ON <u>SYSTOLIC</u> HYPERTENSION, more common than <u>diastolic</u> hypertension and at least as <u>dangerous</u>

What it is, what it does, and what to do about it.

PUBLISHER'S NOTE: Jan Koch-Weser, M.D., Director of the Merrell International Research Center in Strasbourg, France, has been in the thick of the battle against hypertension for the past two decades. As Head of the Hypertension Unit at the Massachusetts General Hospital from 1966 to 1975 he was instrumental in developing and evaluating many of the most effective antihypertensive drugs and drug combinations in use today. He was among the first to emphasize the increasing opportunity to select for each hypertensive patient the drug or drugs most appropriate to the etiologic and hemodynamic characteristics of his disease. At the Merrell International Research Center, Dr. Koch-Weser is now concentrating his efforts on the creation of new therapeutic agents for the ongoing battle against cardiovascular diseases.

-Richard Stanton

No other disease has received more therapeutic attention during recent years than hypertension. Three factors account for this opportunistic concern. First, cardiovascular diseases are by far the most common cause of disability and death in civilized societies.

Second, abnormally elevated blood pressure is one of the most important factors responsible for cardiovascular morbidity and mortality. Third, normalization of blood pressure by appropriate treatment largely or completely eliminates the adverse effects of hyper-

THE TRUTH THAT SHOCKS

too many executives too late!

Only the fit survive. Ignorance about how to take care of yourself can be the mistake that kills you in your 50's or 60's . . . like an ordinary man. But as an executive you are not an ordinary man. Put your brains to use. Discover what research scientists now know about how to take the best care you can of the only body you will ever

Remember this! The errors of our younger years, are drafts upon our older years, payable (with interest) some 30 years from date.

The so-called "diseases of old age" are essentially the diseases of 50 to 70 . . . "the dangerous years!"

Research scientists find that people who survive these "dangerous years" successfully (without acquiring some "chronic" disease such as cancer or heart trouble) are likely to live on for another healthy quarter of a century. They seem to have developed what might almost be called an immunity to these killers. Why? To find out, some careful studies have now been made of these longlived individuals.

May we suggest that you get the benefit of these new research studies for yourself? Do as so many thousands of executives do. Subscribe to Executive Health Report. The members of our Editorial Board are among the world's most distinguished authorities on preventive medicine. Their wise advice can help you not only live longer but enjoy those extra years! (Note their high qualifications as

shown on opposite page.)

Executive Health Report is not sold on newsstands but only by private subscription at \$24 a year in the U.S.A. and its possessions, Canada and Mexico. Individual reports (back issues) \$2.00 per copy. All other countries \$26 by surface mail, \$30 by air mail. (Only International Money Order or check cashable on U.S. bank will be acceptable.)

Subscribe now under this unusual introductory offer:

- (1) Your choice of any three of the reports listed below (\$2.00 each) FREE!
- (2) If you are not completely satisfied with your first issue, your money will be promptly refunded.

Please study the reports listed here and circle your three choices:

New research findings On Walking . . . nature's own amazing "anti-age antibiotic"!

Albert Szent Gyorgyi, M.D., Ph.D.: How new understandings about the biological function of ascorbic acid may profoundly affect our lives.

Linus Pauling, Ph.D.: For the best of health, how much vitamin C do you need? People who take the optimum amount of vitamin C may well have, at each age, only one quarter as much illness and chance of dying as those who do not take extra vitamin C.

George C. Griffith, M.D.: On those irregular heart beats (Arrhythmias). Some mean little or nothing, but others warn your heart is in trouble.

Raymond J. Shamberger, Ph.D.: On your risk of stomach cancer from untreated beef . . . and how the natural antioxidants, vitamins C and E and selenium, help protect you!

On The Syndrome Of Longevity. Key factors dependably present ("constants") in the way of life of men who have outlived other men born when they were by a generation!

Roger J. Williams, Ph.D., D.Sc.: On your startling biochemical individuality. Some amazing facts about your body you need to know if you want to understand yourself (and other people) better.

Linus Pauling, Ph.D.: On vitamin C and heart disease. Can vitamin C protect you, and how much should you

James F. Toole, M.D.: On Strokes and "Little Strokes" . . . their causes and what you should know about them to help protect yourself!

Sir Hans Krebs, M.D., F.R.C.S.: On the use and misuse of medication. The world-famous Nobel Laureate in Physiology and Medicine warns that too many patients are being made ill due to their own or their physicians carelessness because the new high-potency drugs have side-effects that are almost unavoidable if not carefully monitored.

Alton Ochsner, M.D.: "On the Role of Vitamins C and E in Medicine." A world-famous surgeon tells you how he uses these two essential vitamins. John K. Lattimer, M.D., Sc.D.: On That Treacherous Gland . . . Your Prostate — as you approach 50.

John Yudkin, M.D.: On "This Sliming Business"... The truth about the prevention and cure of overweight! Linus Pauling, Ph.D.: What About Vitamin E? Eminent investigators now suspect it may be one of the key factors to help resist disease and slow the aging process.

