# Using a computer is easy... for onComputing readers.

Read onComputing to find out . . .

- What a micro-computer can do
- How to get started
- What's new in personal computers
- Where to buy your computer
- How to use your computer

The editors of **onComputing** realize that much of the material written about computers is not at all suited to the person who just wants to use a computer as a tool for business, education, home entertainment, laboratory work, or other applications. **onComputing** is dedicated to helping the computer user understand the capabilities of a microcomputer—in non-technical language.

**onComputing** is entertaining and informative. It contains practical articles on how to get started, including what you'll need for your application and what it will cost. It features book reviews, product reviews, information on what's

new in personal computers, where to buy a personal computer, and—how to use it.

**onComputing** is a totally new publication. It is issued quarterly and contains articles from some of the best known names as well as from competent amateurs. It is edited and produced under the guidance of an experienced staff of computer experts. The articles in **onComputing** have never appeared in any other publication. They are all fresh, informative, and valuable reading for anyone interested in using a computer—for fun or profit!

**VAN NOSTRAND'S SCIENTIFIC ENCYCLOPEDIA.**

*Edited by Douglas M. Considine.* Nearly 200 experts have contributed to this thoroughly revised and greatly expanded fifth edition of the most authoritative single-volume source of scientific knowledge ever assembled. Enormous 9 1/4" x 12" volume contains 2.2 million words, 2382 pages, 2500 photographs, drawings and charts, and 500 tables. 7200 articles cover everything from the earth and space sciences to energy technology, from the life sciences to mathematics, from information sciences to physics and chemistry. "... an amazing book... for both the general and scientific reader."—*The New York Times*

# FREE GAME

SPI, the world's largest publisher of historical simulation games, wants you to subscribe to **Strategy & Tactics** — a fascinating and authoritative bi-monthly magazine of military history. Because we're confident that exposure to **Strategy & Tactics** and simulation gaming will be the beginning of a long-term customer and reader relationship with SPI, we'd like to give you a free, full-fledged simulation game to start you off (see description at right). Moreover, **Strategy & Tactics** itself has a simulation game in *every* issue (as a companion piece to its main article) so you'll get a new game as part of each issue in your subscription. **Strategy & Tactics** and SPI games are a fresh and exciting way to gain insights into the great conflicts of history. This offer is open only to brand new subscribers. Act now!

With the first issue of your new subscription to *S&T* we'll send you a free copy of *StarForce*, an imaginative venture into interstellar conflict in the 25th Century. Starships flash across the light years to do combat with human and non-human adversaries. *StarForce* comes complete with a 24-page rules booklet, 22" x 34" Stellar Display/Tactical Display, 200 die-cut cardboard playing pieces, and compartmentalized game storage box.

**Game Normally sells for \$10—  
it's yours FREE for subscribing to S&T!**

**SPI has been serving customers by mail since 1970**

Send check or money order to:

**SPI** Dept. 1045  
257 Park Avenue South  
New York, New York 10010

Send me my free game and enter my *S&T* subscription for:

1 yr. (6 issues) \$15     2 yrs. \$28     3 yrs. \$39

We recommend the purchase of one or more of the following games if you are a player new to the hobby.

*Blue & Gray* \$14 (4 Civil War battles)     *Napoleon's Last Battles* \$14 (4 Waterloo battles)     *Modern Battles II* \$14 (4 contemporary conflicts)
