OCTOBER 14, 1978 VOL. 114, NO. 16

#### **PROSPECTUS**

We are scouring the world's scientific journals for strange phenomena and unexplained facts. We publish these curious and intriguing data in looseleaf sourcebooks of about 280 pages each. This handy format permits the collation of like categories as publication proceeds. New sourcebooks contain in-depth surveys of current discoveries and research on the far frontiers of science. The sourcebooks are the only systematic, expansible, updated files of anomalous scientific information.

GEOPHYSICS SERIE Offshore booms, ball lightning, ice falls, erratic meteors, unex- plained mirages, oceanic light wheels, dark days, cloudless rain, freak whirlwinds, sky glows, and much more.	S VOL. □ G-1 VOL. □ G-2	BIOLOGY SERIES  Mammoths' recent survival, wolf children, sea and lake monsters, cat conclaves, singing foxes and mice, rain trees, giant snakes, porcupine men, the yeti, ant butter, and much more.	VOL. □ B-1
ASTRONOMY SERIE  Lights on the moon, intramercu- rial planets, moon of Venus, enig- matic objects, telescopic meteors, sunspots and the planets, lightning on the moon, small earth moons, etc.	VOL.	PSYCHOLOGY SERIES Calculating prodigies, automatic writing, memory prodigies, epi- demic convulsions, voodoo and rootwork, jumpers of Maine, hys- terical stigmatization, placebos, singing idiots, and so on. "Highly recommended since it is full of helpful information, is much more than a calendar, and is well worth the price."—Journal of the Assoc. of Lunar and Planetary Observers

## ASTRONOMICAL CALENDAR 1979

by Guy Ottewell

This large, clear, attractive, multi-level book will show you what can be seen in the sky now—the date when you want to look. It is a self-teaching guide to the constellations, the movements of planets and comets, the satellites of Jupiter, meteor-showers, eclipses, double stars in their orbits, star lore, space exploration, and a great deal else. It is an ideal Christmas gift.

The previous annual volumes are in use in 60 countries, by several thousand colleges, schools, observatories, planetariums, nature centers, and clubs, and by a devoted public ranging from young beginners to skilled observers.

The second secon
\$6.00 plus 75¢ shipping (bulk, dealer, and air rates on request) from Astronomical Calendar, Department of Physics, Furman University, Dept. SN, Greenville, S.C. 29613, U.S.A. Please make check payable to Astronomical Calendar.

# executive health

the report that briefs you on what to watch

**©WORLD COPYRIGHT RESERVED 1978 BY EXECUTIVE PUBLICATIONS** 

Volume XIV, Number 10 • July, 1978 • Pickfair Bldg., Rancho Santa Fe, Calif. 92067 • Area 714:756-2600

## New research findings . . .

## ON WALKING . . . nature's own amazing "anti-age antibiotic"!

Not running, not jogging, but walking is your most efficient form of exercise and the only one you can safely follow all the years of your life!

Today, after some 2000 years, modern medical researchers are demonstrating (somewhat to their surprise) that Hippocrates, "the father of medicine" was right . . . walking is man's best "medicine"!

Take one example. At a three-day conference on Exercise in Aging—Its Role in Prevention of Physical Decline (held October 27-29, 1977, at the National Institute of Health, Bethesda, Maryland) researchers from across the United States, Canada and Western Europe presented papers on this (until now) largely neglected area of research. As their papers were presented, these important points of agreement emerged:

- (1) Walking is the most efficient form of exercise . . . and the only one you can safely follow all the years of your life.
- (2) Exercise can enable your body to maintain a vital reserve which has a protective effect during stress.

- (3) Exercised *bones* do not demineralize. As a result they are far less likely to break or lose their range of motion.
- (4) Exercised *lungs* still exhibit the emphysemalike changes of age, but are far less diminished in their capacity compared to the lungs of sedentary people.
- (5) Exercised cardiovascular systems show a similar maximum preservation of function.
- (6) The benefits of exercise in preventing or correcting obesity are striking.
- (7) Late-onset diabetes is almost entirely reversible by exercise if you are overweight.
- (8) Daily exercise permits greater food intake and better blood circulation, thus improving each body cell's nourishment while preventing obesity.
- (9) The physically impaired, particularly the arthritic, can perhaps benefit the most from exercise . . .

