THE ANIMALS AMONG US: Wildlife in the City — John C. McLoughlin — Viking Pr, 1978, 194 p., illus., \$14.95. Tells of the animal species that have adapted to living in and around human habitations. These animals, such as the cockroach, pigeon and house mouse, give us the opportunity to examine animal life-styles, evolution and behavior by looking at the wildlife close at hand.

A BEGINNER'S GUIDE TO DESIGNING & BUILDING TRANSISTOR RADIOS: How to Design and Build Your Own Radios from Scratch — R. H. Warring — Tab Bks, 1978, 128 p., illus., \$7.95; paper, \$4.95. An illustrated guide for the amateur to learn how transistor radios work, to build them and to gain a working knowledge of practical circuit design.

CHINESE HERBAL MEDICINE: Ancient Art and Modern Science — Richard Hyatt — Schocken, 1978, 160 p., \$12.95. An overview of Chinese herbal medicine with a detailed presentation of many of the formulae and crude drugs that comprise the Chinese pharmacopoeia.

EPIDEMICS — Geoffrey Marks and William K. Beatty — Scribner, 1978, 323 p., illus., paper, \$4.95. Tells the story, often described by eyewitnesses, of some of the major epidemics in human history from ancient times to the present. Originally published in hardback in 1976.

Calendars from ASTRONOMY

SPACE 1979 is bigger and more beautiful than ever!

\$5.95 each

Actual size (closed): 11-3/4" x 11-3/4"

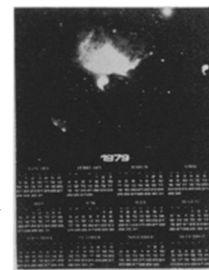

SPACE 1979 features 12 full color varnished reproductions of some of the best space art and photographs that have appeared in ASTRONOMY, and each is accompanied by a short, easy-to-understand description. From a solar eclipse to the Magellanic Clouds, you'll want to frame these stunning reproductions!

Exciting features include:

- Full color, varnished art & photos on coated 80 lb. paper
- Punched for hanging
- Special sky events noted
- Room to jot appointments
- 1979 spiral bound calendar

Added Bonus:

- 3-year calendar
- Important dates in the history of astronomy and space exploration

The 1979 ORION CALENDAR

\$3.00 each

Actual size: 22" x 34"

1979 is just around the corner. And to celebrate its arrival, we've designed a magnificent, decorative wall poster calendar. This huge, quick-reference calendar (the full year at a glance!) shows the breathtaking Great Nebula in Orion in full color!

The simple elegance of the 1979 Orion Calendar will grace any wall — whether office, study, classroom or bedroom. And it will make an excellent gift, too — for anyone, of any age.

Each frameable lithographed reproduction is printed on 100 lb. paper and varnished. And to insure that the Orion Calendar reaches you in A-1 condition, it will be rolled, and shipped to you in a sturdy mailing tube.

SPACE 1979 and the 1979 ORION CALENDAR are timeless gifts.

Payment must accompany your order.
(Please remit in U.S. funds or equivalent.)

FIGURING: The Joy of Numbers — Shakuntala Devi — Har-Row, 1977, 157 p., \$6.95. Dramatizes the fascination of numbers and leads the reader into a world of intellectual adventures where calculations are thrilling, not tedious. Only a basic knowledge of arithmetic is necessary.

IDENTIFICATION GUIDE TO FRESHWATER TROPICAL AQUARIUM FISH — Frederick William Pitcher — Arco, 1977, 60 p., color illus. by Michael Stringer, \$5.95. Availability and ease of maintenance was considered in the selection of the species represented. Information on how to set up and maintain a freshwater aquarium is included.

IMITATION: A Developmental Perspective — Regina Yando et al — LEA (Halsted Pr.), 1978, 207 p., charts & graphs, \$12.95. Explores the possible meaning for human development of imitation in children and attempts to develop an integrated position toward knowledge about imitation.

KINSHIP IN BALI — Hildred Geertz and Clifford Geertz — U of Chicago Pr, 1978, 213 p., illus., paper, \$3.95. An innovative study of kinship and social organization. Originally published in hardback in 1975.

THE LIFE THAT LIVES ON MAN — Michael Andrews — Taplinger, 1978, 183 p., illus., paper, \$4.95. Demonstrates that our skin is a habitat that supports flora and fauna that have evolved with us through millions of years. Includes many magnification photographs and drawings. Originally published in hardback in the United States in 1977.

NEW CONCISE ATLAS OF THE UNIVERSE — Patrick Moore, foreword by Sir Bernard Lovell — Rand McNally, rev. ed., 1978, 190 p., color and b&w photographs and drawings, \$29.95. The four major sections of this handsomely illustrated atlas, which includes historical information in addition to current science, are Atlas of the Earth from Space, Atlas of the Moon, Atlas of the Solar System and Atlas of the Stars.

ORIGINS IN ACOUSTICS: The Science of Sound from Antiquity to the Age of Newton — Frederick Vinton Hunt, foreword by Robert Edmund Apfel — Yale U Pr, 1978, 196 p., illus., \$14. Explains and evaluates early theories both in the context of their own times and in the light of modern ideas.

PARADOXES OF PROGRESS — Gunther S. Stent — W H Freeman, 1978, 231 p., illus., \$12; paper, \$6.50. Essays on the social and philosophic impact of science — particularly in the disciplines of molecular biology and neurobiology, in which the author taught and did research during the past 30 years.

THE ROAD TO THE STARS — Iain Nicolson — Morrow, 1978, 224 p., color and b&w photographs and drawings, \$14.95. Maintains the view that interstellar travel will become technically feasible during the 21st century. Examines the basic principles of interstellar travel, progress to date, problems of flight and how these journeys may be accomplished. Discusses the reasons for interstellar travel and the likely effects on individuals and the human race.

THE TREE KEY: A Guide to Identification in Garden, Field and Forest — Herbert Edlin — Scribner, 1978, 280 p., illus. by Ian Garrard, \$14.95; paper, \$8.95. A compact field reference book presents the important features of the trees commonly found throughout Western Europe and the temperate-climate regions of North America. Beautiful color illustrations of trees and their various parts enhance the text.

YOUR BRAIN AND NERVES — J. Lawrence Pool — Scribner, rev. ed., 1978, 211 p., drawings, paper, \$3.95. A neurosurgeon discusses for the layman nerve and spinal injuries, skull and brain injuries, the aching back and head, brain tumors, strokes, neuromuscular disorders and other neurological problems. Includes the recent strides made in research in this field.
