

CALLIGRAPHY, THE ART OF LETTERING WITH THE BROAD PEN — by Byron J. Macdonald

This book, one of the classics in the lettering arts field, presents 26 alphabets and variations, from the basic Roman capitals through Uncial, Gothic, Batarde and Italic hands with explanations of their appropriate applications. Plates are large and so crisply printed that students, with guidance from the text, can easily see the architecture and character of each letter form. The style and format of the book make it an ideal companion to Lloyd Reynolds's book. Spiral bound for convenience. 6th printing. Paper Cover \$4.95

ITALIC CALLIGRAPHY & HANDWRITING — by Lloyd Reynolds

This is far and away the most popular book in the field. Now in its seventeenth printing, it takes the reader through every stage in studying Italic handwriting and calligraphy with a clear text and 23 full page plates. Separate sections on Roman capitals as well as page and book designs make this a complete course. Spiral bound for convenience in use. Paper Cover \$3.95

Calligraphy
is the most direct form of all artistic expression.

JUST AS EACH MOVEMENT
OF THE DANCER IS ABSOLUTE
SO EVERY GESTURE
OF THE CALLIGRAPHER
IS ESSENTIAL

IT IS NOT THE MEANING OF THE
CHARACTER BUT THE WRITING—
THE MOVEMENT OF EXECUTION
AND THE ACTION ITSELF—
THAT IS IMPORTANT

All books sent postpaid. Domestic orders only.

CALIFORNIA INSECTS—Jerry A. Powell and Charles L. Hogue. A guide that identifies 600 of the most common and interesting insects found in California and discusses the biology, natural history and diagnostic features of each. More obscure groups are characterized at the family level, while the more common and conspicuous insects are treated in more detail. U of Cal Pr, 1980, 388 p., color/b&w illus., \$15.95.

COMMONSENSE IN NUCLEAR ENERGY—Fred Hoyle and Geoffrey Hoyle. Written by the eminent British astronomer and his son, the Hoyles address the concerns of the environmentalists with respect to the development of nuclear energy. WH Freeman, 1980, 88 p., illus., \$7, paper, \$3.95.

THE FACTS ABOUT "DRUG ABUSE"—The Drug Abuse Council. A final report of the directors of the Drug Abuse Council together with six chapters on various drug policy topics intended to stimulate public interest in drug policy issues and to promote greater public understanding of them. Free Pr, 1980, 291 p., \$14.95.

THE HERPES BOOK—Richard Hamilton. The herpes virus is one of the most prevalent viral diseases. To most infected people it brings discomfort in the form of blisterlike sores. Herpes does not respond to any currently known form of therapy; once a person is infected, the virus remains for life.

This book provides basic information about herpes, tells how to cope with the virus and how to prevent or minimize its possible complications. JP Tarcher (HM), 1980, 206 p., \$9.95.

HOW TO SOLARIZE YOUR HOUSE: A Practical Guide to Design and Construction for Solar Heating—Thomas Scott Dean with Jay W. Hedden. Written to describe "how" in sufficient detail for the average person to be able to incorporate a solar heating system using liquid-cooled flat-plate collectors into a new or existing building. The components for this type of system are, for the most part, readily available and relatively inexpensive. Scribner, 1980, 162 p., illus., \$20.

LAYING WASTE: The Poisoning of America by Toxic Chemicals—Michael H. Brown. The newspaper reporter who broke the Love Canal story covers that story in this book and goes on to report on widespread waste dumping across the United States. Numerous communities from Maine to California that have been contaminated by toxic chemical wastes are cited. Pantheon, 1980, 351 p., \$11.95.

LIVING ARCHAEOLOGY—R. A. Gould. An attempt to demonstrate the general principles of a unified theory of ethnoarchaeology. Uses the recent work being done with Australian aborigines as a case study in ethnoarchaeological theory. Cambridge U Pr, 1980, 270 p., illus., \$27.50, paper, \$9.95.

MAN MEETS GRIZZLY: Encounters in the Wild from Lewis and Clark to Modern Times—Gathered by F.M. Young, Coralie Beyers, Ed., foreword by Frank C. Craighead, Jr. A collection of bear stories that record the saga of the grizzly bear in its more than a century of contact in the wild with the white man. HM, 1980, 298 p., \$10.95.

OCEANS OF ENERGY: Reservoir of Power for the Future—Augusta Goldin. A simple science book that discusses the various kinds of poten-

tial energy from the ocean that can be converted into usable energy. Harbrace, 1980, 144 p., illus., \$8.95.

PARENTS AND PEERS IN SOCIAL DEVELOPMENT: A Sullivan-Piaget Perspective—James Youniss. The author argues that the child's relations with his or her friends and peers make a distinctive and critically important contribution to social development. U of Chicago Pr, 1980, 301 p., \$23.

PERPETUAL MOTION: The History of an Obsession—Arthur W.J.G. Ord-Hume. The perpetual motion seeker was, in most cases, a dedicated scientist fettered not by his own ignorance, but by the limitations of scientific and mechanical knowledge of his time. Originally published in hardback in 1977. St Martin, 1980, 235 p., illus., paper, \$5.95.

TO MEND THE HEART—Lael Wertenbaker. An account of the history and the controversies of heart surgery with the pioneer heart surgeon Dwight Harken as the central figure. Viking Pr, 1980, 344 p., illus., \$14.95.

THE UNIVERSE: From Flat Earth to Black Holes—and Beyond—Isaac Asimov. Written for the general reader interested in astronomy, this third edition has been revised to include current information and such topics as black holes, white holes and quasars. Walker & Co., 1980, 3rd ed., 321 p., illus., \$15.95.

WHAT ARE MY CHANCES?—Ben Eiseman. An increasing number of patients are becoming interested in sharing with their physicians the decision-making process that is so vital to the patient's future. This book by a surgeon discusses the consequences and treatments of various medical problems in terms of the odds of recovery, complications and survival. Saunders Pr(HR&W), 1980, 402 p., illus., \$14.95.
