Summertime is the time to do Things

The how and why of science is always stimulating to the inquiring minds of children, and THINGS of science is just the "thing" to help satisfy this curiosity and search for knowledge. THINGS of science kits contain an explanatory booklet and simple materials for easy-to-do experiments that make science a "fun activity."

The kits are designed for young people from 10 to 16, but many parents buy them for interested younger children. They are ideal for an afternoon project, scout meetings, neighborhood clubs and playground activities.

Illustrated on this page are THINGS of science kits, normally obtained on a subscription basis, now being offered as a summer special at \$1.25 each or three for \$3.25 while the supply lasts.

THINGS of science, Dept. P41
1719 N Street, N. W.
Washington, D. C. 20036

Please send the **THINGS** of science kit(s) I have checked. My payment in the amount of \$..... is enclosed.
