# Saturn!

POSTERS • SLIDES

Voyager has done it again! We now have two beautiful full-color posters of everyone's favorite planet, Saturn! One shows only Saturn; the other is a montage showing the ringed planet and six of its moons.

We are also offering a set of ten slides from the Voyager-Saturn encounter.

- Enclosed is \$4.50 prepaid for both posters.
- Enclosed is \$5.00 prepaid for set of 10 slides.

Add \$1.00 for our complete catalogs. Foreign orders add \$1.00 postage.

"IN JUST 10 DAYS, I'LL SHOW YOU HOW TO DO

# REAL MATH

ON YOUR SCIENTIFIC CALCULATOR!\*

- Quick.
- Easy.
- Guaranteed.
- Fun, too!

$$\int_a^b f$$

$$\frac{df}{dx}$$

$$\sum_{n=1}^{\infty} a_n$$

$$\lim_{n \rightarrow \infty}$$

**STEP UP your math skills FAST** — thousands already have — by using my *new method* in guidebook form. It's called **CALCULATOR CALCULUS** and comes with this guarantee: *If after 10 days you're not astounded at the problems you're solving on your own calculator, return the guidebook for an immediate refund.*

But the point is - you won't want to send it back. For this is the *easiest, fastest shortcut* ever! The day you receive your copy in the mail you'll want to put it to work. It's that exciting and helpful.

My name is Dr. George McCarty. I teach math at the University of California. I wrote this guidebook to cut through the confusion. It does just that — with worked-out examples, simple exercises and practical problems — all designed to work on your calculator!

**POWER METHODS.** Need to evaluate functions, areas, volumes — solve equations — use curves, trig, polar coordinates — find limits for sequences and series? It's all here!

If you're in the biological, social or physical sciences, you'll be doing Bessel functions, carbon dating, Gompertz' growth curves, half-life, future value, marginal costs, motion, cooling, probability, pressure — and plenty more (even differential equations).

Important numerical techniques? Those algorithms are here, too — rational and Padé approximation, bracketing, continued fractions, Euler's method, Heun's method, iteration functions, Newton's method, predictor-corrector, successive substitutions, Simpson's method and synthetic division.

**LOOK AT WHAT USERS SAY:** Samuel C. McCluney, Jr., of Philadelphia writes:

"**CALCULATOR CALCULUS IS GREAT!** For ten years I have been trying to get the theory of calculus through my head, using home-study courses. It was not until I had your book that it became clear what the calculus was all about. Now I can go through the other books and see what they are trying to do. With your book and a calculator the whole idea becomes clear in a moment, and is a

**MOST REFRESHING EXPERIENCE.** I program some of the interactive problems you suggest and it always **GIVES ME A THRILL** to see it start out with a wild guess and then approach the limit and stop."

Professor John A. Ball of Harvard College (author of the book 'Algorithms for RPN Calculators') adds:

"I wish I had had as good a calculus course."

Professor H. I. Freedman of the U. of Alberta, writing in *Soc. Ind. Appl. Math Review*, states:

"There can be no question as to the usefulness of this book...lots of exercises...very clearly written and makes for easy reading."

C. B. of Santa Barbara says: "Your book has given me much instruction and pleasure. I do not hesitate to recommend it. 'CALCULATOR CALCULUS' is a book that inspires the reader to understand everything down to the last detail. You seem to have put your heart into the teaching part of good writing."

### MONEY-SAVING OFFER:

For a *limited time*, you can invest in 'CALCULATOR CALCULUS' for only \$14.95 plus \$1 for shipping (or \$3 by AIR), US or foreign. Calif. residents add 90c sales tax.

\***COMPLETE KIT.** If you need a suitable calculator, send \$39.95 plus \$1 for shipping (or \$3 by AIR; USA only; in Calif. add \$2.40 tax) and I'll send you a TI-35 right along with your guidebook! As pennywise Ben Franklin said, "An investment in knowledge pays the best dividends." **GET STARTED NOW** — Tax deductible for professionals.

**NO RISK WHATEVER!** Send for it today. Be sure to give me your complete mailing address with your check or money order. If you want to charge it (Visa or MC), tell me your card no. and exp. date. **Prompt shipment guaranteed.** Thank you!

## HERE'S HOW THE SCIENCE FICTION BOOK CLUB WORKS.

Savings start when you join. Once your application for membership is accepted, you'll receive your choice of any 6 books on this page for only \$1 (plus shipping and handling). If not delighted, return them within 10 days. Membership will be cancelled and you'll owe nothing.

You get 2 Selections every month at up to 65% off publishers' prices. About every 4 weeks (14 times a year), we'll send you the Club's bulletin, *Things to Come*, describing the 2 coming Selections and a variety of Alternate choices. If you want both Selections, you need do nothing; they'll be shipped automatically. If you don't want a Selection, or prefer an Alternate, or no book at all, just fill out the convenient form always provided, and return it to us by the date specified. We allow you at least 10 days for making your decision. If you don't receive the form in time to respond within 10 days and receive an unwanted selection, you may return it at our expense.

As a member you need take only 4 Selections or Alternates during the coming year. You may resign any time thereafter or remain a member as long as you wish. One of the 2 Selections each month is only \$2.98. Other Selections are slightly higher but always much less than hardcover Publishers' Editions. A shipping and handling charge is added to each shipment. Send no money. But do send the coupon today.
