

GET YOUR MONEY OUT OF THE COUNTRY

— before the country gets it out of you!

HARRY BROWNE shows you how your own Swiss bank account can give you financial protection, privacy and profit.

It will come as no surprise to you that the heavy hand of government is reaching ever deeper into our pockets and our lives.

Honest, productive citizens are finding politicians and bureaucrats prying into their financial affairs, depreciating their money with inflationary economic policies, and confiscating a greater portion of their wealth via taxes than ever before.

The future may bring even more flagrant violations of our financial and personal freedom. The return of gold confiscation. Wage and price controls. Foreign exchange restrictions. A hyperinflation panic. All these are recognized by economists and financial analysts as real possibilities.

What can be done? Until most Americans understand what's happening, until they rise up and demand that these injustices be corrected, there is only one practical solution: *Get your money out of the country—before the country gets it out of you.*

In all the world, there is only one ideal "money haven": *Switzerland.* And there's only one ideal source of information on how to get it there safely: *Harry Browne's Complete Guide to Swiss Banks.*

The definitive book on Swiss banks.

Encyclopedic in scope, exhaustively researched, packed with details and specifics, *Harry Browne's Complete Guide to Swiss Banks* is without question the finest book on its subject. A monumental, 534-page volume, it's a gold mine of information and advice. Here's a brief sampling of the contents:

- Is a Swiss bank account for you?
- Switzerland's banking system: a tradition of stability, privacy, freedom.
- How to select the *right* bank.
- How to open an account.
- Types of accounts available.
- Swiss bank secrecy and the "numbered account."
- Sending and receiving funds—privately and legally.
- Safety and liquidity.
- Gold accounts.
- Silver accounts.
- Stocks and bonds.
- Margin accounts and forward contracts.
- Portfolio management.
- Currency trading.
- Investing in the Swiss franc.
- Swiss life insurance and annuities.
- Tax avoidance and tax evasion.
- Tax havens and shelters.
- U.S. financial reporting requirements—and how to circumvent them.
- Swiss taxes—and how to legally avoid them.

But that's not all! Harry Browne has carefully screened a list of 173 Swiss banks, and found *five* that are highly liquid, have excellent relationships with American customers, and provide a full range of services. For each of these five recommended banks, he supplies the *address, the telephone number, the person to contact, types of accounts offered, the bank's assets and liquidity status, and other vital information.*

He discusses his criteria for evaluating and selecting the right bank. The language barrier and how to overcome it. Swiss attitudes toward Americans. Whether Switzerland will ever breach its confidentiality laws to cooperate with the U.S. government. Problems you may encounter and how to resolve them.

You'll also find instructions and simple letters to help you cope with any situation that may arise. Financial statements of Swiss banks. A glossary of terms. A critical directory of other reference sources. And a complete index. Don't wait until it's too late! Clip and mail the coupon today.

JAMES P. HOGAN

The man who has put the science back into science fiction—now
he's done it again with **THRICE UPON A TIME**.

Time-communication isn't exactly time-travel; but it creates the same para-
doxes. And for scientist Murdoch Ross, there are no easy solutions. A
gripping novel of time, probability—and destiny.

Also by Hogan: INHERIT THE STARS

Scientists had finally found a Man in the Moon...but he was wearing a
space suit, was fully human and had been there for 50,000 years:
Where did he come from and how did he get there?

"Pure science fiction...Arthur Clarke move over!"—Isaac Asimov

THE GENESIS MACHINE

The revolutionary unified field theory held all the answers—and a
choice for man between destruction and vast new frontiers.

"Most theories in science fiction are mere wishful thinking. Hogan
invents a theory that might really work."—Marvin Minsky, Professor
of Science, MIT.

THE TWO FACES OF TOMORROW

A super science thriller of the evolution of true machine intelli-
gence that required a drastic stimulus and produced a unique
entity with unexpected responses.

From Scandinavia, where cars have to last ...prices start at \$25,000!

Rust Biox Your Car!

A safe easy way to completely rid your car of body-killing rust...With the world's first biodegradable, 100% organic, guaranteed rust-treatment system!

