

# science news

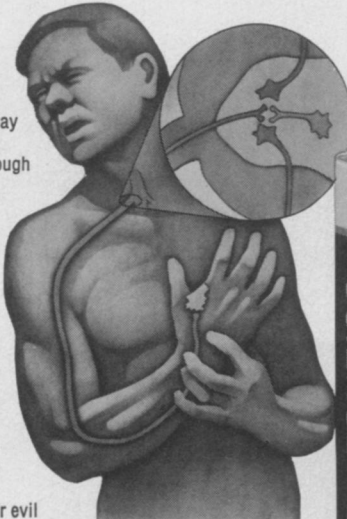

MAY 13, 1978  
VOL. 113, NO. 19, 305-320

## HEART SURGERY FOR WHOM?

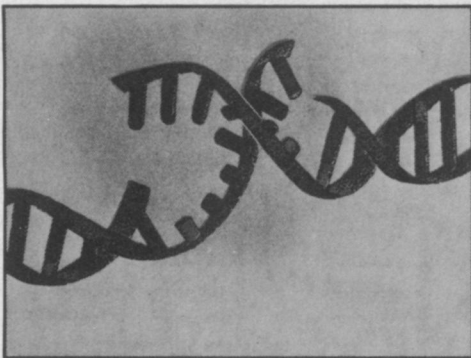

# Discover the truth about modern-day "Frankensteins"...the upcoming Ice Age ...lost cities of the Bible...and more!

Learn why the discovery of the human body's own natural narcotics may lead to the most important breakthrough against pain and suffering since the development of anesthesia.

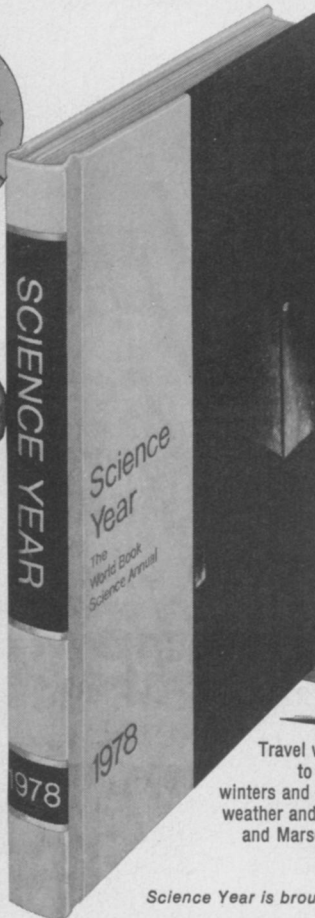

Observe scientists combining genes of one organism with those of another — a breakthrough that may have more potential for good or evil than the splitting of the atom!

Lou Bory

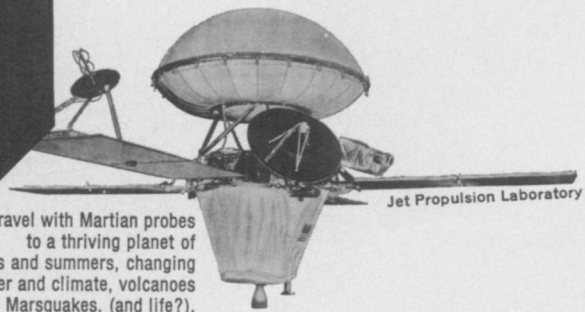

Handelan Pederson, Inc.

Rod Allin, Bruce Coleman, Inc.

Follow close-knit timber wolf families as they struggle to survive among men who fear them.

Jet Propulsion Laboratory

Travel with Martian probes to a thriving planet of winters and summers, changing weather and climate, volcanoes and Marsquakes, (and life?).

Science Year is brought to you by the publisher of The World Book Encyclopedia.

## The 1978 Edition of Science Year reveals recent breakthroughs that may directly affect your life and wellbeing.

Send for *Science Year* and examine it for 15 days free. You'll receive a briefing on the most urgent developments in science today — and something even more.

Over 430 pages of pure adventure.

For example, you'll enter a laboratory to witness the single most important scientific breakthrough of the 20th Century. Modern-day "Frankensteins" are actually "stitching" together genes of different organisms. Will they cross the several-billion-year-old barrier between plants and animals? Accidentally create a monster? Correct genetic disorders? Find a cure for cancer? Unleash new germs and world-wide epidemics?

**Next stop: The Bible — and the site of one of the most exciting archaeological discoveries ever made.** Discover an entire city lost beneath the sands of Syria for thousands of years. An ancient library that tells of Sodom and Gomorrah — and introduces a likely ancestor of the Hebrews who predated Abraham by two centuries!

Through the 1978 *Science Year*, your family

will explore the surface of Mars . . . learn why diabetes is actually on the rise . . . probe the secrets of controlling tension and stress through biofeedback . . . find out when the next Ice Age is likely to occur . . . all this, and a great deal more!

**Makes learning an adventure — for young and old alike.**

Brought to you by the publisher of *The World Book Encyclopedia*, *Science Year* is not only fun to read. It brims over with fascinating new information not found in textbooks written just one year ago. It's a valuable supplement for students in junior high, high school, and beyond. (Also for adults who have never really stopped being students.)

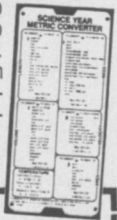

Imagine having a complete A-to-Z file of

the year's scientific developments . . . 15 colorfully illustrated, in-depth Special Reports . . . personal and revealing glimpses of people in science! A big, illustrated, brain-stimulating volume the whole family will enjoy.

And all it takes to examine it free is to fill out and mail the coupon right away.

**Special free-gift offer!**

Mail the coupon today and we'll send you the brand-new *Science Year Metric Converter* ABSOLUTELY FREE! Lets you do 152 lightning-fast conversions to grams, meters, liters, and more. Outperforms converters selling in stores for \$3.50. Even if you decide to return *Science Year*, it remains yours to keep free!

Send no money now. Cut out and mail today!

### FREE-GIFT FREE-TRIAL COUPON

**YES**—mail me the new *Science Year* for 15 days free. At the end of that time, I may return it if unsatisfied and owe absolutely nothing. You'll even refund return postage on request. Otherwise, I may keep it for only \$8.95, including delivery! This would entitle me to receive future annual editions for 15 days' free trial. I would, of course, be notified well in advance of shipment and may cancel at any time. **No matter what I decide, I may keep the Science Year Metric Converter as a FREE GIFT!**
