Up-to-date, inside-track reports now available from the vast resources of McGraw-Hill Research and Standard & Poor's

Turn with confidence to these INDUSTRY PROFILES to keep up with technological trends, marketing opportunities, and your competitors' activities in today's key industries.

Each Profile gives you current and immediately useful facts on a major growth industry. Each condenses a wealth of hard data and essential information for either quick access or concentrated study.

INDUSTRY PROFILES are now available for five key industries: industrial robots, fiber optics, industrial lasers, pollution control equipment, and pollution monitoring equipment.

Developed from a unique data base comprising nearly a quarter of a million documents, they reflect the combined, unparalleled resources of McGraw-Hill Research and Standard & Poor's.

In these Profiles you'll find the most relevant and up-to-date industry information, distilled in a clear and accessible format from government documents, private reports, and the world's business press.

No other single source offers you this unique opportunity — at such an affordable price — to obtain concentrated, reliable information on industries vital to your company's growth and success.

Now available — INDUSTRY PROFILES in these five rapidly developing areas:

Industrial Robots

Explores the rapid technological and economic expansion of this growing industry sector; describes markets, market leaders, and major foreign producers; highlights current technology and research programs; summarizes political and environmental pressures; *and more.*

Fiber Optics

Examines an industry which is just reaching its turning point — estimated world demand for all fiber optics applications will grow to around \$40 billion by the year 2000. Details the reasons for the predicted explosive growth; identifies fiber optics production by component type as well as component consumption by application; *and more.*

Industrial Lasers

Reviews the industrial, scientific, and defense applications of this growing business; focuses on nineteen user industries; discusses competing, new, and emerging technologies; offers unique marketing projections; gives details on more than 170 producing companies; *and more.*

Pollution Control Equipment

Assembles extensive data on air, water, noise, marine, and other pollution controls; examines future standards and comments on the \$22 billion to be spent in compliance; outlines foreign sales and sales by SIC; reviews legislation; identifies nearly 500 companies in the product area; *and more.*

Pollution Monitoring Equipment

Spotlights trends, technology, uses, and sales of monitoring devices; identifies major companies and their products; details domestic and foreign markets; shows current R&D expenditures; traces the role of the EPA and other regulatory agencies; *and more.*

Join the forward-looking executives who rely on INDUSTRY PROFILES for

- data to support decisions on new products, expanded markets, mergers, acquisitions
- forecasting — a finger on the pulse of industry development and activities
- succinct overviews of specific industries — their economic and technological patterns
- sales backup — data, contacts, and details on competitors

Each INDUSTRY PROFILE covers these vital subjects ...

- ✓ *Background* — including legal, sociological, and historical data
- ✓ *Economics* — applications, users, sales, forecasts
- ✓ *Competition* — who's producing what, who's making the sales
- ✓ *Technology* — state-of-the-art and research programs
- ✓ *Political and Foreign Implications* — perspectives, trends, major foreign producers

Each Profile is assembled in a handsome and durable portfolio. To receive your copies, at \$250 each, send in this coupon or write to:
