**BYTE**

**the leading magazine in the  
personal computer field**

*The personal  
computer  
age is here.*

Join Byte's 110,000 subscribers and catch up on the latest developments in the fast-growing field of microprocessors. Read BYTE, The Small Systems Journal that tells you everything you want to know about personal computers, including how to construct and program your own computer (over 30,000 BYTE readers have already built, or bought, their own systems and half of these have 8K bytes or more). You'll find our tutorials on hardware and software invaluable reading, also our reports on home applications and evaluative reviews based on experiences with home computer products.

*Home computers  
. . . practical,  
affordable.*

Large scale integration has slashed prices of central processors and other computer components. This has encouraged the development of new, low-cost peripherals resulting in more hardware and software — more applications than you could imagine, more opportunities for you. BYTE brings it all to you. Every issue is packed with stimulating and timely articles by professionals, computer scientists and serious amateurs. BYTE editorials explore the fun of using and applying computers toward personally interesting problems such as electronic music, video games and control of systems for alarms to private information systems.
