EAVESDROPPING ON THE EARTH

Burglar Alarm Breakthrough

A new computerized burglar alarm requires no installation and protects your home or business like a thousand dollar professional system.

The Midex security computer looks like a handsome stereo system component and measures only 4"x 10½"x 7."

It's a security system computer. You can now protect everything—windows, doors, walls, ceilings and floors with a near fail-safe system so advanced that it doesn't require installation.

The Midex 55 is a new motion-sensing computer. Switch it on and you place a harmless invisible energy beam through more than 5,000 cubic feet in your home. Whenever this beam detects motion, it sends a signal to the computer which interprets the cause of the motion and triggers an extremely loud alarm.

The system's alarm is so loud that it can cause pain—loud enough to drive an intruder out of your home before anything is stolen or destroyed and loud enough to alert neighbors to call the police.

The powerful optional blast horns can also be placed outside your home or office to warn your neighbors.

Unlike the complex and expensive commercial alarms that require sensors wired into every door or window, the Midex requires no sensors nor any other additional equipment other than your stereo speakers or an optional pair of blast horns. Its beam actually penetrates walls to set up an electronic barrier against intrusion.

NO MORE FALSE ALARMS

The Midex is not triggered by noise, sound, temperature or humidity—just motion—and since a computer interprets the nature of the motion, the chances of a false alarm are very remote.

An experienced burglar can disarm an expensive security system or break into a home or office through a wall. Using a Midex system there is no way a burglar can penetrate the protection beam without triggering the loud alarm. Even if the burglar cuts off your power, the four-hour rechargeable battery pack will keep your unit triggered, ready to sense motion and sound an alarm.

DEFENSE AGAINST PEEPING TOMS

By pointing your unit towards the outdoors from your bedroom and installing an outside speaker, light, or alarm, your unit can sense a peeping Tom and frighten him off. Pets are no problem for the Midex. Simply put them in one section of the house and concentrate the beam in another.

When the Midex senses an intruder, it remains silent for 20 seconds. It then sounds the alarm until the burglar leaves. One minute

after the burglar leaves, the alarm shuts off and resets, once again ready to do its job. This shut-off feature, not found on many expensive systems, means that your alarm won't go wailing all night long while you're away. When your neighbors hear it, they'll know positively that there's trouble.

PROFESSIONAL SYSTEM

Midex is portable so it can be placed anywhere in your home. You simply connect it to your stereo speakers or attach the two optional blast horns.

Operating the Midex is as easy as its installation. To arm the unit, you remove a specially coded key. You now have 30 seconds to leave your premises. When you return, you enter and insert your key to disarm the unit. You have 20 seconds to do that. Each key is registered with Midex, and that number is kept in their vault should you ever need a duplicate. Three keys are supplied with each unit.

As an extra security measure, you can leave your unit on at night and place an optional panic button by your bed. But with all its optional features, the Midex system is complete, designed to protect you, your home and property just as it arrives in its well-protected carton.

The Midex 55 system is the latest electronic breakthrough by Soflan Systems, Inc.—a company that specializes in sophisticated professional security systems for banks and high security areas. JS&A first became acquainted with Midex after we were burglarized. At the time we owned an excellent security system, but the burglars went through a wall that could not have been protected by sensors. We then installed over \$5,000 worth of the Midex commercial equipment in our warehouse. When Soflan Systems announced their intentions to market their units to consumers, we immediately offered our services.

COMPARED AGAINST OTHERS

In a recent issue of a leading consumer publication, there was a complete article written on the tests given security devices which were purchased in New York. The Midex 55 is not available in New York stores, but had it been compared, it would have been rated tops in space protection and protection against false alarms—two of the top criteria used to evaluate these systems. Don't be confused. There is no system under \$1,000 that provides you with the same protection.

YOU JUDGE THE QUALITY

Will the Midex system ever fail? No product is perfect, but judge for yourself. All components used in the Midex system are of aerospace quality and of such high reliability that they pass the military standard 883 for thermal shock and burn-in. In short, they go through the same rugged tests and controls used on components in manned spaceships.

Each component is first tested at extreme

tolerances and then retested after assembly. The entire system is then put under full electrical loads at 150 degrees Fahrenheit for an entire week. If there is a defect, these tests will cause it to surface.

PEOPLE LIKE THE SYSTEM

Wally Schirra, a scientist and former astronaut, says this about the Midex 55. "I know of no system that is as easy to use and provides such solid protection to the homeowner as the Midex. I would strongly recommend it to anyone. I am more than pleased with my unit."

