

Is your child college-bound?

This complete home-study course shows how to master the Scholastic Aptitude Test.

The Scholastic Aptitude Test is the most important exam of anyone's life. Unfortunately, high schools don't bother to teach students how to prepare for the SAT.

Now there's a solution: The complete **SAT Home-Study Course**. It can help improve the test scores of any college bound student.

This remarkable course consists of the new 372-page book, **How to Take the SAT**, and accompanying audio cassettes that carefully guide the listener through the text. The course was created by Marcia Lawrence, whose instruction has helped thousands of high school students maximize their SAT scores and win acceptance by the college of their choice.

Unlike other SAT books, this unusual course is not simply a collection of sample tests. Instead, it's a crash course in the *techniques* of test-taking. It helps the student *get inside the heads of the test-makers*. Because he learns how the questions are constructed, he has a better chance of determining the correct answers.

"Every answer is built right into the test," says Ms. Lawrence. "My course shows the student how to dig it out."

Step by step, Marcia Lawrence leads the listener through a series of typical SAT questions. She shows how to spot key clues, how to eliminate wrong choices, and how to zero in on the right answer—time after time.

Celestron[®] Multipurpose Telephotos

Bring You New Dimensions In Telephoto Photography

A long focal length telephoto lens is irreplaceable for many aspects of sports, nature and action photography—there are many times when only a "long" lens can achieve the right framing, isolate a subject against a complex background or provide the image scale you want for dramatic, artistic photographs.

Only Celestron offers a complete range of compact, mirror-lens telephoto lenses of 300 to 3910mm focal lengths that can also be used as visual spotting scopes and high quality, large aperture astronomical telescopes.

You are invited to see the multipurpose Celestrons at your local camera dealer and to learn about the huge potential of a Celestron by sending for our beautiful, full-color, 52-page catalog describing our complete telephoto, astronomical telescope and binocular lines.

You'll be surprised at how little a Celestron costs—far, far below equivalent, bulky conventional telephoto lenses that have none of the versatility of a Celestron.

Send \$3.00 for 52-page full-color catalog on how to select and use a Celestron telescope/telephoto lens.

For years I suffered terribly from
LETHOLOGICA
 until a nice doctor friend prescribed

**Mrs. Byrne's Dictionary
 of Unusual, Obscure, and Preposterous Words**

Yes, for years I couldn't remember the right words. People I considered complete idiots were finishing my sentences for me. I was leaving blanks in my love letters and suicide notes. I found how bleak the future was when I tried a little cephalonamancy (fortunetelling by boiling an ass head), and tyromancy (fortunetelling by watching cheese coagulate).

I went from doctor to doctor looking for help, finally becoming a confirmed iatrapistiatic (one having little faith in doctors), especially when one suggested I needed a hepaticocholangiocholecystenterostomy (look it up).

Then I found *Mrs. Byrne's Dictionary*. Now I can be unusual, obscure and preposterous by turns. Now I don't need an unabridged to go along with my collegiate. For entertainment now, I browse instead of groak (watching people silently while they eat, hoping they'll ask you to join them). I don't care anymore that we have a kakistocracy (government or rule by the worst).

Mrs. Byrne's Dictionary by Josefa Heifetz is better than omphaloskepsis!

GARDYLOO!

Herb Caen in the *San Francisco Chronicle*: "Wildly funny!"

Leslie Hanscom in *Newsday*: "You can dip in anywhere and come up with pay dirt . . . hundreds of words to stand your hair on end. Only a clinchpoop could scan these pages without a feeling of awe at the undiscovered boundaries of the English tongue!"

Nels Nelson in the *Philadelphia Daily News*: "A treasure! We should all kiss the publisher's feet!"

Camilla Snyder in the *Los Angeles Herald-Examiner*: "Hilariously useful . . . delicious!"

Donald B. Thackrey of *United Press International*: "A dictionary you can browse through and read like a book . . . a dictionary that will give great pleasure to many. Every page contains at least one nugget."

Sydney J. Harris in the *Chicago Daily News*: "There is no comparable work; I unreservedly recommend it."
