GEM TESTING

FOR FUN AND PROFIT

This exciting pursuit combines the challenge of detective work... the thrill of spotting sensational "buys"... the satisfaction of knowing when someone else's big flashy "diamond isn't..." and the opportunity for highly paid, spare-time earnings. **GEM TESTING**, bible of amateur and professional alike, is a remarkably simple, lavishly illustrated book by B. W. Anderson, director of London's world famed Precious Stone Laboratory. Anderson has examined more gems than any man in history.

Now he shows you step-by-step the high speed methods by which he unerringly identifies precious stones. Emphasis throughout the book is on rapid examination with the naked eye. This **FIRST AMERICAN EDITION** of **GEM TESTING** tells, shows and explains everything you need to know. *Copiously illustrated.*

CITY ON MARS?

JUDGE FOR YOURSELF

Rising in the foothills above a windswept Martian plain are the ruins of a mysterious walled structure. The walls are easily seen and resemble the remains of an ancient city. Though probably of geological origin, this perplexing structure was nicknamed "the Inca city" by NASA scientists, who could offer no precise theory of its formation.

FIRST IMAGE is now making available an 11" x 14" photo-quality lithographic enlargement of the original picture taken by NASA's Mariner spacecraft as it orbited the planet Mars. Judge for yourself.

The most exciting calculator ever designed...

The RaceTrack Computer

Project the winning horses intelligently and reliably, with this ingenious new electronic rating system...

- No previous handicapping knowledge required
- Simple sequence of operation for between race selections
- Most importantly, it provides accurate ratings based on past performance data
- Identifies and projects the real contenders!
- Guaranteed to increase your winnings or your money back!

Try it for 2 weeks at no obligation!

How the "Computerized-Performance-Rating" System works: Utilizing a new micro processor-based engineering design, the "C.P.R." Calculator combines, weighs and then projects the Past Performance Information (from conventional racing forms) into a **SPEED RATING** for each horse in today's race. The horses with the highest projected speed rating are those most likely to win.

The Computer's Ratings are Based on Important Factors From The Last 3 Races: Using the Past Performance Charts you start by punching in today's Race Weight (RW) of the first horse listed. Then you enter the Last Speed Rating (LSR) of the same horse, followed by that horse's Best Speed Rating (BSR) from his last 3 races. Then you enter the Total Finish Positions (TFP) for the last 3 races. After entering the above information, (readily available from current racing forms) your RaceTrack Computer will instantly compute a "C.P.R." or Computerized Performance Rating for the horse. After following the same quick procedure for each horse in the race, you can then compare their individual ratings. The horse with the highest rating is the most likely to win, based on his past performance as compared to the other entries.

The CPR Rating System is amazingly accurate, as proven at several major derbies: Developed recently by an Arkansas engineer, the system was first tried at the Arkansas Derby. It immediately picked the horse that went on to win that Derby. When used at

this year's Kentucky Derby, the RaceTrack Computer's highest rated contender ran a very close second. There are even some inside tip sheets that are regularly listing the "C.P.R." projected winners.

Specifications: ■ Solid-State Circuitry ■ Integrated Computer Chip by National Semiconductor ■ Bright, large fluorescent display ■ Long-life 9-volt battery power supply ■ Projection ratings to 2-decimal places ■ Clear previous entry key ■ One year limited warranty

An American Indian child needs you as a sponsor and personal friend...

You have it within your power to lift an Indian child like this young girl from the despair of appalling poverty to a brighter life of hope and joy and personal pride.

Judy was poor, lonesome and apprehensive when she arrived at school in Arizona last fall. Only threadbare clothes on her back. No winter coat. No money. Not even a toothbrush.

Fortunately we were able to find her a sponsor... someone like yourself who provided basic needs to help keep her in school: supplies, personal items, a little spending

money... things that are simply beyond the economic means of many Indian parents. There are hundreds more like Judy who need shoes, gloves, sweaters, jeans, and just plain love and concern so that going to school is a joyful experience, not one of humiliating hardship.

Decide now to become a Futures for Children sponsor of just one boy or girl who needs your help. What a boost it will be for "your" child to have someone who cares, someone to write to, someone to love. Please fill out the coupon and mail it today.

FARQUHAR[®]

Enlightening The World For Over Thirty Years

The Farquhar Transparent Political Globe, for the first time anywhere, offers a unique view of the Earth. You can instantly observe the World as it actually is from your particular location. Have you ever tried to find, on an opaque globe, the shortest route between two points, only to lose the desired perspective when your original position is turned away from you? This Farquhar Great Ball of Knowledge allows you to relate to and understand your Earth in a new and personal fashion never before available. The new globe consists of more than twenty individual printing operations to achieve its unique appearance. The personal care and hand fabrication techniques of the Farquhar craftsmen go into each globe they build. This globe is a perfect possession for the person who appreciates both knowledge and beauty. Clearly, you should put one in your world today.
