SMALLER IS BETTER.

Metagaming's MicroGames are small, fast-playing, and inexpensive. But not trivial. A MicroGame is a classic war-game...that you can put in your pocket and play over lunch.

It won't take you all day to learn a Micro — or all night to play it. But you'll be challenged. And (we think) very pleased.

*More play for less money? Try a MicroGame and see.*

### MicroGame 1...

## OGRE

\$2.95 — or \$2.50  
for *The Space Gamer*  
subscribers.

The OGRE is a robotic tank — 30 meters long, armed with nuclear weapons, incredibly tough, and inhumanly intelligent. This fast-moving game pits *one* Ogre against a large force of “conventional” tanks, hovercraft, and infantry in the year 2085. It's an even match...

### MicroGame 2...

## CHITIN:I

THE HARVEST WARS

\$2.95 — \$2.50 for  
TSG subscribers.

The intelligent insects of the planet Chelan go to war for one reason only. Food. This detailed tactical game pits varying forces of the specially-bred Hymenopteran warrior types against one another. Victory goes to the player who removes the most food — *including enemy bodies* — from the board.

### MicroGame 3...

Man-to-man combat with  
archaic weapons — from  
**THE FANTASY TRIP.**

For one, two, or several  
players. You create fighters, set  
their strength and dexterity,  
choose their weapons and armor,

## MELEE

and send them into the arena.  
Victors improve their skill; losers die.  
Combat humans, animals, monsters,  
elves, dwarves, or orcs...it's up to you.  
\$2.95 — \$2.50 for TSG subscribers.

### MicroGame 4...

## WARPWAR

A game of interstellar maneuver and tactical combat. Players design their own ships — each with its own offensive, defensive, and movement capabilities — and battle with a unique *diceless* combat system. To win, you must *outguess* your opponent by anticipating his tactics.

\$2.95 — \$2.50 for subscribers to *The Space Gamer*.

### MicroGame 5... RIVETS

The war is over. Everybody is dead. But nobody told the machines. In RIVETS, two simple-minded computer complexes slug it out, constantly reprogramming their even stupider robot fighters to kill each other's minions.  
\$2.95 — \$2.50 for *The Space Gamer* subscribers.

### MicroGame 6... WIZARD

Companion game to MELEE...the *magical* combat system from *The Fantasy Trip*. Can be played on its own as a battle of sorcerors...or combined with MELEE. A larger rulebook and map price this one at \$3.95, or \$3.50 for TSG subscribers.

- 300 Honorable Mentions will be brought to the attention of all colleges, universities and technical schools in the U.S.A.
- Hundreds of students automatically will receive recommendations and other assistance toward a college education in schools within states holding State Science Talent Searches.
- For all students, a sense of accomplishment and a measure of self-evaluation that comes from finishing a hard assignment.

### ABOUT THE SCIENCE TALENT SEARCH

More than 10,800 students have been members of the Winners and Honors Groups in the past 36 years. Because of their standing in this oldest and most prestigious competition of its kind, they have been offered scholarships from institutions seeking quality students with proven ability in science and engineering. Many winners in the Science Talent Search are offered summer employment in scientific laboratories and other tokens of early acceptance into the world of science and engineering. Such benefits also come frequently to members of the Honors Group and to those who place in State Science Talent Searches.

### ANSWERING YOUR QUESTIONS

**Who May Compete?** Any boy or girl who is in his last year of secondary school (public, private, parochial) in the United States and Puerto Rico, who is expected by the certifying school official to complete college entrance qualifications before October 1, 1978 and who has not competed in any previous Science Talent Search is eligible to enter this competition.

**How Can Students Compete?** Teachers or other school officials must request entry materials for the outstanding science and mathematics students of the school.

**What Is A Completed Entry?** A project report of about 1,000 words which presents evidence of research ability in science or engineering; a Personal Data Blank filled in by student, teachers and principal; national test scores and high school transcript.

**How Are Entries Judged?** Judging is based primarily on the student's report on an independent research project in the physical sciences, engineering, mathematics, biological sciences (excluding live vertebrate experimentation), or behavioral sciences.

**What Is The Deadline?** Entries must reach Science Service by Midnight, December 15, 1977