#### EDITORIAL BOARD

- SIR HANS KREBS, M.D., F.R.C.P. (England), Nobel Laureate in Physiology and Medicine. Emeritus Professor of Biochemistry, Oxford University, Metabolic Research Laboratory, Nuffield Department of Clinical Medicine, Radcliffe Infirmary, Oxford, England.
- RICHARD L. BOHANNON, M.D., F.A.C.P., Lieutenant-General, United States Air Force (Ret.): Medical Director, The Institute for Aerobics Research, Dallas, Texas.
- JAMES F. TOOLE, M.D., F.A.C.P., The Walter C. Teagle Professor of Neurology, Bowman Gray School of Medicine, Wake Forest University, Winston-Salem, North Carolina.
- LEONARD HAYFLICK, Ph.D., Senior Research Cell Biologist, Children's Hospital Medical Center, Bruce Lyon Memorial Research Laboratory, Oakland, California.
- DEMETRIO SODI-PALLARES, M.D., Professor of Medicine, Chief of the Department of Electro-Vectorcardiography, Institute Nacional de Cardiologia, Mexico, D.F.

- ALBERT SZENT-GYORGYI, M.D., Ph.D., Nobel Laureate for Physiology and Medicine, Scientific Director, The National Foundation for Cancer Research, Woods Hole, Massachusetts.
- JOHN K. LATTIMER, M.D., ScD., FACS, Professor and Chairman, Department of Urology, College of Physicians and Surgeons, Columbia University; Director, Squier Urological Clinic and Director, Urological Service, Presbyterian Hospital, New York City.
- JOHN STIRLING MEYER, M.D., Professor, Department of Neurology, Baylor College of Medicine; Director, Baylor-Methodist Center for Cerebrovascular Disease, Texas Medical Center, Houston, Texas.
- SOLON PALMER, Jr., M.D., Scripps Clinic and Research Foundation, La Jolla, California.
- HANS SELYE, C.C., M.D., Ph.D., D.Sc., F.R.S. (C), President, International Institute of Stress, University of Montreal, Montreal, Quebec, Canada.
- LINUS PAULING, Ph.D., Nobel Laureate in Chemistry and in Peace; Emeritus Professor of Chemistry, Stanford University, Stanford, California. Research Professor. Linus Pauling Institute of Science and Medicine. Menlo Park, California.
- MARK D. ALTSCHULE, M.D., Visiting Professor of Medicine, Harvard Medical School; Lecture in Medicine, Yale University: Staff Consultant, Boston City Hospital; Attending Physician, Boston Veterans Administration Hospital, Boston, Massachusetts.
- ALTON OCHSNER, M.D., Senior Consultant in Surgery, Ochsner Clinic and Ochsner Foundation Hospital and Emeritus Professor of Surgery, Tulane University School of Medicine, New Orleans, Louisiana.
- ROGER J. WILLIAMS, Ph.D., D.Sc., Professor of Chemistry, Co-founder and Consultant, Clayton Foundation Biochemical Institute, The University of Texas; Past President, The American Chemical Society, Austin, Texas.

# THE TRUTH THAT SHOCKS

## too many executives too late!

Only the fit survive. Ignorance about how to take care of yourself can be the mistake that kills you in your 50's or 60's . . . like an ordinary man. But as an executive you are not an ordinary man. Put your brains to use. Discover what research scientists now know about how to take the best care you can of the only body you will ever have.

Remember this! The errors of our younger years, are drafts upon our older years, payable (with interest) some 30 years from date.

The so-called "diseases of old age" are essentially the diseases of 50 to 70 ... "the dangerous years!"

Research scientists find that people who survive these "dangerous years" successfully (without acquiring some "chronic" disease such as cancer or heart trouble) are likely to live on for another healthy quarter of a century. They seem to have developed what might almost be called an immunity to these killers. Why? To find out, some careful studies have now been made of these longlived individuals.

May we suggest that you get the benefit of these new research studies for yourself? Do as so many thousands of executives do. Subscribe to Executive Health Report. The members of our Editorial Board are among the world's most distinguished authorities on preventive medicine. Their wise advice can help you not only live longer but enjoy those extra years! (Note their high qualifications as shown on opposite page.)

