

The first personal computer for under \$200.

The Sinclair ZX80.
A complete computer—
only \$199.95 plus \$5.00 shipping.

Now, for just \$199.95, you can get a complete, powerful, full-function computer, matching or surpassing other personal computers costing several times more.

It's the Sinclair ZX80, the computer that independent tests prove is faster than all previous personal computers. The computer that "Personal Computer World" gave 5 stars for 'excellent value.'

The ZX80 cuts away computer jargon and mystique. It takes you straight into BASIC, the most common, easy-to-use computer language.

You simply take it out of the box, connect it to your TV, and turn it on. And if you want, you can use an ordinary cassette recorder to store programs. With the manual in your hand, you'll be running programs in an hour. Within a week, you'll be writing complex programs with confidence.

All for under \$200.

Sophisticated design makes the ZX80 easy to learn, easy to use.

We've packed the conventional computer onto fewer, more powerful LSI chips—including the Z80A microprocessor, the faster version of the famous Z80. This makes the ZX80 the world's first truly portable computer (6½" x 8½" x 1½" and a mere 12 oz.). The ZX80 also features a touch sensitive, wipe-clean keyboard and a 32-character by 24-line display.

Yet, with all this power, the ZX80 is easy to use, even for beginners.

Your course in computing.

The ZX80 comes complete with its own 128-page guide to computing. The manual is perfect for both novice and expert. For every chapter of theory, there's a chapter of practice. So you learn by doing—not just by reading. It makes learning easy, exciting and enjoyable.

The ZX80's advanced design features.

Sinclair's 4K integer BASIC has performance features you'd expect only on much larger and more expensive computers. These include:

- Unique 'one touch' entry. Key words (RUN, PRINT, LIST, etc.) have their own single-key entry and are stored as a single character to reduce typing and save memory space.
- Automatic error detection. A cursor identifies errors immediately to prevent

- entering programs with faults.
- Powerful text editing facilities.
- Also programmable in machine code.
- Excellent string handling capability—up to 26 string variables of any length.
- Graphics, with 22 standard symbols.
- Built-in random number generator for games and simulations.

Sinclair's BASIC places no arbitrary restrictions on you—with many other flexible features, such as variable names of any length.

And the computer that can do so much for you now will do even more in the future. Options will include expansion of 1K user memory to 16K, a plug-in 8K floating-point BASIC chip, applications software, and other peripherals.

Order your ZX80 now!

The ZX80 is available only by mail from Sinclair, a leading manufacturer of consumer electronics worldwide. We've already sold tens of thousands of units in Europe, so demand will be great.

To order by mail, use the coupon below. But for fastest delivery, order by phone and charge to your Master Charge or VISA. The ZX80 is backed by a 30-day money-back guarantee, a 90-day limited warranty with a national service-by-mail facility, and extended service contracts are available for a minimal charge.

Price includes TV and cassette connectors, AC adaptor, and 128-page manual.

All you need to use your ZX80 is a standard TV (color or black and white). The ZX80 comes complete with connectors that easily hook up to the antenna terminals of your TV. Also included is a connector for a portable cassette recorder, if you choose to store programs. (You use an ordinary blank cassette.)

The ZX80 is a family learning aid. Children 10 and above will quickly understand the principles of computing—and have fun learning.

Phone orders only: (203) 265-9171. We'll refund the cost of your call.
Information: General and technical—(617) 367-1988, 367-1909, 367-1898, 367-2555.
Phones open Monday-Friday from 8 AM to 8 PM EST.

Spend May on Mars, July on Jupiter, and October in a Giant Galaxy

There is only one way to travel in outer space next year — ASTRONOMY magazine's 1981 Calendar of Space Art and Photographs. Here are a dozen stunning views of the cosmos, printed in full color to beautify your wall. And you can frame them at the end of the month — the quality is that good! There's plenty of room for notes and appointments, as well as a handy daily listing of celestial events. This big 12x12" calendar is now available at only \$5.95 each, or order 3 for \$17.85 and get the fourth free.

Please enclose check/money order in U.S. funds or equivalent
Allow 4 to 6 weeks for delivery

Enclosed is \$_____ for _____ Space '81 calendars at \$5.95 each.
SPECIAL: Enclosed is \$17.85 for 4 calendars (4th FREE).

NOW COMES OMNI TRAK

If you can answer yes
to one or more of the following questions,
you are probably ready for Omni Trak.

1. Is CHESS a little "too much" to satisfy your desire for a challenging, exciting, fun filled game?
2. Does BACKGAMMON leave you with the feeling that you could handle a greater challenge?
3. Would you like a more sophisticated, grown up game than CHINESE CHECKERS, AGGRAVATION, etc.?
4. Would you like a parlor game that 2, 3, or 4 people can play and enjoy together?

OMNI TRAK is a board game with movable play pieces, a deck of cards, and a pair of dice. It is played by kids with kids, by parents with kids, and by adults with adults. It is more mentally challenging than BRIDGE or POKER, and three times as exciting! No flashing lights, no beeps, no batteries. You don't turn IT on, IT turns YOU on!!!

OMNI TRAK—A GAME TO GROW UP ON

Send check or money order to
TOYTEK CORPORATION, 8800 S.W. 141 St., Miami, FL 33176

One Game: \$10.00, Postage & handling included.
