

Less than 6 inches long weighs only 5 ounces.

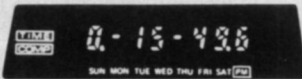

The Future Machine!

It's computerized to remind you out loud of appointments, when to get out of bed at home and away, keeps track of every costly minute on the long-distance phone. It even handles your personal bookkeeping—and that's just for starters!

The quartz Future Machine manages all this—and more!

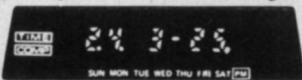

- Wakes you up, beeps to remind you of appointments all day long!

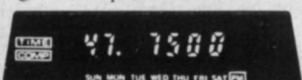

- Instantly handles all your home and office bookkeeping calculations with electronic accuracy!

- Tells you the date, time, day of week. Special date key calculates over a 199-year span (from 1,901 through 2,099)!

- Tells you to the second how long you've been on the long-distance phone... how long your speech is running... how much time you've spent on an appointment. (Perfect for professionals for billing out time.) Even use it for horse racing, boating, auto trips, etc.

- Special time key calculates hours, minutes, seconds... converts to decimal numbers for payroll, time sheets, cost accounting, time-and-motion studies!

Once you start enjoying all the wonders this miniaturized electronic wizard can work, you'll wonder how you ever managed without it! You'll want to carry it everywhere—home, office, business trips—and you can... easily! It slips into your shirt pocket! Only \$49.95 with batteries. Optional AC adapter—\$4.95. (We recommend it.)

DOUBLY GUARANTEED

(You get both the manufacturer's warranty and our money-back guarantee!)

The quartz Future Machine must be the most useful and versatile personal electronic assistant you've ever seen... must do everything you expect of it—and then some! Or return it within 30 days after delivery for refund of your full purchase price. What's more, the maker's limited warranty protects you for a full year!
