

Let your child in on a world of wonder: Things of Science.

The how and why of science is always stimulating to the inquiring minds of children, and THINGS of science is just the "thing" to help satisfy this curiosity and search for knowledge. THINGS of science kits contain an explanatory booklet and simple materials for easy-to-do experiments that make science a "fun activity."

The kits are designed for young people from 10 to 16, but many parents buy them for interested younger children. They are ideal for an afternoon project, scout meetings, neighborhood clubs and playground activities.

Illustrated on this page are THINGS of science kits, normally obtained on a subscription basis, now being offered at \$1.00 each or three for \$2.50 while the supply lasts.

THINGS OF SCIENCE, Dept. P38
1719 N Street, N.W.
Washington, D. C. 20036

<input type="checkbox"/> Computation	<input type="checkbox"/> Man-Made Fibers	<input type="checkbox"/> Liquid Chromatography
