Rechargeable Aerosol Spray Can!

New British Invention...

Make your own aerosol spray paints, cleaners, lubricants, etc. and save yourself a small fortune.

Environmentally Safe — No Fluorocarbons

Re-fill the Rechargeable Aerosol Can and use it over and over...it actually makes a great deal of sense. When you go to the store and purchase spray paint or any other liquid aerosol spray, you usually pay more for the aerosol canister (plus the cost of filling and pressurizing it) than for the contents. Push-button convenience has been most expensive...but now you have an ingenious and easy alternative.

Fast and simple to operate... Fill the can 2/3 full with the liquid to be used, thinning according to instructions. Screw on the Aerosol Valve Top and pressurize to 50 psi with any bicycle pump, air hose or other air source (a unique pressure relief valve insures against overcharging). When the large (1 pint) can is empty, simply re-fill and pressurize. You're back to the job in minutes. When finished, clean the can thoroughly and you're ready for your next project!

Genuine Professional results... without the noise and hassles of a cumbersome and expensive compressor. Starshine's Rechargeable Aerosol is a quality spraying instrument...the first of its kind for home, garden and industrial use. It is available only from Starshine's Mail Order Sales Division and arrives quickly at your door complete with two interchangeable spray heads. One, a wide angle spray, is for flawless application of paints and other liquids requiring an even coating. The other, a special extension tube, is for applying lubricants, cleaners, etc., in hard-to-get-at places such as complex electronic equipment.

Large size can: 2½"Wx8"H
