

Let your child in on a world of wonder: Things of Science.

The how and why of science is always stimulating to the inquiring minds of children, and THINGS of science is just the "thing" to help satisfy this curiosity and search for knowledge. THINGS of science kits contain an explanatory booklet and simple materials for easy-to-do experiments that make science a "fun activity."

The kits are designed for young people from 10 to 16, but many parents buy them for interested younger children. They are ideal for an afternoon project, scout meetings, neighborhood clubs and playground activities.

Illustrated on this page are THINGS of science kits, normally obtained on a subscription basis, now being offered at \$1.25 each or three for \$3.25 while the supply lasts.

SOLAR ENERGY CUBE!

*It's More Than
Fun In The Sun.*

This unique demonstrator dramatically shows how sunlight converts to kinetic energy. Placed in the sun, our clear plastic Solar Energy Cube with its 3 highly efficient silicon solar cells powers the motor to whirl the propeller! They are the same cells found in our mighty solar panels, and the unit actually produces 1.5v DC, 825ma. The propeller's speed is directly related to amount of sunlight available. Nothing to wear out! All you need with this handy 4-inch cube is the sun. Great for executives, hobbyists, teachers.

STOP SAYING . . . "I CAN'T AFFORD TO TRAVEL"

**8 BOOKS THAT GIVE YOU
THE FACTS ON HOW
YOU CAN TRAVEL TODAY
WITHOUT BEING RICH**

AROUND THE WORLD BY FREIGHTER

**Where and how to travel by freighter
—the lower cost way to travel**

For no more than you'd spend at a resort, you can take a never-to-be-forgotten cruise to Rio or Buenos Aires. Or through the Canal or to the West Indies or across the Atlantic to the Mediterranean, etc.

And what accommodations you get—large rooms with beds (not bunks), probably a private bath, lots of good food, and plenty of relaxation as you speed from port to port.

Travel Routes Around the World names the freighter lines (hundreds of them, with sailings from practically every part in the world), tells where they go, what they charge, briefly describes accommodations plus life on your freighter, clothes to take, etc.

To stop saying that travel is expensive get your copy now. Price \$2.00.

AMERICA BY CAR

This big book is your insurance of seeing all the four-star sights in whatever corner of the U.S., Canada or Mexico you drive to. Whether you're visiting New England or California, Florida or the National Parks, the Great Lakes, the Mississippi, the East, the South, the Southwest, the Indian country, etc., it tells you day by day and road by road the scenic way to go and it always directs you to the important sights along the way and in the cities. In Niagara or Los Angeles, Washington or New Orleans, the Black Hills or Montreal, it takes the guesswork out of travel.

America is so big you can easily overlook or forget important sights or make many a wrong turn—which is something you certainly don't want to do in these days of higher gas prices. So get *America by Car*, the book that makes sure you'll see everything of consequence and always travel right. Only \$3.95 for this 170,000 word book (as big as 3 ordinary-sized novels).

SPECIAL OFFER: All 4 books above — *Travel Routes Around the World*, *America by Car*, *Fabulous Mexico — Where Everything Costs Less*, and *Off-the-Beaten Path* — (\$12.40 value) for only \$7.95.

BARGAIN PARADISES OF THE WORLD

West Indies, Mexico, Californias Abroad

This is a book on how to double what your money can buy. For that is what spending a few weeks or months, or even retiring, in the world's Bargain Parades amounts to.

Throughout this big book you learn where to spend a while in the West Indies, South America, the healthful islands of the South Seas, and the marvelous Balearic Islands, where two can live like kings yet spend very little.

You read about cities and towns where it's always spring, about "Californias Abroad," about "Four Modern Shangri-Las," about mountain hideaways, tropical islands as colorful as Tahiti but nearer home, about modern cities where you can live for less, about quiet country lanes and surf-washed coastal resorts.

If you've ever wanted to travel but wondered how you could afford it; if you have a little income but wonder how you'd ever be able to retire on that; if you want a life of luxuries on what you'd get only necessities back home, then you want this book. \$2.50.

FABULOUS MEXICO— Where Everything Costs Less

The land of retirement and vacation bargains—that's Mexico. Where an American retirement income looks like a fortune and your vacation money can buy double or more what it might back home. Norman Ford shows you vacation and retirement values where you can live like a prince on what you might just get along on in the U.S.A. He pinpoints areas that look like the South Seas, others where it's like June all year round, towns where many other Americans have retired; shows where to find modern flower-bedecked hotels and inns that charge hardly half of what you'd expect to spend in even such a land of vacation and retirement bargains as Mexico. Plus a big section on where to start your money earning so much more than in the U.S.A. \$2.50.

OFF-THE-BEATEN PATH

**—these are America's own
Bargain Parades**

*Where to retire or vacation
at what look like pre-inflation
prices and no one ever heard of
nerves or worries.*

Off-the-Beaten Path names the really low-cost Florida retirement and vacation towns, the top-notch values in Texas, the Southwest, California, the South and East, Canada, and a dozen other areas which the crowds have not yet discovered:

—Fabulous places like that undiscovered region where winters are as warm and sunny as Miami Beach's, yet costs can be 2/3rds less. Or that island that looks like Hawaii yet is 2000 miles nearer. Or France's only remaining outpost in this part of the world. . . or a village more Scottish than Scotland . . . or resort villages without crowds or high prices . . . or island paradises aplenty in the U.S. or Canada . . . or areas with almost a perfect climate. And for good measure you also read about low cost paradises in Hawaii, the Virgin Islands, and Puerto Rico.

