

Now available in quality auto parts and chain stores everywhere at new low retail price of \$11.95!

# Starshine Polymer Sealant

Keep your car showroom bright. Prevent and remove oxidation. Protect your finish from harmful, ruinous elements!

**You'll never use wax again!**

Once you experience the pleasure of seeing your beautiful car shine brilliantly like "Glass", and when you realize that your expensive automobile is safely protected from harmful "Value-Depreciating" elements such as salt, oxidation from the sun, pollution, tar, bugs, spray paint, eggs, etc., you will join the tens of thousands of car owners who now use Starshine Polymer Sealant\* instead of wax.

**Now only \$11.95 for a 16 oz. bottle (enough to do 2-3 cars)**

We have been offering this product by mail-order for about a year at \$29.95 (an incredible bargain compared to \$100-200 polymer treatments applied by car dealers). Now that hundreds of retail stores have shown an interest in carrying Starshine Polymer Sealant\*, we have been able to commit for large inventories of raw materials. At the same time we have developed better, more economical manufacturing techniques that changed our cost structure significantly, and even improved the quality of the product. These factors, combined with our changing marketing program (from mail-order advertising to retail store distribution), have lowered our cost per bottle resulting in this major price decrease to the consumer.

**More good news...  
No rubbing or buffing!**

You don't have to "work" to apply Starshine Polymer Sealant\*. Simply wipe it on, wait 20-25 minutes, and wipe it off. You can apply it under any conditions; it will not streak even if left on in the sun all day!

**Prevents oxidation from starting on new cars... And actually removes it from used models!**

Starshine Sealant is literally a "Glass-Like" shield that goes into the pores, *bonding* to your car's finish, protecting it from fading, dulling, and chalking. On a car where some oxidation has already set in, this product will bring it up and out, for easy removal as you wipe off the excess Polymer Sealant.

**Guaranteed to outperform any other car care product... Or your money back.**

If after using Starshine Polymer Sealant\* you don't agree that it is superior to any other product you can buy, return the unused portion within 2 weeks of receipt (with proof of purchase) for a prompt refund of the entire purchase price.

**Also available:**

*Starshine Poly-Off.* For removal of Starshine Polymer Sealant\* should you desire to repaint your car for any reason. Suggested Retail: 8 oz., \$6.95.

*Starshine Poly-Prep.* A premium high pH value exterior car cleaner/ detergent concentrate for washing your car. Achieves a maximum shine without water spotting, streaking or swirling. Suggested Retail: 8 oz., \$4.95.

*Starshine Polymer Interior Sealant.* A totally new, quick treatment to seal your car's upholstery and carpet. Stains & spills of any kind are not allowed to get into the fabric... Instead they miraculously set and bead on the surface for easy removal. Suggested Retail: 16 oz., \$24.95.

**Now available at your local auto parts and chain stores. Or order direct from Starshine.**

Starshine Polymer Sealant\* Already on thousands of vehicles.

All books sent postpaid. Domestic orders only.

**DAWN OF MODERN SCIENCE: From the Arabs to Leonardo Da Vinci** — Thomas Goldstein. Portrays science as a historical phenomenon, one of many types of specialized activity around which the human race has built a culture in the course of its history. HM, 1980, 297 p., illus., \$12.95.

**DORLAND'S MEDICAL DICTIONARY: Shorter Edition** — Introduction by Franz J. Ingelfinger. The shorter edition of this well-known medical dictionary was written expressly for the general public. The public is getting increasingly involved in health care and, therefore, must become acquainted with the language of medicine. Saunders Pr (HR&W), 1980, 741 p., color illus., \$12.95.

**ELECTROSHOCK: Its Brain-Disabling Effects** — Peter Roger Breggin. Compiles and analyzes the medical literature that pertains to severe or permanent brain damage and mental dysfunction caused by electroconvulsive therapy. Springer Pub, 1979, 244 p., \$17.95.

**ENERGY AND ENVIRONMENT: Readings from Scientific American** — Commentaries by Raymond Siever. A collection of articles focusing on oil, gas, coal and uranium as energy resources. WH Freeman, 1980, 231 p., illus., \$17, paper, \$8.95.

**THE FORCES OF NATURE** — P.C.W. Davies. Explains the important concepts underlying the advances made recently in our understanding of the world within the atom. Cambridge U Pr, 1979, 246 p., illus., \$29.50, paper, \$8.95.

**A GEOGRAPHICAL ATLAS OF WORLD WEEDS** — LeRoy Holm et al. Each year weeds cause the largest single loss of food sources in all of agriculture. This book is designed to show that the same weed species may be common to a number of regions of the world. Latin, the universal language of taxonomy, is used and the introduction to the weed list is reproduced in Arabic, Chinese, English, French, German, Hindi, Indonesian, Japanese, Russian and Spanish. Wiley, 1979, 391 p., \$35.

**HOW IT WORKS, ILLUSTRATED: Everyday devices and mechanisms** — Rudolf F. Graf and George J. Whalen. Explores the inner workings and operating principles of a broad range of devices and mechanisms such as the electric motor, the gas pump, electric drill, aerosol dispenser, camera flash cube, dial and push button telephone and the rotary engine. The operation of each device is described and well illustrated. Van Nos Reinhold, 1979, 184 p., illus., paper, \$7.95.

**THE INTERNATIONAL FOUNDATION DIRECTORY** — H. V. Hodson, Ed. Provides information on 650 institutions, emphasizing foundations, trusts and other similar nonprofit institutions that operate on an international basis and also provides detailed information on selected national foundations throughout the world. Gale, 2nd ed., 1979, 378 p., \$55.

**UNDERSTANDING PERSPECTIVE** — Radu Vero. The author's experience with students has convinced him that learning perspective drawing is not a matter of talent, but rather a matter of revitalizing the neglected ability to see in space mentally. This book is a collection of progressively more challenging exercises to develop this ability. Van Nos Reinhold, 1980, 191 p., illus., paper, \$9.95.
