FEEL TIRED? WANT PEP?

Thousands of folks who feel let down when they should have pep and power can now get a fast pick up with new "ENERGY TABS". The secret of this seeming miracle is magic Fructose, a unique form of sugar that goes directly into the bloodstream—giving you almost instant energy and pep when you feel weary and drowsy due to low blood sugar.

Ordinary sugars must go through the liver—not releasing their energy for a longer time—but Fructose is totally different—it gives you immediate energy. For years Fructose has been a power secret of Olympic athletes of European countries.

Now Fructose has been imported and compressed into palatable "ENERGY TABS" for you to take when you need extra power—the power to win! "ENERGY TABS" are 100% natural and safe for normal tired folks. No stimulating drugs. "ENERGY TABS" give you fast, safe power.

CLASSICS IN PHILOSOPHY AND SCIENCE

A TREATISE ON ANALYTICAL DYNAMICS

L. A. Pars

"Pars' TREATISE is an altogether admirable work. The clarity of its exposition and the care with which the concepts and domains of applicability of its theorems are defined make it a classic in the best English tradition. Theoreticians and practitioners, teachers and students alike will welcome the good news that this valuable book has become available once again." *Reinhardt M. Rosenberg, University of California Berkeley.*

"I consider this text to be a genuine great book of Dynamics. It is written with great care and clarity and it presents a comprehensive exposition of the subject matter. A reprinting of Pars text is a service to students and researchers in mathematics, physics, astronomy, and engineering." *Aris Phillips, Yale University.*

Hardcover \$48.

THE NATURE OF PHYSICAL REALITY

Henry Margenau

"Its unusual breadth of scope and clarity of exposition make it required reading for all who seek to understand the methodology of modern physics. The presentation of the basic principles of quantum mechanics is probably the clearest extant." *R. Bruce Lindsay, Brown University.*

Hardcover \$22. Paperback \$12.

PHILOSOPHICAL PROBLEMS OF QUANTUM PHYSICS

W. Heisenberg

Eight popular lectures by one of the founders of modern physics. There's nothing uncertain about the quality of Heisenberg's writing. Formerly titled: *Philosophical Problems of Nuclear Science.*

Hardcover \$16. Sewn Paperback \$9.50.

ENERGY FLOW IN BIOLOGY

Harold J. Morowitz

"This book has provided a clear, reasonable rigorous, and extremely broad exposition of the implications of energy flow in biology It will be invaluable in providing for ecologists a lucid exposition of the current state of biological thermodynamics." *Lawrence B. Slobodkin, SUNY Stony Brook.*

Hardcover \$16. Sewn Paperback \$9.50.

THE MEETING OF EAST AND WEST

F. S. C. Northrop

"I call the book great, difficult, and important . . . The book is great because its theme is great. It is important because it is, so far as I know, the only book by an American philosopher to state the fundamental ideological conflicts in world culture. It is difficult because the problem is immense." *Howard Mumford Jones, The New York Times Book Review.*

Hardcover \$27. Sewn Paperback \$17.

SYMMETRIES AND REFLECTIONS

Eugene Wigner

Perceptive essays covering a broad range including the role of symmetry in physics, nuclear energy, epistemology, and contemporary history of physics.

Sewn Paperback \$9.50.

SCIENCE AND FIRST PRINCIPLES

F. S. C. Northrop

One of the first books to grasp the epistemological significance of 20th century physics and biology. A true blend of science and humanism.

Hardcover \$22. Sewn Paperback \$12.
