

NEW GALEN MICROSCOPE

Your slides have never looked so good.

Look at your own slides through our new GALEN microscope and see how clear and fine the detail is. And notice that you get full 2" x 3" coverage. Named after the famous Greek physician, GALEN meets exacting Bausch & Lomb standards.

This fine instrument is ideal for routine work in colleges, hospitals and industrial labs. And it meets all specifications required for a microscope used to study medicine.

The GALEN microscope is priced at \$746.00*, considerably less than many microscopes that don't have all its features.

We think this is the best microscope value on the market today. But don't

take our word for it. Arrange for a free demonstration.

Look into GALEN when you're looking for a microscope:

- Parfocal, coated optics.
- 4x, 10x, 40x, 100x (oil) achromatic objectives.
- Monocular, binocular, triocular models.

- In-base, variable control illuminator (30-watt).
- Ideal for brightfield, darkfield and phase contrast observations.
- Observation body rotates 360°, locks at any point.
- Precentered substage with convenient low rack-and-pinion focusing.
- Graduated mechanical stage; low, coaxial controls.
- Immediate off-the-shelf delivery.
- Bausch & Lomb guarantee, and nationwide service.

PAPER FOLDING AND PAPER SCULPTURE

By Kenneth Ody. This unique manual gives you all the usual and elementary techniques, plus the more advanced forms in three dimensions known as "paper sculpture."

It includes folding, Origami, paper cuts, animal and figure cutouts, curling and waving, weaving, geometric solids, paper-sculpture as reliefs, in the round, etc.

You are taught to create original designs as well as to fashion a great variety of objects: Dancing figures, animals, hats, toys, masks, holiday ornaments etc. There are suggestions for displays, gifts, decorations, stage sets, costumes, etc.

Directions are simple, clear and detailed; patterns and step-by-step illustrations by the hundred are a great help. Splendid photos show the wonderful complexity and striking beauty of objects made 369 drawings, 25 photos.

GEM TESTING

FOR FUN AND PROFIT

This exciting pursuit combines the challenge of detective work ... the thrill of spotting sensational "buys" ... the satisfaction of knowing when someone else's big flashy "diamond isn't ... and the opportunity for highly paid, spare-time earnings. GEM TESTING, bible of amateur and professional alike, is a remarkably simple, lavishly illustrated book by B. W. Anderson, director of London's world famed Precious Stone Laboratory. Anderson has examined more gems than any man in history. Now he shows you step-by-step the high speed methods by which he unerringly identifies precious stones. Emphasis throughout the book is on rapid examination with the naked eye. This FIRST AMERICAN EDITION OF GEM TESTING tells, shows and explains everything you need to know. Copiously illustrated.

COME, JOURNEY THROUGH THE UNIVERSE

WITH THE ASTROSCAN 2001

A TELESCOPE LIKE NO OTHER

Now you can personally explore the heavens with the most innovative astronomical instrument ever designed. It's Astroscan 2001, a unique new telescope built by Edmund Scientific Co., a leader in astronomy for over 35 years.

Take Your Entire Family on a Fantastic Visual Voyage

The Astroscan 2001 gives you a window on a world beyond that which you have ever known! You'll see light from distant suns which began traveling to our Earth long before you were born. You'll see star clusters, double stars, nebulae, the planets — the full celestial display of the night sky.

You'll see the moon in crisp, clear detail. It's an inspiring, awesome experience you can enjoy for a lifetime!

Engineered in the Edmund Scientific Laboratories

Edmund Scientific has devoted more than two years of concentrated engineering and product development to produce this special instrument. Our objectives were simple but challenging. The newest Edmund Scientific telescope had to: • give bright, clear views of the stars, the planets, the moon • be light weight for extreme portability; convenient for hikes, bike trips, vacations • be simple to set up and use so anyone, even a young child, could enjoy the exciting hobby of astronomy • and, most important, *be affordable!*

The result of this intensive program is Astroscan 2001, a telescope so different and so precise even professional astronomers have raved about it. And at just \$149.95 it's one of the best telescope buys available.

Astroscan — A "Richest Field" Telescope

The 2001 is a classic Newtonian reflector telescope, using the same basic optical design as the largest observatory instruments. Light from distant celestial objects enters through an optically-coated window, is reflected and focused by a 4¼" highly-polished *parabolic* mirror, reflected onto a secondary flat-surfaced mirror and through a 28mm magnifying eyepiece, to your eye. The fine optics in Astroscan are equal to most found in the world's best cameras.

With the Astroscan's wide field you can see more stars and features in a single view than possible with most other scopes. And, Astroscan's amazing light-gathering ability permits views of stars so faint they're invisible to the naked eye.

Astroscan weighs just over 10 pounds and is only 17 inches long. The attractively styled 2001 body is ruggedly constructed of high-impact red plastic. Its uniquely designed

aluminum mount and fingertip focusing enables anyone to set up and use this fine instrument in minutes.

Tomorrow's Telescope You Can Own Today!

The Edmund Scientific Astroscan 2001 is now in full production and available for immediate shipment. You can order yours today with the coupon below. Use the Astroscan under the Edmund 30-day unconditional guarantee. Use the 2001 in your backyard, at the beach, in the mountains — anywhere. Experience the spectacular views awaiting you wherever you go. If you and your family are not completely satisfied with this exciting telescope, simply return it for a full refund. Expand your world today. Order now.

Owners report: "A good flexible instrument of this quality has been long overdue," "... has great overall design."

"The Astroscan 2001 is a very complete telescope."