Many more people can attest to the quality of this system, but the true test is how it performs in your home or office. That is why we provide a one month trial period. We give you the opportunity to see how fail-safe and easy to operate the Midex system is and how thoroughly it protects you and your loved ones.

Use the Midex for protection while you sleep and to protect your home while you're away or on vacation. Then after 30 days, if you're not convinced that the Midex is nearly fail-safe, easy to use, and can provide you with a security system that you can trust, return your unit and we'll be happy to send you a prompt and courteous refund. There is absolutely no obligation. JS&A has been serving the consumer for over a decade—further assurance that your investment is well protected.

To order your system, simply send your check in the amount of **\$199.95** (Illinois residents add 5% sales tax) to the address shown below. Credit card buyers may call our toll-free number below. There are no postage and handling charges. By return mail you will receive your system complete with all connections, easy to understand instructions and a one year limited warranty. If you do not have stereo speakers, you may order the optional blast horns at **\$39.95** each, and we recommend the purchase of two.

With the Midex 55, JS&A brings you: 1) A system built with such high quality that it complies with the same strict government standards used in the space program, 2) A system so advanced that it uses a computer to determine unauthorized entry, and 3) A way to buy the system, in complete confidence, without even being penalized for postage and handling charges if it's not exactly what you want. We couldn't provide you with a better opportunity to own a security system than right now.

Space-age technology has produced the ultimate personal security computer. Order your Midex 55 at no obligation, today.

The Technical Advisor To The Movie "Close Encounters" Invites You To

Experience Your Own Close Encounter With UFO's

Are UFO's real or imagined? Are they from Earth or beyond? Here, at last, is a scientific examination of the phenomenon that brings you into this exciting controversy.

Dr. J. Allen Hynek, widely acclaimed UFO expert and director of the Center for UFO Studies and Technical Advisor to the current movie "Close Encounters", has created three startling slide/sound studies. These studies cover everything from the general characteristics of the UFO phenomenon to "Close Encounters of the Third Kind"—actual reported contact with extraterrestrial "beings!"

Each study, designed for the layman, consists of 20 to 25 fascinating 35mm slides selected from thousands of documented reports collected by UFO scientists plus a complete audio narration on cassette by Dr. Hynek himself. You'll get the same expert analysis that the makers of the new motion picture hit, "Close Encounters" received from Dr. Hynek.

Now you can have your own first-hand view of some of the most enigmatic events on this earth. Purchase any combination of these three exciting slide/sound packages.

■ **CLOSE ENCOUNTERS.** The most intriguing and fascinating category of reports, Close Encounters are sightings that occur close to witnesses. Those of the First Kind are merely close in proximity. Those of the Second Kind produce physical effects near the sighting. Close Encounters of the Third Kind are those in which the presence of "entities" or "beings" is reported. 20 slides plus sound cassette — P-42,594 **\$14.95** Ppd.

■ **THE UFO PHENOMENON.** What are the characteristics of this world-wide enigma? The result of many years of USAF and scientific inquiry, this slide/cassette report describes the prominent features of the UFO situation: geographic and time distribution, duration, size, shape, color, sound, trajectory and locality. 25 slides plus cassette — P-42,593 **\$14.95** Ppd.

■ **UFO/IFO.** Not all UFO's remain unidentified. The majority become IFO's (identified flying objects), commonplace misidentifications of airplanes, cloud formations, weather balloons, etc. This set usually clarifies the differences between UFO's and IFO's. 25 slides plus cassette — P-42,592 **\$14.95** Ppd.

ABOUT THE AUTHOR

Dr. J. Allen Hynek is Professor of Astronomy at Northwestern and Director of The Center for UFO Studies, 924 Chicago Ave., Evanston, Ill. He is former Associate Director of the Smithsonian Astrophysical Observatory and Consultant to the U.S. Air Force's "Sign" and "Blue Book" UFO sightings projects. Most recently he served as Technical Advisor to "Close Encounters", the hit film from Columbia Pictures.

EDMUND SCIENTIFIC CO., Dept. Q-05
Edscorp Bldg., Barrington, N.J. 08007

Please send me the following UFO sets indicated below.

- The UFO Phenomenon (No. P-42,593) \$14.95 Ppd. UFO/IFO (No. P-42,592) \$14.95 Ppd.
 Close Encounters (No. P-42,594) \$14.95 Ppd. SPECIAL . . . SAVE NEARLY \$5.00. ALL 3 SETS (P-42,604) \$39.95

Add \$1.00 handling to total
