp. Nearly 2,800 illus. 8½ x 11". \$39.50

McGraw-Hill ENCYCLOPEDIA OF ENVIRONMENTAL SCIENCE

Daniel N. Lapedes (Editor-in-Chief) and the Staff of the McGraw-Hill Encyclopedia of Science and Technology. One of the most important references today, "this encyclopedia contains more than 300 illustrated, signed articles from the entire spectrum of environmental science . . . presented in a concise, clearcut manner . . . an invaluable tool for the concerned environmentalist . . . recommended as an excellent classroom reference for science teacher and student," comments Nathan S. Washton, Prof. of Science Education, Queens College. There is no better treatment of the problems, causes, and needed actions in, on, and above planet Earth if we are to survive. 768 pp. 573 illus. 8½ x 11". \$24.50

To order, circle "B" on Reader Service Card.

THE ART OF WRITING EFFECTIVE LETTERS

Rosemary T. Fruehling and Sharon Bouchard. The secrets of capturing and holding your reader's attention in persuasive business and personal letters are explained, point by point. Specific help is given on requests, acknowledgements, special replies, goodwill, sales, claim and adjustment, credit and collection letters, reports, and job applications. 258 pp. \$7.95

To order, circle "C" on Reader Service Card.

THE COLLECTOR'S ENCYCLOPEDIA OF SHELLS

Edited by S. Peter Dance. An indispensable guide for the dedicated collector and hobbyist, this is the first book to provide comprehensive coverage of shells from both warm and cold seas around the world. Covering well over 2,000 species, it contains more than 1,500 full-color photographs. 288 pp. Illus. \$19.95

To order, circle "D" on Reader Service Card.

INSECTS IN FLIGHT

Werner Nachtigall. Written by a noted authority, this is a complete and up-to-date discussion of how insects fly, treated in both aerodynamic and biological terms. More than 120 fascinating illustrations—including many full-page photographs—show wing construction, insect parts, flight movement, etc. 158 pp. Illus. \$13.95

THE COMMODITY FUTURES GAME: Who Wins? Who Loses? Why?

Richard J. Teweles, Charles V. Harlow, and Herbert L. Stone. This classic futures trading guide discusses in depth all the essentials you need to win greater profits in the commodity futures game—your own risk-reward trading curve, behavior of prices, trade selection, and the underlying factors behind each of more than 25 major commodities today. 630 pp. Illus. \$16.95

To order, circle "F" on Reader Service Card.

THE ROOTS OF CIVILIZATION

Alexander Marshack. This extraordinary book represents a major breakthrough in the fields of archaeology and anthropology. The well-known author has successfully "broken the code" of ice-age artifacts and cave drawings, proving that man was far more advanced intellectually 25,000 to 50,000 years ago than has been suspected. 320 pp. \$17.50

To order, circle "G" on Reader Service Card.

MICROCRYSTAL POLYMER SCIENCE

O. A. Battista. A full introduction to a new field joining polymer and colloidal science, this is the first work to collect the results of two decades of comprehensive original investigation into particle microcrystals in suspension or aggregated as dry powders. The reader working toward new product developments will find this volume invaluable. 224 pp. \$18.50

YOU AND YOUR WILL: The Planning and Management of Your Estate

Paul P. Ashley. Everyone who owns or may inherit property should know the fundamental rules and concepts of how to plan and manage an estate in order to seek out and respond intelligently to proper professional counsel and be in full control—from drafting a will and reducing taxes and costs to selecting fiduciaries. 238 pp. \$10.50
To order, circle "L" on Reader Service Card.

CHEMICAL TECHNICIANS' READY REFERENCE HANDBOOK

Gershon J. Shugar, Ronald A. Shugar, and Lawrence Bauman. Step-by-step illustrated instructions show all commonly used laboratory procedures—from planning assignments and selecting and setting up equipment to performing tasks and keeping records. 463 pp. 513 illus. \$22.50
To order, circle "M" on Reader Service Card.

MOTIVATING HUMAN BEHAVIOR

Ernest Dichter. The latest psychological methods gleaned from actual findings of more than 4000 research studies show you how to use dynamic new techniques to build your powers of persuasion and motivate your peers, superiors, and subordinates to behave in a prescribed manner. 272 pp., \$17.50
To order, circle "N" on Reader Service Card.

SUCCESSFUL TECHNICAL WRITING

Tyler G. Hicks. Clear methods help you to write successful technical articles, papers, reports, instruction and training manuals, and books for today's major technical markets. You are shown where to look for ideas, how to evaluate and develop them, how to work with editors and publishers to get into print. 287 pp. Illus. \$12.50
To order, circle "O" on Reader Service Card.

MAKE YOURSELF CLEAR

John O. Morris. Your personal performance on the job—whatever the level—requires that you communicate clearly with others. Here is a practical, tested system to improve your communication skills—in writing, speaking, reading, and listening—to save you time, effort, and errors, and to get desired results and reactions from superiors, subordinates, and associates. 226 pp. \$11.50
To order, circle "P" on Reader Service Card.

LANGE'S HANDBOOK OF CHEMISTRY

Eleventh Edition. Edited by *John A. Dean*. With many new sections, this new edition of the famous Handbook in the field is more effective than ever in saving precious hours and bringing you up to date on the latest chemical concepts, facts, formulas, and date, including measurement of pH, use of statistics, x-ray methods, and much else. 1,576 pp. \$22.50
To order, circle "Q" on Reader Service Card.

PRACTICAL CHARTING TECHNIQUES

Mary E. Spear. Graphic aids that back up your speeches, reports, and presentations can be powerful persuaders, but they must really work. Here are all the techniques needed to help you add impact to your message through forceful, clear charts and other graphic forms. 352 pp. Illus. \$16.50
To order, circle "R" on Reader Service Card.

MINICOMPUTERS FOR ENGINEERS AND SCIENTISTS

Granino A. Korn. Anyone using or planning to use one of the new breeds of low-cost computers will find this single volume all that's needed to fully understand these remarkable little machines and what they can do. It's the only book to simplify and codify manufacturers' literature. 352 pp. \$21.50
To order, circle "S" on Reader Service Card.

CONTINENTS IN MOTION: The New Earth Debate

Walter Sullivan. In his fascinating and authoritative narrative of the origins and development of the theory of "continental drift," the Science Editor of *The New York Times* discusses the change this new scientific revolution is having on our understanding of the planet earth. 399 pp. Illus. \$17.95
