The new Energaire ionized oxygen generator will make a handsome addition to any desk.

Miracle Fuzz

A new space-age invention and the same effect as lightning combine to create the world's first home oxygen regeneration system.

providing a personal environment—an area that surrounds your body and work location with fresh ionized oxygen.

NEW SCIENCE

The oxygen ion generator is a relatively new product, yet its use in the home may make it more important than any filter system.

The Energaire is a new breakthrough. Ionized oxygen generators have been under development since the early 60's. The Energaire, using the latest in microelectronics, is the first cost-efficient system that produces over 100 times the ion production of other commercial units that cost ten times the cost of the Energaire.

USED IN HOSPITALS

Ionized oxygen creates a germ-free environment—proven through research at several universities. Hospitals are now converting many of their operating rooms to ionized oxygen. Among the hospitals in California using ion generators are Eden Hospital in Castro Valley, Memorial Hospital in Chico, and the Valley Medical Hospital in Fresno. Ionized oxygen also eliminates allergy-causing irritants making it ideal for homes as well as hospitals.

The heart of the Energaire is this small yet powerful component that replaces the much larger and heavier power supplies previously required by more expensive systems.

TRY THIS DRAMATIC TEST

To show the dramatic effect of ionized oxygen, take the ion generator, blow cigarette smoke into a clear bowl, and hold the bowl inverted over the system. The smoke will vanish. The charged oxygen particles appear to dissolve the smoke particles, precipitating them from the air.

In a room, Energaire surrounds you with these oxygen ions and cleans and purifies the air so even in a smoke-filled room, you will be breathing clean, country-fresh air all day long.

DRAMATIC LIFE CHANGES

Working in an ionized oxygen environment, you think clearly, are more alert, and your brain functions better. In actual brain wave tests, there was an increase in alpha waves when ionized oxygen was used, indicating greater alertness, deeper relaxation, less

stress, and more creative brain functioning.

The Energaire is actually a miniature lighting machine. The minute you plug it in, energy is converted into ionized oxygen. This efficient system uses one watt of power or less than a penny per week to operate, so you leave it on continuously.

We are so impressed with the pleasant effect of Energaire that we urge you to personally test it yourself in your home or office.

Order one at no obligation. Put it by your desk or in any room where you spend a great deal of time. See if it doesn't make you feel better or make you more productive. See how it rids your room of allergy-causing particles and freshens the air.

SLEEP EASIER

At home, use the Energaire to reduce odor-causing bacteria. Use it by your bed and see how fresh, country-like air makes you sleep easier, deeper, and more relaxed.

You should notice the difference within one day—especially in a work environment. But use it for a full month. Then, if you do not feel better and totally convinced of the positive effects of ionized oxygen, return your unit for a prompt and courteous refund.

The Energaire is manufactured by the Ion Foundation, one of America's leading ion research laboratories, and JS&A is America's largest single source of space-age products.

Service should never be required, but if it is, there's a prompt service-by-mail center as close as your mailbox—further assurance that your modest investment is well protected. The Energaire measures 9" high by 3" in diameter and weighs 24 ounces.

To order your Energaire ionized oxygen generator, send \$69.95 plus \$3.00 for postage and handling (Illinois residents, please add 5% sales tax) to the address shown below or credit card buyers may call our toll-free number below. We will send you your Energaire ion generator complete with 90-day limited warranty on the electronics, a five-year limited warranty on the fuzz, and full instructions.

Let space-age technology revitalize your life with the world's first home ionized oxygen generator. Order one at no obligation, today.

You need oxygen to live. You can live without food for 60 days, without water for seven days, but without oxygen, you won't make it past two minutes.

That small piece of fuzz located on top of the cylinder shown above emits ionized oxygen.

You are already familiar with ionized oxygen if you've smelled the air after a thunderstorm. You feel great, revitalized, and alert. The lightning from the storm adds a small negatively-charged electron to each oxygen molecule in a process called ionization.

POSITIVE ADVANTAGES

Ionized oxygen performs several positive functions. First, it cleanses the air by attaching itself to anything floating in the air, causing it to fall to the ground.

Secondly, when inhaled, it has the same effect on the body as pure oxygen. It is absorbed quickly by the lungs and goes into the bloodstream making you feel more alert, alive, and wide awake.

The new space-age product shown above is an oxygen ion generator called Energaire. The copper mesh fuzz on top of the unit is one of the secrets of the system.

Although it has no moving parts, you can actually feel a wind produced from the fuzz. This wind is ionized oxygen which spreads to fill a 1500 cubic foot room or a room about 15 feet by 15 feet.

EFFECTS FELT QUICKLY

You will feel the effects immediately. The Energaire will clean your room of odor-causing bacteria and stale, musty, or smoky air. Energaire will keep you alert. With a fresh supply of ionized oxygen, you will have more energy, be less fatigued, and you will sleep better.

Our polluted cities often deprive us of enough oxygen to make us feel healthy and alert. The Energaire solves this problem by
