

Why Haven't You Been Told About These Household Items That Can Make You Rich?

How would you like to have more money than you ever had in your life? How would you like to watch your money double or triple in value and not have it wiped out by inflation? How would you like to have a few of life's luxuries before you're too old to enjoy them?

In this article you will learn about some amazing household items that can change your life and even make you rich. Often called "junk" by the unknowing, these items (discarded dishes, lamps, old comic books, bottles, etc.) have enabled people to make small fortunes in one of the most profitable hobbies ever known.

Money Making Hobby

The hobby is collecting---and it's fabulous! Find a collector's treasure...and WHAM! You hit the jackpot! Like the Ohio man who made a small fortune with **one** old comic book. He was the lucky owner of the first Superman comic book ever published. **He sold it for a whopping \$300,000!**

There is no other hobby where you can make so much money from things people overlook and often throw away. A school teacher from Massachusetts picked up a water color painting at a church auction for 35¢. Time Magazine reveals that 35 years later---when she learned of its REAL value---**she sold it for \$20,000!** A Minneapolis man cleaned out his attic and found some of his father's old coins... a pretty plate his wife bought for \$25 in 1971...a few old stamps and his son's comic books. **He sold them for \$3000!**

Cash From Cast Off Items

It's a fascinating hobby! Visiting antiques shops...searching for treasures...cashing in on cast off items that are pure gold to avid collectors.

There is no other hobby where the income potential is so huge. A husband-wife team from Philadelphia came across an old vase in their basement. After doing some research they found it was worth almost its weight in gold. Time Magazine reports **they sold it for \$260,000!**

These exceptional cases represent just a few of the hundreds of people who have cashed in on the biggest nostalgia boom in our nation's history—a bonanza that has turned many everyday items of recent years into **treasures worth thousands of dollars!** This is absolute proof of what is being done by people who keep an eye out for things most of us let slip through our hands.

Want further proof? Pick up any magazine or newspaper for collectors. Notice the ads offering to buy, sell, or swap **everything from old lamps to comic books to movie posters.** Notice how the same ads are repeated month after month. That's concrete proof! You know these ads wouldn't be repeated over and over...unless the items they advertise—things you may find in your own home—were bringing in big cash profits for their owners.

Beating Inflation

The secret is knowing how to pick the winners. Whiskey bottles, for example, from 5 to 10 years past now sell for \$2 to \$5. But like other treasures, their prices may sky rocket. Each year—for the last 10 years—Chinese ceramics values soared 18%. Rare books 16.5%. Stamps 15.4%. Coins 12.6%. They have outpaced inflation...diamonds...common stocks...high grade corporate bonds...and single family housing values. It's a bonanza for modern day treasure hunters! And the sky's the limit on the kinds of treasure they're cashing in on. One old **baseball player card** sold recently for \$3000! A **child's doll** brought \$10,890! A **weathervane** \$25,000! Think of it! Thousands of dollars in **cash** for these items on today's booming market for antiques and collector's items.

What This Means To You

And now do you realize what this can mean to you? It means your household items could be very valuable. Old furniture...jewelry...silver...lamps...dolls...clocks...watches...books...old photographs...records...paintings...glass...porcelain...dishes...Oriental rugs...comic books...coins...stamps and hundreds of other odds and ends---**THINGS YOU MAY FIND IN YOUR OWN HOME**---could bring you thousands of dollars in extra spending money.

And this is just the **beginning!** In all you will find the money making opportunities unending. Garage sales, flea markets, thrift shops, church auctions—there's not telling where valuable but **overlooked** treasure will appear.

Not just another get rich scheme. Collecting is an exciting, profitable hobby people everywhere are cashing in on. Its amazing **money making potential** has been written about in The Wall Street Journal...Reader's Digest...Time Magazine...U.S News & World Report...Consumer Life...and Changing Times Magazine. Indeed! Some collectibles have performed so well that respected names in the banking and finance industry have added them to their portfolios.

If you want to make money in this absolutely fascinating hobby...if you want to share in the same kind of exciting information that has helped many people find a small fortune in their homes...there is a catalog you can send for that is unconditionally **guaranteed** to increase your income and lead you to the treasures that so many of us overlook.
