

New BERLITZ Travel Guides

Choose one **FREE** when you order a Berlitz Comprehensive Cassette Course

Choose any one of our new and exciting full-color travel guides FREE when you order your course. Just published, these 128-page guides concentrate on a specific destination, not a country or a continent. Each combines easy reading with fast facts: what to see and do, where to shop, what to eat. Stunning city and regional maps pinpoint sights worth visiting. Sold everywhere at \$2.95, one of these colorful new guides is yours FREE with your order. Specify title and number in coupon below.

901 Amsterdam	902 Athens
932 London	908 Corfu
906 Canary Islands	960 Crete
911 Costa Brava	946 Rhodes
914 Costa del Sol	918 Dubrovnik
915 Costa Dorada	917 Istria
924 Ibiza	958 Split
934 Madrid	938 Moscow
935 Majorca	930 Leningrad
933 Madeira	931 Loire Valley
947 Rome	962 Puerto Rico
956 Venice	970 Virgin Islands

What would you give to learn a second language? (Try \$95.) And what's it worth to your company?

There's a premium being paid for language-knowledge in America today—and it's not only in the export trade. In multinational companies, in major cities, even on the factory floor, a second language marks you as the potential spokesman, the well-educated leader, the man to ask about foreign ways.

And travel is so much more fun when you can meet people and talk their language. Now you can. Easily. Painlessly. All thanks to this 50-lesson do-it-yourself Berlitz® language course. Available in French, German, Italian or Spanish—it's yours for only \$95.00.

Packaged solidly in leather-type binding, the Berlitz Comprehensive Cassette Course contains:

1. Ten introductory lessons in a 90-minute long first cassette to familiarize you with the spoken language.
2. Forty additional lessons on five convenient 60-minute cassettes, making a total of 6½ hours of recorded instruction in all.
3. 6 illustrated workbooks to use with the tapes, each containing 50 pages of easy-to-understand, concise information to help you speak with the least difficulty. 300 pages, in all, to get you on the way to fluency in a second language.
4. A specially prepared, easy-to-use Rotary Verb Finder will help you with irregular verb forms—once you're ready for grammar.

This course avoids the dry and the dull—mixes voices, sound effects and useful text in the delightful manner only Berlitz, the world's best known language instructor, can offer. And cassettes don't scratch, don't warp and don't unwind—last almost indefinitely. Best of all, they are easy to stick in your pocket, take along on a trip or use in the car.

Prepare yourself for a rewarding future. At the same time, enjoy the social advantages only a second language can bring. For \$95.00, choose the course you need to start talking like a native. Use the coupon and order today.

[MONEY BACK GUARANTEE Try this Berlitz course for ten days. If you are not satisfied for any reason, simply return it, and obtain a complete refund. You take no risk, so order today.

The Health Hazards of NOT Going Nuclear

Translated into five languages — Tens of thousands of copies sold!

by Petr Beckmann
 Prof. of Electrical Engrg.,
 University of Colorado;
 Fellow of the IEEE;
 Editor and Publisher of
Access to Energy
\$5.95 softbound
\$10.95 hardbound
postpaid

A book of balanced judgements and technical insights, which is not only accessible to the average person, but is also fast-paced and witty. PUBLIC FORUM (Portland, Ore.)

Maybe editors who have given space to anti-nuclear insanities will begin to ask themselves what has become of honest reporting. Beckmann shows that the usually stated reasons for attacking nuclear power — such as a cleaner environment and safer working conditions — are obviously wrong.

NEW SCIENTIST (London)

Establishes a more rational framework for assessing the dangers of nuclear power.

SUNDAY TIMES (London)

Incisively, always based on hard data, Beckmann punctures the slogans of the nuclear opponents . . . His arguments are presented in a most original and refreshing manner.

NEUE ZURCHER ZEITUNG (Switzerland)

An instructive, entertaining book that deserves the widest possible audience

NATIONAL REVIEW

Witty, highly informative, thoroughly documented, caustic Nat.synd.col.J.Lofton

Technically informed, lively and polemical analysis SCIENCE NEWS

This delightful and highly informative work is important reading in this day of primitivism and anti-technological propaganda.

CHALCEDON REPORT (Vallecito, Calif.)

Easily one of the most important books of our times HUMAN EVENTS

SMALL IS BEAUTIFUL?

If you believe an industrial giant can be run on sun beams, summer breezes and fumaroles, or that the answer to the world's ills is the de-industrialization of America, then our newsletter is not for you. But for the latest scientific and technological advances in the energy field, and in their economic and social implications, subscribe (at \$12/year) to

ACCESS TO ENERGY

A pro-science, pro-technology, pro-free enterprise monthly newsletter
 NOW IN ITS SIXTH YEAR

Access to Energy is edited and published by Dr Petr Beckmann, professor of electrical engineering at the University of Colorado, independently of the University or any other institution.

Access to Energy is fiercely independent and beholden to nobody. It accepts no advertising, subsidies, contributions, grants or dips into taxpayers' money. Its only income are subscription fees.

If Pulitzer prizes were given on an unbiased basis to outspoken and authoritative journals, one would certainly be given to ACCESS TO ENERGY. This newsletter is an incisively written tell-it-as-it-is journal that is fast developing a nationwide following.

Synd. column. A. Harrigan

Issue after issue, the editor cuts through the simplified thinking of the mass media. Technologically informed, he consistently explains the technical aspects into understandable English Cult. Watchdog Newsl.

Peppery, often acidly humorous, . . . Beckmann cuts through ecology cant with style as well as substance

CONSERVATIVE DIGEST

A witty and profoundly informative newsletter

"I have made this letter longer than usual because I lacked the time to make it short."

BLAISE PASCAL (1623-1662), one of the colorful men appearing in the fourth, enlarged edition of

A HISTORY OF π (PI)

The fascinating story of the circle ratio from pre-historic times to the computer age, by Prof. P. Beckmann (University of Colorado), an enthralling, profusely illustrated account loaded with historical anecdotes and oddities..

DID YOU KNOW . . .

- . . . that a verse in the Bible implies $\pi = 3$?
- . . . that poems coding the decimal digits of π have been written?

. . . that in 1897 the Indiana House of Representatives passed a bill legislating the (wrong) value of π ?

. . . that the value of π is now known by computer evaluation to half a million decimal digits? (The first 10,000 of them are imprinted on the colored endsheets of this book!)

"A pure delight — stimulating, irreverent of many long-accepted notions. . . A fascinating story of human efforts to advance knowledge in spite of the brutalizing preoccupations with war and the religious persecution of scholars. . . Entirely offbeat, which gives it its charm" —THE DENVER POST

202 pp. 92 ill. 6 by 9 clothbound

FARQUHAR®

MAKES THE UNIVERSE CLEAR

The Farquhar transparent, three color star globe is the most beautiful and dramatic method of bringing the universe inside of your world. It puts the stars at your command. You can adjust the star globe with over 1100 stars to correspond to any location and time on Earth. This great ball of knowledge offers a universe of features; all 88 constellations, names and distances in light years of brighter stars, milky way, ecliptic path of the sun, precessional path of the north and south celestial poles and much more, including our instruction manual. The universe comes in your choice of four sizes. Put one in your world today.