The professional-quality bodyshop treatment you apply yourself:

- Spray it on...rinse it off
- Requires little if any rubbing
- Amazing biochemical, *enzyme* action completely eats away all rust, tarnish and corrosion!
- 100% non-toxic; *No poisonous acids* (Will not harm metals, paint, plastics, rubber, wood, clothing, ceramics or *people!*)
- Important rust-arresting benefits for a long term cure
- Adds years of "New Car" life to your automotive investment
- *Unconditionally Guaranteed or your money back*

Finally, an inexpensive alternative to "Planned Obsolescence" For years we American car owners have accepted short life spans for our vehicles. We've watched helplessly as their shiny bodies and chrome trim suffered all too soon from corrosion, and those destructive, ugly rust spots got bigger and bigger, eating right through the metal in a few months. Until now our choices haven't been easy: Spend a fortune at the body shop, or trade it in and start the process all over again, much to Detroit's delight.

Rust-Biox...A New Miracle, "No-Hassle" Automobile-Body-Saver! Rust and corrosion are inevitable "metal-diseases" (helped along by winter weather, road and ocean salt, and rainy seasons) that sooner or later will affect your vehicle, boat, plane, etc. Like human ailments, the **critical factor for a full recovery is early detection, and a prompt, effective cure.** Once you discover that first spot of rust on your car, a quick easy Rust-Biox treatment can mean the difference whether your car's body (and/or engine parts) will survive this "killer" problem or not.

Now there is no excuse for any car to be prematurely ruined by this costly "Auto-Epidemic"...

Simple to use. Just spray it on and rinse it off a short time later! Rust-Biox generally requires no rubbing or labor of any kind. It works selectively, completely destroying rust

and tarnish, without harming metals, paint, plastics, rubber, wood, textiles, ceramics, or people. Other products (conventional rust removers and converters, etc.), are usually dangerous poisonous acids that can destroy almost anything...including your skin, as well as your car's metal, paint, etc.

Non-Polluting Rust-Biox is so safe you can apply it with your bare hands and since it is not an acid, it can be sprayed for easy, quick application. After spraying, wait the required time (15 minutes to 2 hours normally, depending upon the degree of rust and air temperature), then merely rinse it off with water. The thorough rust-eating enzymes do the dirty work for you!

Important — unique "Rust-Arresting" powers! Our research shows that after most conventional rust removers are used, rust begins again almost immediately, within 10 seconds after use! However Rust-Biox has been professionally designed to give you a full 24-48 hours of guaranteed rust-free protection, allowing plenty of time to seal or touch-up paint the treated area. Thus, **early detection followed by a Rust-Biox treatment, followed by a sealer or touch-up paint completely guarantees you a permanent rust-free solution** that no other product can offer. This popular European product can literally provide you a car with no rust damage to depreciate its value and shorten its life.

Hundreds of other household and industrial uses...Rust-Biox completely removes rust, tarnish and oxides from iron, steel, copper, brass, chrome, and aluminum — safely! Use it on bikes, boats, antiques, screens, tools (also removes concrete mortar), baths, basins, plumbing systems, stove burners, frying pans, even for coffee stains on dishes. You'll use Rust-Biox in dozens of places you'd never dream of using the acid-based products. In the Industrial sector Rust-Biox usage is booming, particularly in pollution-sensitive and health-related industries such as food-processing, medical, etc.

Concern for the environment in Scandinavia is a way of life, and Americans are

becoming equally aware. Biodegradable, 100% Organic Rust-Biox can be rinsed down the drain without harm to plumbing systems, and it poses no "poison threat" when stored in the home. And most importantly, Rust-Biox encourages us all to preserve what we have, rather than allowing our costly automobiles to waste away from needless rusting. **It is now easier to maintain your car rather than replace it, even if you can afford to do so.**

We dare you!

Try Rust-Biox on any rust you can find, no matter how severe, and return the balance within 30 days for an unconditional, no-questions-asked refund if you're not 100% satisfied.
