

Spend May on Mars, July on Jupiter, and October in a Giant Galaxy

There is only one way to travel in outer space next year — ASTRONOMY magazine's 1981 Calendar of Space Art and Photographs. Here are a dozen stunning views of the cosmos, printed in full color to beautify your wall. And you can frame them at the end of the month — the quality is that good! There's plenty of room for notes and appointments, as well as a handy daily listing of celestial events. This big 12x12" calendar is now available at only \$5.95 each, or order 3 for \$17.85 and get the fourth free.

Please enclose check/money order in U.S. funds or equivalent

"I'll show you HOW TO DO IMPORTANT MATH on your SCIENTIFIC CALCULATOR in just ten days!"

- Guaranteed.
- Easy. • Quick.
- And fun, too!

$$\int_a^b f \quad \frac{df}{dx} \quad \sum_{n=1}^{\infty} a_n \quad \lim_{n \rightarrow \infty} \text{SOLVE } f(x) = 0$$

All this with the Scientific Calculator you now have!
Now you can step up your math skills fast, even if you think you've forgotten the math you once knew.

Send for my new, proven-effective method in guidebook form. It's entitled 'CALCULATOR CALCULUS' and comes with this firm money-back guarantee: *If after 10 days you're not absolutely astounded at the problems you're solving on your Scientific Calculator, send the guidebook back for a full and immediate refund of your money.* No questions asked.

But the point is -- you won't want to send it back. For here is the easiest and fastest shortcut ever.

Let me introduce myself. My name is Dr. George McCarty. I teach math at the University of California, Irvine. This new guidebook is the result of the recognized need to cut through the confusion. It does just that through WORKED-OUT EXAMPLES, SIMPLE EXERCISES and PRACTICAL PROBLEMS.

The very day you receive your copy in the mail, you'll want to put it to work. It's that exciting and helpful. Even people who have not tackled math problems in years find it easy to follow. What's more, it's fun!

YOU GET THE POWER METHODS

Need to evaluate functions, areas, volumes — use curves, trig, polar coordinates — find limits for sequences and series? It's all here!

If you're in the biological, social or physical sciences, you'll be doing Bessel functions, carbon dating, Gompertz' growth curves, half-life, future value,

marginal costs, motion, cooling, probability, pressure — and plenty more (even differential equations).

Important numerical techniques? Those algorithms are here, too -- rational and Padé approximation, bracketing, continued fractions, Euler's method, Heun's method, iteration functions, Newton's method, predictor-corrector, successive substitutions, Simpson's method and synthetic division.

LOOK AT WHAT USERS SAY

Professor John A. Ball of Harvard College (author of the book 'Algorithms for RPN Calculators') writes: *"I wish I had had as good a calculus course."*

Professor H.I. Freedman of the University of Alberta, writing in *Soc. Ind. Appl. Math. Review*, states: *"There can be no question as to the usefulness of this book...lots of exercises...very clearly written and makes for easy reading."*

C.B. of Santa Barbara, CA says: *"Your book has given me much instruction and pleasure. I do not hesitate to recommend it. 'CALCULATOR CALCULUS' is a book that inspires the reader to understand everything down to the last detail. You seem to have put your heart into the teaching part of good writing."*

No matter your work -- educator, practitioner, or just someone who enjoys the Scientific Calculator and wants to do more with it -- you'll find 'CALCULATOR CALCULUS' a joy.

MONEY-SAVING OFFER

If you studied this method in a Seminar, you'd have to pay around \$500. Even a run-of-the-mill calculus text today costs about \$20. But, for a *limited time*, you can invest in 'CALCULATOR CALCULUS' for only \$14.95 plus \$1 for postage and handling (or \$3 by AIR), US or foreign. Calif. residents add 90¢ sales tax. If you need a suitable calculator, add \$22 (US only, UPS paid; in Calif. add \$1.32 tax) and I'll send you a TI-30 right along with your guidebook! As penny-wise Ben Franklin said, *"An investment in knowledge pays the best dividends."* (Tax deductible for professionals.)

NO RISK WHATEVER

Order your copy today. Write the words 'CALCULATOR CALCULUS' on a slip of paper and send it along with your check or money order. Be sure to give me your complete mailing address. If you want to charge it (Visa or MC), include your card no. and exp. date. *Prompt shipment guaranteed.* If after 10 days you're not astounded at the problems you're solving, send the book back for a full and prompt refund. Remember, *you don't risk a cent.* Start putting your Scientific Calculator to important use now by sending for 'CALCULATOR CALCULUS' today. Thank you!

Rechargeable Aerosol Spray Can!

New British Invention...

Make your own aerosol spray paints, cleaners, lubricants, etc. and save yourself a small fortune.

Environmentally Safe — No Fluorocarbons

Re-fill the Rechargeable Aerosol Can and use it over and over... it actually makes a great deal of sense. When you go to the store and purchase spray paint or any other liquid aerosol spray, you usually pay more for the aerosol canister (plus the cost of filling and pressurizing it) than for the contents. Push-button convenience has been most expensive...but now you have an ingenious and easy alternative.

Fast and simple to operate... Fill the can 2/3 full with the liquid to be used, thinning according to instructions. Screw on the Aerosol Valve Top and pressurize to 50 psi with any bicycle pump, air hose or other air source (a unique pressure relief valve insures against overcharging). When the large (1 pint) can is empty, simply re-fill and pressurize. You're back to the job in minutes. When finished, clean the can thoroughly and you're ready for your next project!

Touch-up body work

Clean photo equip.

Genuine Professional results... without the noise and hassles of a cumbersome and expensive compressor. Starshine's Rechargeable Aerosol is a quality spraying instrument...the first of its kind for home, garden and industrial use. It is available only from Starshine's Mail Order Sales Division and arrives quickly at your door complete with two interchangeable spray heads. One, a wide angle spray, is for flawless application of paints and other liquids requiring an even coating. The other, a special extension tube, is for applying lubricants, cleaners, etc., in hard-to-get-at places such as complex electronic equipment.

Large size can: 2½"W x 8"H

For example, a few suggested uses:

- Paints
- Lubricants
- Rust inhibitors
- Solvents
- Engine degreasers
- Photo equipment
- De-icer
- Household cleaners
- Insecticides
- Disinfectants
- Electrical contact cleaners
- A world of applications

Paint metalwork

Lube office equip.

Tough, precision construction plus Starshine's exclusive 5-year guarantee. Designed in England, the solid canister is one-piece aluminum with no seams to come apart. The aerosol valve body is also solid aluminum and knurled for easy handling. Should your Starshine Rechargeable Aerosol ever malfunction due to a manufacturing defect within 5 years, you may return it for repair or replacement at our prompt service-by-mail facility. We pride ourselves on our quick, courteous service.

Test it yourself at home or work for 2 weeks... with no obligation.

Order Toll-Free: 800-235-6945 or if busy 800-235-6951

CA residents call: 805-966-7187 or send coupon.

-
- Please send by return mail one Starshine Rechargeable Aerosol @ \$19.95 (plus \$2 shipping and handling). If not completely satisfied, I may return within 2 weeks of receipt for a prompt refund with no questions asked.
 - Save \$4 or more!** Order two or more Aerosols at the quantity price of only \$17.95 ea. (plus \$2 shipping and handling ea.)
 - Check or money order enclosed (CA residents add 6% sales tax)
