

The Ultimate Tax Shelter

by
TED NICHOLAS

Tax experts are now referring to a small, privately owned corporation as "The Ultimate Tax Shelter." This is especially true with the passage of the recent Revenue Act. This law makes most former tax shelters either obsolete, or of little advantage. Investments affected include real estate, oil and gas drilling, cattle feeding, movies, etc. These former tax shelters have lost their attractiveness. Aside from that, these tax shelters required a large investment. Only a small segment of the population could benefit from them.

I've written a book showing how you can form your own corporation. I've taken all the mystery out of it. Thousands of people have already used the system for incorporation described in the book. I'll describe how you may obtain it without risk and with a valuable free bonus.

A corporation can be formed by anyone at surprisingly low cost. And the government encourages people to incorporate, which is a little known fact. The government has recognized the important role of small business in our country. Through favorable legislation incorporating a small business, hobby, or sideline is perfectly legal and ethical. There are numerous tax laws favorable to corporate owners. Some of them are remarkable in this age of ever-increasing taxation. Everyone of us needs all the tax shelter we can get!

Here are just a few of the advantages of having my book on incorporating. You can limit your personal liability. All that is at stake is the money you have invested. This amount can be zero to a few hundred or even a few thousand dollars. Your home, furniture, car, savings, or other possessions are not at risk. You can raise capital and still keep control of your business. You can put aside up to 25% of your income tax free. If you desire, you may wish to set up a non-profit corporation or operate a corporation anonymously. You will save from \$300 to \$1,000 simply by using the handy tear-out forms included in the book. All the things you need: certificate of incorporation, minutes, by-laws, etc., including complete instructions.

There are still other advantages. Your own corporation enables you to more easily maintain continuity and facilitate transfer of ownership. Tax free fringe benefits can be arranged. You can set up your health and life insurance and other programs for you and your family wherein they are tax deductible. Another very important option available to you through incorporation is a medical reim-

bursement plan (MRP). Under an MRP, all medical, dental, pharmaceutical expenses for you and your family can become tax deductible to the corporation. An unincorporated person must exclude the first 3% of family's medical expenses from a personal tax return. For an individual earning \$20,000 the first \$600 are not deductible.

Retirement plans, and pension and profit-sharing arrangements can be set up for you with far greater benefits than those available to self-employed individuals.

A word of caution. Incorporating may not be for you right now. However, my book will help you decide whether or not a corporation is for you now or in the future. I review all the advantages and disadvantages in depth. This choice is yours after learning all the options. If you do decide to incorporate, it can be done by mail quickly and within 48 hours. You never have to leave the privacy of your home.

I'll also reveal to you some startling facts. Why lawyers often charge substantial fees for incorporating when often they prefer not to, and why two-thirds of the New York and American Stock Exchange companies incorporate in Delaware.

You may wonder how others have successfully used the book. Not only a small unincorporated business, but enjoyable hobbies, part time businesses, and even existing jobs have been set up as full-fledged corporations. You don't have to have a big business going to benefit. In fact, not many people realize some very important facts. There are 30,000 new businesses formed in the U.S. each and every month. 98% of them are small businesses; often just one individual working from home.

To gain all the advantages of incorporating, it doesn't matter where you live, your age, race or sex. All that counts is your ideas. If you are looking for some new ideas, I believe my book will stimulate you in that area. I do know many small businessmen, housewives, hobbyists, engineers, and lawyers who have acted on the suggestions in my book. A woman who was my former secretary is incorporated. She is now grossing over \$30,000 working from her home by providing a secretarial service to me and other local businesses. She works her own hours and has all the corporate advantages.

I briefly mentioned that you can start with no capital whatsoever. I know it can be done, since I have formed 18 companies of my own, and I began each

one of them with nothing. Beginning at age 22, I incorporated my first company which was a candy manufacturing concern. Without credit or experience, I raised \$96,000. From that starting point grew a chain of 30 stores. I'm proud of the fact that at age 29 I was selected by a group of businessmen as one of the outstanding businessmen in the nation. As a result of this award, I received an invitation to personally meet with the President of the United States.

I wrote my book, *How To Form Your Own Corporation Without A Lawyer for Under \$50* because I felt that many more people than otherwise would could become the President of their own corporations. As it has turned out, a very high proportion of all the corporations formed in America each month, at the present time are using my book to incorporate.

Just picture yourself in the position of President of your own corporation. My book gives you all the information you need to make your decision. Let me help you make your business dreams come true.

As a bonus for ordering my book now I'll send you absolutely free, a portfolio of valuable information. It's called "The Income Plan" and normally sells for \$9.95. It describes a unique plan that shows you how to convert most any job into your own corporation. You'll increase your take-home pay by up to 25% without an increase in salary or even changing jobs in many cases. If you are an employer, learn how to operate your business with independent contractors rather than employees. This means that you'll have no payroll records or withholding taxes to worry about. And you'll be complying with all I.R.S. guidelines. "The Income Plan" includes forms, examples and sample letter agreements to make it possible.

I personally guarantee your purchase in the fairest way I know. If you feel my book is not all that I've described, return it undamaged within two weeks and I'll promptly refund your money with no questions asked. If you should decide to return it, you may keep the bonus Income Portfolio for your trouble.

