A popular selection of science-related books chosen by Science News readers from our weekly books column.

AVAST, READERSHIP!

ALL THE STRANGE HOURS: The Excavation of a Life—Loren Eiseley—Scribner, 1975, 273 p., illus. by Emanuel Haller, \$9.95. Autobiography of naturalist-anthropologist whose exceptionally literary prose brings alive his formative adventurous years as well as his philosophy. (SN 2/14, p. 109) [A]

ASTRONOMY AND COSMOLOGY: A Modern Course—Fred Hoyle—W. H. Freeman, 1975, 725 p., 23 color plates, photographs, diagrams, tables, \$15.95. An exciting textbook, emphasizes such topics as the large-scale structure of the universe, the history of matter, the origin of the planets, and the origin of life. [B]

THE AUTONOMOUS HOUSE: Design and Planning for Self-Sufficiency—Brenda and Robert Vale—Universe Bks, 1975, 224 p., drawings, tables, \$10. Two architects offer practical solutions for building a house that is not linked to utility lines, but instead uses the energy of sun, wind and rain to service itself and process its waste. [C]

THE COURAGE TO CREATE—Rollo May—Norton, 1975, 143 p., \$7.95. Explores the nature of creativity, its relation to the unconscious, the role of the Delphic oracle, and the role of limitation in creativity. [D]

THE EDGE OF REALITY: A Progress Report on Unidentified Flying Objects—J. Allan Hynek and Jacques Vallee—Regnery, 1976, 317 p., 19 photographs, map, \$14.95; paper, \$5.95. Astronomer

and computer-scientist bring up-to-date their speculative inquiry into flying saucer sightings and their interpretations. [E]

THE FIRST THREE YEARS OF LIFE—Burton L. White—P-H, 1975, 300 p., illus, tables, \$10. A detailed guide to the intellectual and emotional development of the very young child, describes each of the seven successive developmental phases, suggesting child-rearing practices, parental strategies, toys and equipment. [F]

HEADACHE: Understanding, Alleviation—James W. Lance—Scribner, 1975, 240 p., \$8.95. A factual book for the layman written by neurologist, examines every type of head pain, including four chapters on migraine. [G]

HOW TO BUILD A SOLAR HEATER: A complete guide to building and buying solar panels, water heaters, pool heaters, barbecues, and power plants—Ritchie, 1975, 247 p., photographs, drawings, paper, \$4.95. Instructions for the do-it-yourself person. [H]

MASTER HANDBOOK OF 1001 PRACTICAL ELECTRONIC CIRCUITS—Kendall Webster Sessions, Ed.—TAB Bks, 1975, 602 p., 1,250 diagrams, \$12.95; paper, \$9.95. A schematic source-book for technicians and amateur experimenters, classified according to general application, from alarms to transmitters, indexed. [I]

MED-FILE: Drug Interaction System—Harold M. Silverman—Med-File, Inc, 1975, 232 p., paper, \$5.95. Information on what may occur when two or three medications are taken simultaneously. File is arranged to indicate possible interactions for each particular medication involved, from alcohol to nose-drops, from aspirin to tranquilizer agents and vitamins. [J]

MENTAL AND ELEMENTAL NUTRIENTS: A Physician's Guide to Nutrition and Health Care—Carl C. Pfeiffer, M.D. and the Publications Committee of the Brain Bio Center—Keats, 1976, 538 p., tables, \$9.95. Concerned with preventive medicine and the correction of faulty biochemistry, the book discusses the role and function of all known nutrients as well as the clinical problems arising from their lack, or misuse. [K]

PHOTO-ATLAS OF THE UNITED STATES: First Complete Photographic Atlas of the U.S. Using Satellite Photography—Photo-Geographic International—Ritchie, 1975, 9x12, 128 p., 60 photo-maps, \$9.95; paper, \$5.95. Duetone photo mosaics of Landsat imagery of the 48 conterminous states plus Alaska, and full-color Skylab photos of Hawaii and 10 major cities. [L]

PROBLEM BOOK IN RELATIVITY AND GRAVITATION—Alan P. Lightman et al—Princeton U Pr, 1975, 614 p., \$20; paper, \$7.50. Unique collection of 475 problems (with solutions) arranged by subject and graded by difficulty, in fields at the frontiers of modern physics. [M]

THE TAO OF PHYSICS: An Exploration of the Parallels Between Modern Physics and Eastern Mysticism—Fritjof Capra—Shambhala Pubns (Random Hse), 1976, 330 p., photographs, drawings, \$12.50; paper, \$5.95. Equally at home in high energy physics and Eastern religions, the author explores parallels between the emerging theories of particle physics and the mystical traditions of Hinduism, Taoism and Zen. [N]

THE TIMETABLES OF HISTORY: A Horizontal Linkage of People and Events—Bernard Grun—S&S, 1975, 670 p., tables, \$24.95. From 4241 B.C. to A.D. 1974, this encyclopedic chronology tabulates mankind's concurrent achievements in political history, literature, religion and philosophy, the visual arts, music, science and technology, and events of daily life. Indexed. [O]

WEBSTER'S MEDICAL SPELLER—Merriam, 1975, 388 p., \$3.95. Handy reference to 35,000 medical words, spelled and divided, plus medical abbreviations and abbreviations used in prescriptions. [P]

YOUR PET'S SECRET LANGUAGE: How to Understand it and Speak it—Jhan Robbins—Wyden, 1975, 213 p., \$6.95. About communication, both verbal and non-verbal, between owners and dogs, cats, horses and birds. [Q]
