Let onComputing be your guide to personal computing.

Finally, there is a magazine that speaks to the beginner.

onComputing is the new McGraw-Hill quarterly that tells what's ahead — without talking over your head — in the 1980's with personal computers.

onComputing puts you on target with all the applications that go beyond your imagination.

- Personal computers in the home.
- Classrooms.
- They bring computer music.
- Electronic mail.
- Robots.
- They manage your personalized investment.
- The list goes on and on in **onComputing**.

If you're a beginner with personal computers, get the most understood magazine on computers, **onComputing**. And even if you're an experienced computer user, **onComputing** has the information you need in today's fast-growing personal computer market.