Executive Health Report is not sold on newsstands but only by private subscription at \$24 a year in the U.S.A. and its possessions, Canada and Mexico. Individual reports (back issues) \$2.00 per copy. All other countries \$26 by surface mail, \$30 by air mail. (Only International Money Order or check cashable on U.S. bank will be acceptable.)

Subscribe now under this unusual introductory offer:

- (1) Your choice of any three of the reports listed below (\$2.00 each) FREE!
- (2) If you are not completely satisfied with your first issue, your money will be promptly refunded.

Please study the reports listed here and circle your three choices:

New research findings On Walking ... nature's own amazing "anti-age anti-biotic"!

Albert Szent Gyorgyi, M.D., Ph.D.: How new understandings about the biological function of ascorbic acid may profoundly affect our lives.

Linus Pauling, Ph.D.: For the best of health, how much vitamin C do you need? People who take the optimum amount of vitamin C may well have, at each age, only one quarter as much illness and chance of dying as those who do not take extra vitamin C.

George C. Griffith, M.D.: On those irregular heart beats (Arrhythmias). Some mean little or nothing, but others warn your heart is in trouble.

Raymond J. Shamberger, Ph.D.: On your risk of stomach cancer from untreated beef . . . and how the natural antioxidants, vitamins C and E and selenium, help protect you!

On The Syndrome Of Longevity. Key factors dependably present ("constants") in the way of life of men who have outlived other men born when they were by a generation!

Roger J. Williams, Ph.D., D.Sc.: On your startling biochemical individuality. Some amazing facts about your body you need to know if you want to understand yourself (and other people) better.

Linus Pauling, Ph.D.: On vitamin C and heart disease. Can vitamin C protect you, and how much should you take?

James F. Toole, M.D.: On Strokes and "Little Strokes" . . . their causes and what you should know about them to help protect yourself!

Sir Hans Krebs, M.D., F.R.C.S.: On the use and misuse of medication. The world-famous Nobel Laureate in Physiology and Medicine warns that too many patients are being made ill due to their own or their physicians carelessness because the new high-potency drugs have side-effects that are almost unavoidable if not carefully monitored.

Alton Ochsner, M.D.: "On the Role of Vitamins C and E in Medicine." A world-famous surgeon tells you how he uses these two essential vitamins. John K. Lattimer, M.D., Sc.D.: On That Treacherous Gland . . . Your Prostate — as you approach 50.

John Yudkin, M.D.: On "This Sliming Business"... The truth about the prevention and cure of overweight! Linus Pauling, Ph.D.: What About Vitamin E? Eminent investigators now suspect it may be one of the key factors to help resist disease and slow the aging process.

Mark D. Altschule, M.D.: Is It True What They Say About Cholesterol? Is it as dangerous as they claim?

Alton Ochsner, M.D.: On "The Chair Disease" . . . Why blood clots in your veins are a little-realized hazard. Hans Selye, M.D.: On Stress Without Distress. Your mind can make or break you!

The B Vitamins ... Part II. On Vitamin B<sub>0</sub> (Pyridoxine) "The Sleeping Giant of Nutrition."

Hardin B. Jones, Ph.D.: On The Problems Executives Must Anticipate With Marijuana Smokers. The Senior Scientist at the world-renowned Donner Laboratory of Medical Research, University of California, Berkeley, explains some dangerous, little-understood facts.

Linus Pauling, Ph.D.: On Vitamin C and Cancer. Recent studies show that vitamin C has a large life-extending effect for patients with advanced cancer and suggest a similar large effect for earlier stages of the disease.

Please use the coupon below under our special money-back guarantee.

EXECUTIVE HEALTH, Pickfair Bldg., Rancho Santa Fe, CA 92067
Gentlemen: Enclosed is my check for \$for a year's subscription
to Executive Health to start with this month's issue. I have circled the three
\$2.00 reports I am to receive free. It is understood that if I am not com-
pletely satisfied with my first issue, my money will be promptly refunded.
In addition, I would appreciate your sending me a complete list of your 101 other
reports because among them may be some from which I might greatly benefit
and would otherwise miss.
