## SOLAR ENERGY CUBE!

### It's More Than Fun In The Sun.

This unique demonstrator dramatically shows how sunlight converts to kinetic energy. Placed in the sun, our clear plastic Solar Energy Cube with its 3 highly efficient silicon solar cells powers the motor to whirl the propeller! They are the same cells found in our mighty solar panels, and the unit actually produces 1.5v DC, 825ma. The propeller's speed is directly related to amount of sunlight available. Nothing to wear out! All you need with this handy 4-inch cube is the sun. Great for executives, hobbyists, teachers.

# Let your child in on a world of wonder: Things of Science.

The how and why of science is always stimulating to the inquiring minds of children, and THINGS of science is just the "thing" to help satisfy this curiosity and search for knowledge. THINGS of science kits contain an explanatory booklet and simple materials for easy-to-do experiments that make science a "fun activity."

The kits are designed for young people from 10 to 16, but many parents buy them for interested younger children. They are ideal for an afternoon project, scout meetings, neighborhood clubs and playground activities.

Illustrated on this page are THINGS of science kits, normally obtained on a subscription basis, now being offered at \$1.00 each or three for \$2.50 while the supply lasts.