Mark D. Altschule, M.D.: Is It True What They Say About Cholesterol? Is it as dangerous as they claim?

Alton Ochsner, M.D.: On "The Chair Disease" . . . Why blood clots in your veins are a little-realized hazard.

Hans Selye, M.D.: On Stress Without Distress. Your mind can make or break you!

The B Vitamins . . . Part II. On Vitamin B. (Pyridoxine) "The Sleeping Giant of Nutrition."

Hardin B. Jones, Ph.D.: On The Problems Executives Must Anticipate With Marijuana Smokers. The Senior Scientist at the world-renowned Donner Laboratory of Medical Research, University of California, Berkeley, explains some dangerous, little-understood facts.

Jan Koch-Weser, M.D.: On Systolic Hypertension, more common than diastolic hypertension and at least as dangerous. What it is, what it does, and what to do about it.

AMERICA'S GREATEST VALUES IN SCIENCE LABS AND COURSES!

American Basic Science Club's AMAZING KIT-A-MONTH PROGRAM

You Get ALL the following in ten monthly kits!

NO EXPERIENCE NECESSARY

Everyone can enjoy space age science with this easy-to-use equip-ment and exciting, learn-by-doing courses. It's easy—it's fun!

DEVELOPED BY TOP SCIENTISTS
The ABSClub program is a real science course developed with famous Southwest Research Institute—a non-profit public service organization, nationally recognized as the center of scientific research in the Southwest.

GOOD QUALITY EQUIPMENT

GOOD QUALITY EQUIPMENT
These kits are not toys. They consist
of standard components by Centralab, General Electric, Strobelite,
Leviton, Precision Tube, CinchJones, Mallory, Lancaster Lens, General Instrument, Trim, RCA, Stackpole, Eastman Kodak, Clarex and
other reliable manufacturers.

NO SPECIAL TOOLS REQUIRED

FUN FOR THE WHOLE FAMILY This program offers such a variety of activities that every member of the family can find a field of interest. In many homes, working with the kits is a family affair enjoyed by all.

INVALUABLE FOR STUDENTS Makes school science fascinating and easy. Gives students a head start. The kits are a valuable source of ideas and equipment for school projects.

MANY EXTRA PROJECTS

MANY EXTRA PROJECTS
This new series is much improved
and expanded. Many ideas originated by our members have been used
to provide extra projects adding
variety and excitement to every kit.

00000000000

MEMBERS ARE ENTHUSIASTIC

Over 50,000 members have successfully used and enjoyed these kits. All the projects are proven and practical.

"Every kit is very complete in explan ation, illustrations, materials, hard ware and extras. This is what I like." F. Batorick, Manhall, Pa.

"Hard-to-get equipment at a great brice. Thanks to your kits I am en loying new fields of science." I. Allemong, White Springs, Illinois.

"The ABSClub kits are very practical, interesting and educational . . and the projects always work."

Larry Schutta, Eden, New York.

"I have immensely enjoyed every min-ute with the kits, and eagerly await the postman every month." Fred Carter, Sanford, Florida.

"A wealth of information presented in an easy-to-learn manner." Tom Webster, Vidor, Texas.

"It is incredible that we can obtain so much material for such a price. The manuals alone are of great value." Sister M. Maris, Bishop Dwenger High School, Fort Wayne, indiana

"I am an electronics student in the Air Force. We have not covered anything in school that your kits have not covered. John G. Dill, Keesler Air Force Base, Bloxt, Miss.

"When I started your program I knew little about any of the topics that you presented. I now am repairing radios and photography is my main hobby."

Bruce Russell, Denver, Colo.

"A friend of mine is taking a corre-spondence course in electronics. I've learned more from your first two kits than be has in twenty lessons." Ray P. Bilodeau, Leominster, Mass.

SOME QUESTIONS ANSWERED

- Q. How is it possible? It seems incredible to be able to get all the equipment shown above in just ten kits at only \$7.95 per kit!
- A. The direct-to-you, "no middleman", club plan is just part of the answer. The other key is ABSClub's especially designed multi-use equipment. For example: the Microprojector quickly and easily converts into the Spectroscope, Photo Enlarger and Cloud Chamber Illuminator. Similarly, the Transit doubles as a Telescope Mount. Such multi-purpose design ... plus club plan economy ... makes possible this all-science program at a price everyone can afford.
- Q. May members choose the order in which they receive their kits?
- A. Yes. With the first kit members receive a list of the equipment and projects contained in each of the remaining nine kits, With this information they are able to choose the kit sequence that best suits their particular interest.
- Q. Can members get their kits all at once instead of one-a-month?
- A. Yes. At any time members can have the balance of their kits sent in one shipment. We recommend that you start on the kit a-month plan because the monthly spacing will give you time to get the full measure of knowledge and enjoyment that each kit has to offer.

MAKE SCIENCE YOUR HOBBY!

NO EXPERIENCE NECESSARY - IT'S FUN! IT'S EASY!

NO OBLIGATION-NO RISKI

- *. You take only as many kits as you wish. No minimum—you may cancel anytime.
- Two weeks approval on each kit you take. You may return any kit for full refund.