A big book, with page after page of information on how to enjoy yourself more and more as you vacation, retire, or see America. Price, only \$3.95.

WHERE TO RETIRE ON A SMALL INCOME

This book selects out of the thousands of communities in the U.S. only those places where the climate is right, living costs are less, the surroundings pleasant, and nature and the community get together to guarantee a good time from fishing, boating, gardening, concerts, or the like.

It covers cities, towns, spas, resorts, etc., throughout America—from New England south to Florida, west to California and north to the Pacific Northwest. It includes both Hawaii and the American Virgin Islands.

Some people spend hundreds of dollars trying to get information like this by traveling around the country. Frequently they fail—there is just too much of America to explore! This book saves you from that danger. Yet it costs only \$2.95.

**A Good Trip Begins with a Harian Book
Publishers since 1935**

WHERE WILL YOU GO IN FLORIDA?

Florida needn't be expensive—not if you know just where to go for whatever you seek in Florida. And if there's any man who can give you the facts you want, it's Norman Ford, founder of the world-famous Globe Trotters Club.

His big book, *Norman Ford's Florida*, tells you, first of all, road by road, mile by mile, everything you'll find in Florida, whether you're on vacation or looking over job, business, real estate, or retirement prospects.

Always, he names the hotels, motels, and restaurants where you can stop for the best accommodations and meals at the price you want to pay. For that longer vacation, if you let Norman Ford guide you, you'll find a real "paradise"—just the spot which has everything you want.

Of course, there's much more to this big book. If you want a home in Florida, he tells you just where to head. If you've ever wanted to run a tourist court or own an orange grove, he tells you today's inside story of these popular investments.

If you want to retire on a small income, Norman Ford tells you exactly where you can retire now on the money you've got, whether it's a little or a lot. Because he always tells you where life in Florida is pleasantest on a small income, he can help you to take life easy now.

Whatever you seek in Florida, *Norman Ford's Florida* gives you the facts you need to find exactly what you want. Well over 100,000 words but it costs only \$3—only a fraction of the money you'd spend needlessly if you went to Florida blind.

ALL ABOUT ARIZONA — the state where it's great to live and vacation

Just as a road map shows you how to reach your destination, this big book leads you to whatever you want in this fast growing state of sun and scenic wonderlands.

What do you want to know about Arizona? Where to retire at low cost? Where are summers cool, winters sunny most of the time? Where are the leading places for a job, a home, etc.? What must a newcomer watch out for? Is it true that living costs are less than in the East? What about salaries?

Or do you want to tour this Grand Canyon State? What's the most scenic way to see Arizona by car or otherwise? What is really the most satisfying way to see the Grand Canyon? The Indian reservations? The other four-star sights? Which are the outstanding places to eat and stay? What are the sure ways to cut travel costs in this big state?

Filled with facts, this book almost brings Arizona to your door answering these and a hundred other questions. To know all you should about Arizona before you go for a home, a job, retirement in the sun, or a really memorable vacation, read this book. Price, \$3.45.

What's new in physics, astronomy and astrophysics...probability... chemistry...structural geology... the entire universe around us!

To keep in touch with everything that's happening in every scientific area that interests you, get set now for some great reading—and

take any 3 books all for only \$3.95

(values to \$60.85) as a member of

The Library of Science

if you will join now for a trial period and accept only 3 more books—at member discount prices—within the next 12 months.

36395. BLACK HOLES, QUASARS AND THE UNIVERSE. *Henry L. Shipman.* Also white dwarfs, neutron stars, supernovae, Seyfert Galaxies—and more. **\$12.95**

39865. COMPUTER DATA-BASE ORGANIZATION. *James Martin.* How you can use the latest design and implementation techniques to improve your data system's real-time accessibility. *Counts as 2 of your 3 books.* **\$26.50**

32300. ADVENTURES OF A MATHEMATICIAN. *S.M. Ulam.* First-hand account of the birth and childhood of the Atomic Age. **\$14.95**

81150. SUBATOMIC PHYSICS. *Hans Frauenfelder and Ernest M. Henley.* Covers everything from how accelerators and detectors work to the structure of subatomic particles. **\$17.50**

64145. THE NEW DICTIONARY OF PHYSICS. *Edited by H.J. Gay and Alan Isaacs.* Over 9,000 entries in 600 pages. A monumental reference. *Counts as 2 of your 3 books.* **\$35.00**

82660. TECHNOLOGY MATHEMATICS HANDBOOK. *Jan J. Tuma.* Instant access to concise summaries of all major definitions, formulas, graphs, tables of elementary and intermediate mathematics. **\$15.95**

73165. QUANTUM ELECTRONICS. *Amnon Yariv.* Classic work incorporates all the latest advances in quantum electronics. **\$20.95**

