HELPING TO DEVELOP AMERICA'S TECHNOLOGY FOR OVER 30 YEARS.

defy the COLD!

It's 10° outside . . . Even getting colder. So you bundle up in layers and layers of heavy clothes. First with long underwear . . . then bulky, restrictive thermalwear on top.

Oh, you were warm, all right. Like in a Turkish bath. Because you began to perspire from all your activity. And perspiring in that mountain of clothes is like perspiring in a plastic bag! The perspiration is locked in. So there you are. Wet and miserable.

But now, at last, Damart has solved the problem. Because Damart invented underwear that keeps you *warm, dry and comfortable* no matter how cold it is or how long you stay out. Underwear that's soft and light so you can move easily. Underwear that *lets the perspiration evaporate through* so you always stay warm and dry next to your skin.

Damart does this with a new miracle fabric—Thermolactyl. It not only retains and reflects your natural body warmth, it's woven to let *perspiration out!* No other underwear does this! Damart Thermolactyl is so comfortable that the French Olympic Ski Team wears it. So does the Glencoe mountain rescue team and the entire Chicago Bears Football Club.

Our free color catalog tells the full Damart Thermolactyl story and displays the whole Damart line for men and women. Send for your FREE copy now!

BUYING YOUR HOUSE:

A Complete Guide to Inspections and Evaluation

by Joseph Davis & Claxton Walker

"The strength of this home-buying guide is in the fine level of detail and illustration it offers in discussing the pros

and cons of comparable materials and construction designs. It provides a helpful mix of technical discussion (thankfully, in simple English) and practical advice ranging from how to determine the suitability and average life of different types of roofs and roofing materials to how to detect leak-prone basements.

Extensive guidelines and suggestions are offered on evaluating insulation, floorplans and electrical, plumbing and heating systems.

Much of the information in this book will be as helpful to those who already own a home as to those who want to make an intelligent choice about buying one." *Washington Post*.

THE SHAVER THAT WENT TO THE MOON!

Just wind it and enjoy an out-of-this world shave!

TRY IT FOR 90 DAYS AT OUR RISK. YOU MUST BE DELIGHTED OR YOUR MONEY BACK!

**NO WIRES! · NO ELECTRICITY!
NO BATTERIES! · NO LATHER!
NO BOTHER! · NO WAITING!**

Now you can enjoy the same rugged, dependable shaver our astronauts used on moon mission flights. The shaver that doesn't require electric power, water or weight-and-space-wasting accessories! Just check off our checklist below, and you'll quickly discover why no other electric shaver or blade razor can match the Monaco space age shaver for performance, convenience, reliability, value!

Unique Wind-Up Spring. Monaco is the only shaver that doesn't depend on an outside energy source. It's powered by a rugged, dependable wind-up spring. Which makes it—and you—very independent. Just give the winding key six or seven turns and you have enough power for a perfect shave.

Use It Anywhere. You can use Monaco wherever you are—even if that's deep in the woods on a hunting trip. And every day at home and work, in the office, in the car! Or when you're flying or riding to an important meeting and want to get rid of that "5 o'clock shadow."

Clean, Comfortable Shave. You never have to worry about nicks and scratches with *this* shaver. The super-thin shaving head floats gently over your face, guiding whiskers into thousands of tiny perforations. Surgical steel blades revolve an amazing 72,000 times per minute, slicing your whiskers off smoothly at the skin line. Without the hacking and chopping of ordinary slower-acting shavers.

Reliability. Monaco is made to run like clockwork — year after year! The reason? It's carefully crafted by skilled Swiss watchmakers!

Convenience. Now you can forget about messy lathers, looking for electric outlets, replacing or recharging batteries. Everything you need for a close, comfortable shave is right in the palm of your hand!

Maintenance-Free Operation. All parts of this fantastic shaver are made of the very finest materials. The surgical steel blades are self sharpening, so the longer you use them, the better they get. The mainspring is made from the same Swedish Super-Steel used in the finest watches. And to ensure years of trouble-free performance, it's sealed and permanently lubricated.

Compactness. The Monaco is specially contoured to fit snugly in the palm of your hand—giving you complete control at all times.

Money-Saving Advantages. Just imagine how much money you'll save on shaving cream and blades. And if you use a shaver, you'll never have to buy batteries again, or pay for electricity. You just can't beat Monaco, the space age shaver.

Now that you know why Monaco is the choice of America's astronauts, isn't it time you bought this "heavenly" shaver for yourself? Only \$19.99! Try it 90 days. If you don't agree it's the greatest shaver you ever used, just return it for refund. No questions asked.