To get your copy, write the words "Corporation Book and Bonus" on a plain sheet of paper, along with your name and address. Enclose a check for \$14.95. There is no sales tax on your order and your purchase price is tax deductible. Mail your order to me, Ted Nicholas, c/o Enterprise Publishing Co., Dept. DOES SCIENCE FINALLY AGREE WITH THE STORY OF GENESIS?

TWO BESTSELLERS BY DR. ROBERT JASTROW
"THE GREATEST WRITER ON SCIENCE ALIVE TODAY"*

\$4.95
5 1/4" x 8"

\$4.95 5 1/4" x 8"

Now in two companion paperback bestsellers, the author of RED GIANTS AND WHITE DWARFS presents the clearest and most compelling answers yet to the ultimate questions men have asked since the beginning: How was the universe created? How did life arise? Astonishingly, he shows that the explanations offered by science are essentially the same as the Biblical account in Genesis!

GOD AND THE ASTRONOMERS

With extraordinary clarity, Jastrow explains the scientific evidence that the universe began in a giant explosion 20 billion years ago. If every effect in science has a cause, what caused the birth of the universe? Illustrated throughout, including 8 pages in full color, plus 2 new afterwords!

UNTIL THE SUN DIES Dr. Jastrow traces the chain of evolution from the first spark of life 4 billion years ago, through the age of the dinosaurs to Space Age homo sapiens. And he shows that the earth is among the youngest planets in the universe and that humanity is clearly an embryonic race, with roughly another 6 billion years until the sun dies.

"Do you have a Scientific Calculator? You can be doing Important Math like this on it in just 10 days! I'll show you how!"

Which of these 5 powerful techniques could you be using right now?

- Solving equations $f(x)=0$ and even Differential Equations
- Integrating Differentiating Using Algorithms
- Solving Motion Problems with Trig

Step up your job skills — Impress your colleagues; get the answers first!

Quick. Guaranteed. Easy. And fun, too!

All this with the Scientific Calculator you now have! Now you can step up your math skills fast, even if you think you've forgotten the math you once knew.

Send for my new, proven-effective method in guidebook form. It's entitled 'CALCULATOR CALCULUS' and comes with this firm money-back guarantee: If after 10 days you're not absolutely astounded at the problems you're solving on your Scientific Calculator, send the guidebook back for a full and immediate refund of your money. No questions asked.

But the point is -- you won't want to send it back. For here is the easiest and fastest shortcut ever.

Let me introduce myself. My name is Dr. George McCarty. I teach math at the University of California, Irvine. This new guidebook is the result of the recognized need to cut through the confusion. It does just that through WORKED-OUT EXAMPLES, SIMPLE EXERCISES and PRACTICAL PROBLEMS.

The very day you receive your copy in the mail, you'll want to put it to work. It's that exciting and helpful. Even people who have not tackled math problems in years find it easy to follow. What's more, it's fun!

HERE'S HOW YOU WILL PROFIT

Need to evaluate functions, areas, volumes — use curves, trig, polar coordinates — find limits for sequences and series? It's all here.

If you're in the biological, social or physical sciences, you'll be doing Bessel functions, carbon dating, Gompertz' growth curves, half-life, future value,

marginal costs, motion, cooling, probability, pressure — and plenty more.

Important numerical techniques? They're here, too --rational and Padé approximation, bracketing, continued fractions, Euler's method, Heun's method, iteration functions, Newton's method, predictor-corrector, successive substitutions, Simpson's method and synthetic division.

LOOK AT WHAT USERS SAY

Professor John A. Ball of Harvard College (author of the book 'Algorithms for RPN Calculators') writes:

"I wish I had had as good a calculus course."

Professor H.I. Freedman of the University of Alberta, writing in Soc. Ind. Appl. Math. Review, states: "There can be no question as to the usefulness of this book...lots of exercises...very clearly written and makes for easy reading."

C.B. of Santa Barbara, CA says: "Your book has given me much instruction and pleasure. I do not hesitate to recommend it. 'CALCULATOR CALCULUS' is a book that inspires the reader to understand everything down to the last detail. You seem to have put your heart into the teaching part of good writing."

No matter your work -- educator, practitioner, or just someone who enjoys the Scientific Calculator and wants to do more with it -- you'll find 'CALCULATOR CALCULUS' a joy.

MONEY-SAVING OFFER

If you studied this method in a Seminar, you'd have to pay around \$500. Even a run-of-the-mill calculus text today costs about \$20. But, for a limited time, you can invest in 'CALCULATOR CALCULUS' for only \$14.95 plus \$1.00 for postage and handling. I use the word "invest" because it will pay for itself fast. (Tax deductible for professionals.)

NO RISK WHATEVER

Order your copy today. Write the words 'CALCULATOR CALCULUS' on a slip of paper and send it along with your check or money order. Be sure to give me your complete mailing address. If you want to charge it to your Visa or MasterCard account, include your card number and the expiration date. California residents please add 6% sales tax; foreign add \$3 Airpost.

Prompt shipment guaranteed. If after 10 days you're not astounded at the problems you're solving, send the book back for a full and prompt refund. Remember, you don't risk a cent.

Start putting your Scientific Calculator to important use right now by sending for 'CALCULATOR CALCULUS' today! Thank you.