83760. THE THEORY OF COMPUTATION. *Walter S. Brainerd and Lawrence H. Landweber.* Demonstrates the equivalence of various algorithmic languages, treats unsolvable problems emphasizing methods for obtaining undecidability results, and more. **\$19.95**

55190. THE INCREDIBLE DR. MATRIX. *Martin Gardner.* More amazing feats and adventures in number theory, sleight of word, numerological analysis and puzzles. **\$8.95**

39745. COMPANION TO CONCRETE MATHEMATICS. *Z.A. Melzak.* Delightful collection of problems organized into over sixty sections, together with historical notes, solutions, observations, and remarks. **\$16.50**

73240. QUASARS, PULSARS, AND BLACK HOLES. *Frederic Golden.* As told by the science editor of *Time* magazine. Illustrated with twelve drawings and twenty-four color photographs. **\$7.95**

70170. PRINCIPLES OF HOLOGRAPHY. *Second Edition. Howard M. Smith.* From chemical formulas to applications. **\$16.50**

56380. INTRODUCTION TO PROBABILITY. *Richard L. Scheaffer and William Mendenhall.* Covers everything from Markov chains to the arrival times for the Poisson process. **\$13.50**

68735. PHYSICS OF THE EARTH AND PLANETS. *Alan H. Cook.* *Counts as 2 of your 3 books.* **\$24.75**

49267. FRONTIERS OF ASTROPHYSICS. *Edited by Eugene Avrett.* From recent solar research, to neutron stars, supernovae and intergalactic matter. *Counts as 2 of your 3 books.* **\$20.00**

50380. GLOSSARY OF CHEMICAL TERMS. *Clifford A. Hampel and Gessner G. Hawley.* Over 2,000 concise definitions. **\$14.95**

34140. APPLIED ANALYTICAL MATHEMATICS FOR PHYSICAL SCIENTISTS. *James T. Cushing.* **\$19.95**

MEMBERSHIP BENEFITS • In addition to getting three books for \$3.95 when you join, you keep saving substantially on the books you buy. • If you continue your membership past the trial period, you will be eligible for our Bonus Book Plan—an important way to save even more, at least 70% off publishers' prices. • Your Book Club News, describing the coming Main Selection and Alternate Selections, will be sent to you 15 times a year at three to four week intervals. • If you wish to purchase the Main Selection, do nothing and it will be sent to you automatically. • If you prefer one of the Alternates or no book at all, simply indicate your decision on the reply form always enclosed with the News and mail it so that we receive it by the date specified. • The News is mailed in time to allow you at least 10 days to decide if you want the coming Main Selection. If, because of late mail delivery of the News, you should ever receive a Main Selection without having had the 10 day consideration period, that Selection may be returned at Club expense.

44900. THE ENCYCLOPEDIA OF COMPUTER SCIENCE. *Edited by Anthony Ralston and Chester L. Meek.* A monumental 1,550 page volume, offering condensed, accurate information on every essential topic. Bibliographies, cross references, complete indexing and 700 charts and tables. *Counts as 3 of your 3 books.* **\$60.00**

61530. MATHEMATICS DICTIONARY. *Fourth Edition. Edited by Robert C. James and Edwin F. Beckenbach.* Revised and expanded. Over 8,000 terms. **\$17.95**

70190. PRINCIPLES OF OPERATIONS RESEARCH. *Second Edition. Harvey M. Wagner.* 1039-page complete overview of all fundamental concepts. **\$19.95**

49340. FUNDAMENTAL ASTRONOMY: SOLAR SYSTEM AND BEYOND. *Franklyn W. Cole.* From the earliest sensory-oriented glimmerings to modern astronomical thought. **\$16.50**

81780. SYMMETRY DISCOVERED. *Joe Rosen.* The most beautiful and practical of the sciences. **\$11.95**

52650. THE HERITAGE OF COPERNICUS. *Edited by Jerzy Neyman.* 25 highly readable essays on the quasi-Copernican revolutions that have occurred in the past five centuries. *Counts as 2 of your 3 books.* **\$30.00**

66570. AN OUTLINE OF STRUCTURAL GEOLOGY. *Bruce E. Hobbs, Winthrop D. Means and Paul F. Williams.* From the nature of stress and strain to the latest information on plate tectonics. **\$16.95**

56590. INTRODUCTORY GROUP THEORY AND ITS APPLICATION TO MOLECULAR STRUCTURE. *John R. Ferraro.* Includes derivation of selection rules, potential force fields, and added emphasis on space symmetry and point symmetry. **\$19.95**

41640. DATA COMMUNICATIONS DICTIONARY. *Charles J. Sippl.* Over 14,500 definitions and explanations of data processing terms. **\$19.95**

55000. THE ILLUSTRATED ENCYCLOPEDIA OF ASTRONOMY AND SPACE. *Ian Roxburgh.* **\$16.95**

59800. MAN DISCOVERS THE GALAXIES. *Richard E. Berendzen, Richard C. Hart & Daniel Seeley.* Our Home Galaxy, the Milky Way System and the universe of galaxies in which we find ourselves. **\$15.95**
