# Rust Biox Your Car!

A safe easy way to completely rid your car of body-killing rust...With the world's first biodegradable, 100% organic, guaranteed rust-treatment system!

The professional-quality bodyshop treatment you apply yourself:

- Spray it on...rinse it off
- Requires little if any rubbing
- Amazing biochemical, enzyme action completely eats away all rust, tarnish and corrosion!
- 100% non-toxic; No poisonous acids (Will not harm metals, paint, plastics, rubber, wood, clothing, ceramics or people!)
- Important rust-arresting benefits for a long term cure
- Adds years of "New Car" life to your automotive investment
- Unconditionally Guaranteed or your money back

Finally, an inexpensive alternative to "Planned Obsolescence" For years we American car owners have accepted short life spans for our vehicles. We've watched helplessly as their shiny bodies and chrome trim suffered all too soon from corrosion, and those destructive, ugly rust spots got bigger and bigger, eating right through the metal in a few months. Until now our choices haven't been easy: Spend a fortune at the body shop, or trade it in and start the process all over again, much to Detroit's delight.

**Rust-Biox...A New Miracle, "No-Hassle" Automobile-Body-Saver!** Rust and corrosion are inevitable "metal-diseases" (helped along by winter weather, road and ocean salt, and rainy seasons) that sooner or later will affect your vehicle, boat, plane, etc. Like human ailments, the critical factor for a full recovery is early detection, and a prompt, effective cure. Once you discover that first spot of rust on your car, a quick easy Rust-Biox treatment can mean the difference whether your car's body (and/or engine parts) will survive this "killer" problem or not.

Now there is no excuse for any car to be prematurely ruined by this costly "Auto-Epidemic"...

**Simple to use. Just spray it on and rinse it off a short time later!** Rust-Biox generally requires no rubbing or labor of any kind. It works selectively, completely destroying rust and tarnish, without harming metals, paint, plastics, rubber, wood, textiles, ceramics, or people. Other products (conventional rust removers and converters, etc.), are usually dangerous poisonous acids that can destroy almost anything...including your skin, as well as your car's metal, paint, etc.

**Non-Polluting Rust-Biox is so safe you can apply it with your bare hands** and since it is not an acid, it can be sprayed for easy, quick application. After spraying, wait the required time (15 minutes to 2 hours normally, depending upon the degree of rust and air temperature), then merely rinse it off with water. The thorough rust-eating enzymes do the dirty work for you!

**Important - unique "Rust-Arresting" powers!** Our research shows that after most conventional rust removers are used, rust begins again almost immediately, within 10 seconds after use! However Rust-Biox has been professionally designed to give you a full 24-48 hours of guaranteed rust-free protection, allowing plenty of time to seal or touch-up paint the treated area. Thus, early detection followed by a Rust-Biox treatment, followed by a sealer or touch-up paint completely

guarantees you a permanent rust-free solution that no other product can offer. This popular European product can literally provide you a car with no rust damage to depreciate its value and shorten its life.

**Hundreds of other household and industrial uses...** Rust-Biox completely removes rust, tarnish and oxides from iron, steel, copper, brass, chrome, and aluminum - safely! Use it on bikes, boats, antiques, screens, tools (also removes concrete mortar), baths, basins, plumbing systems, stove burners, frying pans, even for coffee stains on dishes. You'll use Rust-Biox in dozens of places you'd never dream of using the acid-based products. In the Industrial sector Rust-Biox usage is booming, particularly in pollution-sensitive and health-related industries such as food-processing, medical, etc.

**Concern for the environment in Scandinavia** is a way of life, and Americans are becoming equally aware. Biodegradable, 100% Organic Rust-Biox can be rinsed down the drain without harm to plumbing systems, and it poses no "poison threat" when stored in the home. And most importantly, Rust-Biox encourages us all to preserve what we have, rather than allowing our costly automobiles to waste away from needless rusting. It is now easier to maintain your car rather than replace it, even if you can afford to do so.

**We dare you!**

Try Rust-Biox on any rust you can find, no matter how severe, and return the balance within 30 days for an unconditional, no-questions-asked refund if you're not 100% satisfied.
