

## Solar Energy Fan Cube

Manufactured by Solarex Corp.

**3 Solar Cells Actually Convert Light Into Energy That Powers A Miniature Fan Motor!**

**See and Learn About The Energy Source Of YOUR Future!** Here's a smartly styled Solar Energy Demonstrator for the Executive Desk, the coffee table at home, or for educational purposes. It comes completely assembled and equipped with **3 Highly Efficient Silicon Solar Cells**, a clear see-through Cube, a motor and a fan propeller. Just place it in sunlight and watch it convert Solar Energy into Electric and Kinetic Energy. These Solar Cells are the same type found in large solar panels, currently being used to power satellites, radio transmitters on earth, weather stations, Solar-Powered watches and calculators, and eventually heat for homes and offices.

**Clean and Silent** is the Power Of Your Future — No radioactivity, no smoke, no pollution. It is a wonderful conversation piece and it makes a fascinating gift or business premium with a unique educational and participatory value. **Cost: \$24.95 plus \$2 shipping and handling.** Size: a 3-3/4" cube. Also works by incandescent light.

**Examine It Yourself — No Obligation...**

We'll accept Check, Money Order, or Charge Cards. Please give account no., expiration date, Bank no. (if any) and your Signature, Calif. Residents add 6% Sales Tax. **Order Toll Free 24 Hours, 7 Days 800-453-2400.** Utah Residents Call 1-800-662-2500.

The **Starshine Group**

Dept. S128, 1114 State Street, Suite 233, Santa Barbara, CA 93101

Also Available: The World's First Solar Powered Flashlight, Solar Cell Stores Energy In Rechargeable Batteries During The Day, For Light At Night. Only \$29.95 plus \$2 shipping and handling.

# BOOKS

BOOKS is an editorial service for readers' information. To order any book listed or any U.S. book in print please remit retail price, plus 25¢ handling charge for each book to **BOOK ORDER SERVICE**, Science News, 1719 N Street, N.W., Washington, D.C. 20036. All books sent postpaid.

**THE AMERICAN CHAMELEON**—William White, Jr.—Sterling, 1977, 80 p., illus., \$4.95. A simply written book which traces and examines the distinctive life cycle of this lively lizard, a fascinating pet. Beautifully illustrated with close-up photographs and microphotographs.

**EARTH, THE LIVING PLANET**—Michael J. Bradshaw—Halsted Pr, 1977, 302 p., photographs & drawings, \$14.95. Examines the environments of our planet which make life possible. The earth is viewed as a balanced and interacting mechanism requiring careful use.

**GRASS: The Everything, Everywhere Plant**—Augusta Goldin—Nelson, 1977, 176 p., illus., \$7.95. The great grass family, called Gramineae, includes thousands of wild and cultivated grasses which grow both beyond the Arctic Circle and in the tropics and are cultivated for food, turf and many other uses.

**HOW TO SURVIVE BEING ALIVE**—Donald L. Dudley and Elton Welke—Doubleday, 1977, 179 p., \$6.95. Explores the correlation between stress and disease in our society. Explains stress, tells how to recognize, measure and control it.

**THE NICHOLSON SOLAR ENERGY CATALOGUE AND BUILDING MANUAL**—Nick Nicholson—Baraka Books, 1977, 175 p., illus., paper, \$9.50. Information pertaining to the practical application of solar energy and related systems, covering home design, air systems, collectors and storage fabrication, wind systems, water heaters, greenhouses and insulation techniques. Well illustrated with detailed drawings and photographs.

**THE PURSUIT OF NATURE: Informal Essays on the History of Physiology**—A. L. Hodgkin et al.—Cambridge U Pr, 1977, 180 p., illus., \$15.95. Written as part of the celebration of the centenary of the Physiological Society in 1976.

**RAILS OF THE WORLD: A Monograph of the Family Rallidae**—S. Dillon Ripley, with a chapter on fossil species by Storrs L. Olson—Godine, 1977, 406 p., paintings by J. Fenwick Lansdowne, \$75. Rails are among the least known and most elusive of any bird family, found in almost all parts of the world and including flightless species. A definitive study by the Secretary of the Smithsonian Institution who saw his first forest rail in New Guinea in 1938. Beautiful paintings reproduced in seven-color offset.

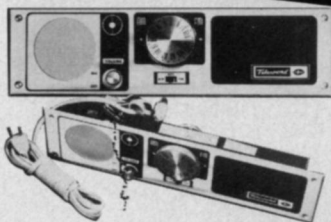

## MARTIAN SUNSET
