Revolutionary New "INSTANT" PAINT-STRIPPER... **SPRAY & STRIP®!**

**100% Stronger • Blisters Off Paint In Seconds • No Hard Labor
 Biodegradable & Non-Caustic • Convenient Aerosol Spray Can Format**

No Scraping Needed – Paint actually Rinses or Wipes Right Off. Spray & Strip® has changed paint-stripping forever! As you've no doubt experienced, conventional "strippers" merely eat away at the paint, leaving you the laborious job of scraping it for hours. Usually more than one coat is required and most products are highly toxic and poisonous. You'll be overjoyed to know that now you need never scrape and sweat paint off again . . .

Spray & Strip's New Miracle Chemical Action IMMEDIATELY PENETRATES PAINT . . . ACTUALLY ATTACKING AND BREAKING THE BOND between the paint and the surface. In seconds the paint softens, blisters, and bubbles off separated cleanly from the surface . . . ready to be hosed or wiped off! It's a fascinating process to watch; easier to use, more effective, and thorough than anything you've ever seen on the market before.

Forget About Messy Brushes, Buckets, or Dangerous, Drippy Liquids. Spray & Strip® is a convenient aerosol product. (no fluocarbons). Simply push the Spray button and watch this incredible non caustic, biodegradable product do its job. It's neat, fast, and unbelievably complete.

More Than 100% Stronger Than Conventional Solvents. Spray and Strip® can be used to remove varnish, shellac, acrylic enamel (hi-bake & airdry) acrylic lacquer, alkyd enamel, epoxy, urethane, decals, etc. It works perfectly on almost any coated surface such as wood, metal, brick, stone, ceramic tile, glass, concrete, etc. One can covers the same area as 1-2 quarts of liquid, and Spray & Strip® is recommended for home or commercial use, indoors or out. (Available in liquid form in 5 gallon pails upon request.)

Starshine's "SPRAY-IT-DON'T JUST SAY IT" Test Offer:
