Do You Get Your SN Regularly?

We still continue to get occasional complaints from subscribers of erratic mail delivery of SCIENCE NEWS. Each issue of SN is mailed on Friday, the day before the date shown on the cover. With the exception of the double-sized year end issue, which is announced in advance (see p.403), we hold to this schedule invariably. We have never missed a printing/mailling deadline. This means, of course, that the problem is with the U.S. Postal Service. If there are undue delays in arrival of your copies of SCIENCE NEWS, please complain to the Postmaster of your city or town, with a carbon copy to us, if at all possible. This should help in our efforts to improve delivery service.

"THE GROSS IS ALWAYS GREENER IN THE OTHER FELLOW'S YARD" says an investment broker after reading the hilarious new COMPLETE PUN BOOK.

Art. Moger collected the puns. Bob and Ray wrote the introduction. You'll do the laughing!

THE COMPLETE PUN BOOK shows how a low form of wit creates a high level of laughter.

Here is a riotously funny pun-ishment for the millions who can't resist giving a word a twist . . . and ammunition for any occasion from famous movie, stage and TV wags, as well as the wits of Wall Street and Washington. Plus gems from poets and pun-dits.

\$10.00

THE COMPLETE PUN BOOK includes an Appundix, a Punabridged Dictionary and a collection of the best—and worst—jokes in the world. Like the fortune-teller who loved her work, you'll have a ball. And there are puntifical observations by Edwin Newman, Harry Golden and Willard R. Espy, among other punsters.

This is a book you've got to love for the sheer pun of it!

CITADEL PRESS INC—120 Enterprise Avenue, Secaucus, NJ 07094 SN 12/79

WHAT'S BETTER THAN SPEED READING?

SPEED LEARNING

(SPEED PLUS COMPREHENSION)

Speed Learning is replacing speed reading because it's easy to learn . . . lasts a lifetime . . . applies to everything you read . . . and is the only fully accredited course with the option of college credits.

Do you have too much to read and too little time to read it? Do you mentally pronounce each word as you read? Do you frequently have to go back and re-read words or whole paragraphs you just finished reading? Do you have trouble concentrating? Do you quickly forget most of what you read?

If you answer "yes" to any of these questions — then here at last is the practical help you've been waiting for. Whether you read for business or pleasure, school or college, you will build exceptional skills from this major breakthrough in effective reading, created by Dr. Russell Stauffer at the University of Delaware.

Not just "speed reading" — but speed reading-thinking-understanding-remembering-and-learning

The new *Speed Learning Program* shows you step-by-proven-step how to increase your reading skill and speed, so you understand more, remember more and use more of everything you read. The typical remark made by the 75,000 slow readers who completed the *Speed Learning Program* was: "Why didn't someone teach me this a long time ago?" They were no longer held back by the lack of skills and poor reading habits. They could read almost as fast as they could think.

What makes Speed Learning so successful?

The new *Speed Learning Program* does not offer you a rehash of the usual eye-exercises, timing devices, costly gadgets you've probably heard about in connection with speed reading courses or even tried and found ineffective.

In just a few spare minutes a day of easy reading and exciting listening, you discover an entirely new way to read and think — a radical departure from any-

thing you have ever seen or heard about. Research shows that reading is 95% *thinking* and only 5% eye movement. Yet most of today's speed reading programs spend their time teaching you rapid eye movement (5% of the problem) and ignore the most important part (95%) *thinking*. In brief, *Speed Learning* gives you what speed reading *can't*.

Imagine the new freedom you'll have when you learn how to dash through all types of reading material at *least* twice as fast as you do now, and with greater comprehension. Think of being able to get on top of the avalanche of newspapers, magazines and correspondence you have to read . . . finishing a stimulating book and retaining facts and details more clearly and with greater accuracy than ever before.

Listen-and-learn at your own pace

This is a practical, easy-to-learn program that will work for you — no matter how slow a reader you think you are now. The *Speed Learning Program* is scientifically planned to get you started quickly . . . to help you in spare minutes a day. It brings you a "teacher-on-cassettes" who guides you, instructs, encourages you, explaining material as you

read. Interesting items taken from *Time Magazine*, *Business Week*, *Wall Street Journal*, *Family Circle*, *N.Y. Times* and many others, make the program stimulating, easy and fun . . . and so much more effective.

Executives, students, professional people, men and women in all walks of life from 15 to 70 have benefited from this program. *Speed Learning* is a fully accredited course . . . costing only 1/5 the price of less effective speed reading classroom courses. Now you can examine the same, easy, practical and proven methods at home . . . in spare time . . . without risking a penny.

Examine Speed Learning FREE for 10 days

You will be thrilled at how quickly this program will begin to develop new thinking and reading skills. After listening to just one cassette and reading the preface you will quickly see how you can achieve increases in both the speed at which you read and in the amount you understand and remember.

You must be delighted with what you see or you pay nothing. Examine this remarkable program for 10 days. If, at the end of that time you are not convinced that you would like to master *Speed Learning*, simply return the program and owe nothing. See the coupon for low price and convenient credit terms.

Note: Many companies and government agencies have tuition assistance plans for employees providing full or partial payment for college credit programs.

In most cases, the entire cost of your Speed Learning Program is Tax Deductible.
