FINDINGS:  
EARLIEST  
MAN**

Ferdinand Lundberg, sociologist, historian, eminent author of *THE RICH AND THE SUPER-RICH*, says:

"This book provides at all times a succinct, clear, direct, and often dramatic roadway into the very bones and sinews of the Constitution of the United States. It is, indeed, a veritable treasure trove."

#### INTRODUCTION BY FERDINAND LUNDBERG

THE FOUNDATIONS OF THE CONSTITUTION is timeless. David Hutchinson does not attempt to examine the interpretations of the document that evolved over the decades, but rather does a word-by-word, line-by-line, phrase-by-phrase dissection of it. He explains where the elements of the Constitution originated and why they were used.

Mr. Robinson was a professor of government for many years at Albany State College, now incorporated into the State University of New York.

## BUYING YOUR HOUSE:

### A Complete Guide to Inspections and Evaluation

by Joseph Davis & Claxton Walker

"The strength of this home-buying guide is in the fine level of detail and illustration it offers in discussing the pros and cons of comparable materials and construction designs. It provides a helpful mix of technical discussion (thankfully, in simple English) and practical advice ranging from how to determine the suitability and average life of different types of roofs and roofing materials to how to detect leak-prone basements.

Extensive guidelines and suggestions are offered on evaluating insulation, floorplans and electrical, plumbing and heating systems.

Much of the information in this book will be as helpful to those who already own a home as to those who want to make an intelligent choice about buying one." *Washington Post.*
