

# Poly-Z. the world's first do-it-yourself RUST-PROOFING product with an unconditional 2-year guarantee!

AN EFFECTIVE, 30-MINUTE, NO MESS, "FINGER-SPRAY" RUSTPROOFING MIRACLE

### Why Pay #150 At A Dealer?

Until now it's been "rust or bust". Dealer-applied treatments break your wallet or rust ruins your valuable automotive investment. And now that cars cost more than ever before, rust protection is an unquestioned necessity.

### Moisture Condensation And Salt Are The Major Problems.

Rust occurs when water condensation and road/ocean salt collects on the inside, and underneath vulnerable areas of your car as pictured below: small rusted spots begin here

and quickly spread, contaminating adjoining metal surfaces like a disease, rotting right through the metal in no time. Fortunately for all vehicle owners, Starshine's world-famous chemical engineers have developed an inexpensive new miracle product that prevents rust damage in these critical areas for years, and requires only one tool for application — your finger. No drilling or plugging of holes is needed.

### No Hard Labor Involved; Takes Less Than 30 Minutes:

Shown below are key suggested areas of applications for Poly-Z on an average car.

#### Front End:

1. Spray inside edges of hood.
2. Spray through openings in fender wells and inside front of fenders.
3. Remove headlamps and spray metal cavity and edges behind the lamps.

#### Sides of Car:

1. Lower window about 1 inch, insert nozzle and spray toward outside panel of door.
- or,
2. Spray upward through bottom rain drain holes, again, toward outside panel of door.
3. Spray forward into inside of front fenders.

#### Rear of Car:

1. Spray inside edges of trunk lid.
2. Inside edges of trunk lid opening.
3. All exposed side metal inside of trunk.
4. Spray all edges of metal trim.
5. Spray mouldings around fenders and sides of car.

Using your own judgment, spray other areas through screw holes and around decorative trim that may be susceptible to rust on your particular make and model car.

### The Miracle-Performing Ingredients — Volatile Corrosion Inhibitors\* And Of Course, Polymers!

It's fascinating! When you spray Starshine's Poly-Z in and underneath your car (or on other metal surfaces) it leaves a clear, odorless, environmentally-safe wax-like coating that you can actually see and touch. This coating contains VCI's\* which penetrate and coat all metal surfaces with a thin protective molecular film. (1/1000mm — as thin as human breath) Wonder-Polymers actually semi bond this film to metal surfaces through electro-chemical, ionic action. The VCI's\* continuously migrate through unique "vapor-action" to automatically re-seal the protective coating should it ever be scratched.

**The "Plain-English" results:** Poly Z penetrates even the tightest, most difficult areas to reach with a clear, self-healing coating. Rust-causing moisture and salt residue are sealed out. The normally vulnerable metal of your car becomes fully protected for years. Your car or other metal possessions can stay in like-new condition no matter what the climate or weather conditions it is exposed to.

### Additional Poly-Z Comments and Facts.

- 16 oz. bottle is enough for 1-2 cars
- No surface preparation is needed
- Non toxic . . . won't harm you or your paint
- One coat is plenty, but additional coats can be applied after 5 minutes drying time
- Poly-Z does not impede body repairs when needed. Also it lubricates, protects and prevents rust and corrosion on precision instruments, watches, clocks, electrical switches, relays, contact points, printed circuitry, rusted nuts or bolts, farm machinery, business machines, etc.
- Also recommended for boats, tools & boxes, RV's, snowmobiles, bikes, batteries, locks, etc. tackle boxes, gun cases.

### Guaranteed For 2 Years!

Poly-Z has been independently tested to show it lasts 2 years or more on outside surfaces of iron, steel, chrome and most other metals. (Much longer on indoor surfaces). Incredible as it sounds should a properly treated surface show any sign of rust within 2 years of purchase, Starshine will refund your full purchase price . . . Plus, in addition supply you a free bottle of Starshine's non-toxic rust remover! (Claims must be submitted with proof of purchase and damage).

# SUPER WATCH

Don't be fooled by the price. This LCD Dual Alarm Chronograph is probably the best as well as most useful watch on the market today.

This watch is in a class by itself. With every conceivable convenience... unmatched feather-light comfort... and rugged dependability with matching, trim-slim styling.

And it's priced so low, it makes sense to own as an every-day watch you can wear without worrying or as an extra watch you use only for running or when you're working around the house or for its wake-up alarm and second timekeeping zone when you're traveling.\*

What's amazing is that it gives you TWO of everything other watches selling for ten times as much boast of when they have just one. And it includes additional conveniences, like a count-down timer; so, no other watch, at any price, does as much or does it better! And this watch is guaranteed for ONE full year.

**WORLD CLASS ACCURACY:** First and foremost it's guaranteed to be accurate to within seconds a month, three-minutes-a-year. You can be certain the big, easy-to-read display with the hour, minutes and running seconds is right on time—to the second.

Your watch also gives you the day and date at a glance, with no button to push, adjusting automatically for the number of days in any month (including leap year). Then, so you can see easily in the dark or when it's dim, there's a built-in night light.

**3-YEAR BATTERY:** And this is one watch you won't have to worry about for a long, long time. The battery is warranted to last for a full three years.

**TWO-TIMING:** What is more, you get a second timekeeping zone. A convenience you'll really appreciate when you travel or when you're doing business with a firm in a far-away city. Plus a two-note chime you can set to go off on the hour to keep the time from passing you by.

**24-HOUR ALARMS AND PERSONAL REMINDER SYSTEM:** The alarm can be set in an instant for any minute of any hour. The precision of a digital alarm is simply unbeatable. If you want, you can leave this alarm set for the same time every day because there's a SECOND alarm as well. With two alarms you'll be able to schedule your day and stick to your schedule more easily and surely than ever before.

**30-MINUTES AND COUNTING:** In addition, inspired by the Space Center, you also get a 12 hour to

one minute count-down timer. Really, a third alarm, it's a lot easier to use if you want to be reminded your time is up or you have to act—when you've promised to call back in half-an-hour, for example, or have to put another quarter in the parking meter. With a count-down timer, you can be sure you won't goof, and you'll know exactly how much time you've got left. (If nothing else, those steaks you like rare and your three-minute eggs will never be over-done again.)

**CHRONOGRAPH SYSTEM:** With 1/100th of a second precision for up to 12 hours, the dual chronograph literally enables you to command time to stand still. With the stopwatch you can time any event in its entirety — from a speech you're preparing to the length of a phone call you're making to the time it takes a passer to set up and throw. (A buzzer sounds when you start or stop the chronograph. A nice feature since it means you won't have to check to see if it's timing.)

You can also measure sections of an event, like the time for the 1/4 or the 1/2 or the times of individual finishers in a race. This is Lap Time. In this mode the chronograph continues timing an event in memory at the same time that it's stopped to give you a reading on a particular segment.

You'll be able to use either of these modes in minutes, find innumerable uses for both in your business and personal life within days.

**SUPER LIGHTWEIGHT:** Even with all these functions, you'll hardly know you're wearing a watch. It's that light and comfortable. Less than one ounce.

The case, which is exceptionally handsome, is made of a high-impact, virtually impervious black plastic. An advance almost as remarkable in its way as those in the microprocessor that controls the watch's functions.

## THE MOST IMPORTANT FEATURE OF ALL

Here's a watch, then, with phenomenal accuracy and totally unique capabilities; a watch that passed every quality-control test with flying colors and stood up to 10 years' of simulated-use tests. And all it costs is the amazing low price of just \$29.95!

It just didn't seem possible to us either. But the manufacturer, who's been making components for years for many of the major watch companies, including some of the biggest, best-known names, explained:

"Of course, you'd expect it to sell for 100% more. But, once this new kind of case became available, we knew we could produce a chip (microprocessor) superior to any we made for anyone else, and sell it for far less than you'd expect by assembling the watches ourselves and selling them direct-by-mail, eliminating the middleman's mark-up in both manufacturing and selling."

As proof, in about a year, a major name in the watch world plans to buy this module and offer this same watch through normal retail outlets for at least \$60 and maybe more.

## ANOTHER CHOICE

This gave us an idea. What if the same watch was put in a stainless steel case with a stainless steel band. After some figuring the manufacturer said he'd include a deluxe mineral glass crystal, so the watch would be absolutely superb, and all we'd have to charge is just \$59.95.

## CALL 800-228-5959

(Nebraska residents call 800-642-8777)  
(Numbers in operation 7 days a week, 24 hours a day)

So, that's your choice of the matte black watch or the watch in stainless steel with a stainless bracelet.

What is more, since you can't get this watch in any store, we'll send it to you to wear for 30 days without risk or obligation. If you're not absolutely satisfied, if the accuracy isn't exactly as we say, if you don't find two timekeeping zones, the two alarms, the dual chronograph, the count-down timer as useful and convenient as you supposed, if people don't praise the look of the watch you're wearing, send it back for a complete refund. No questions asked.

To order with any major credit card, simply call the toll-free number above. But we'd prefer, in this instance, since the price is so much lower than for anything else we sell, that you send us your check to the address below. Just be sure to specify the Black Watch or the Stainless Steel Alarm Chronograph and include the proper amount. (Include \$2.50 for shipping and handling and in Illinois the 6% sales tax.)

Either way, you'll be getting a watch as good if not better than any watch in the market today. At a fraction of the usual price. If that isn't class, what is?

\*Even in a drawer, it will keep perfect time. Ready when you want or need it without your touching or adjusting a thing.

Available in stainless steel
