Why THE AUDUBON SOCIETY ENCYCLOPEDIA is hailed as
"The bird-lover's bible!"*

IT'S HUGE, unprecedented, gloriously illustrated—the first one-volume encyclopedia to provide full, concise, impeccable information on *all* the birds that nest or have been sighted in North America.

Naturalists acclaim it

ROGER TORY PETERSON says, "I intend to keep my copy near my desk, for frequent use. It is a much-needed, broad-ranging accomplishment, and a most felicitous layman's reference."

DEAN AMADON, Lamont Curator Emeritus of Birds, American Museum of Natural History: "A massive achievement...I consider it to be one of the outstanding ornithological publications of this or any other time." —From his Foreword

Reviewers extol it

"I fell in love with it!" says *Newsweek's* critic Walter Clemons. "A monumental work that happens to be irresistibly readable."

"The most impressive American bird book since John J. Audubon's *Birds of America*," says the Associated Press... "A must for serious bird students" (*Chicago Tribune*).

*"Destined to retain its primacy for years to come," says John Barkham, calling it "the bird-lover's bible!"

About the author

JOHN K. TERRES, who for 13 years edited *Audubon* magazine and in 1971 received the John Burroughs Medal for distinguished nature writing, has devoted over two decades to the preparation of this book.

"Awesome," writes Edmund Fuller in the *Wall Street Journal*, "is the only word for the author's knowledge of his field...A magnificent project...the extraordinary capstone of a career."

- 1,135 pages (a million words)
- 1,675 pictures (including 875 full-color photographs)
- Nearly 6,000 alphabetical entries and cross-references, including:
 - 625 major articles on all aspects of bird life
 - "Biographies" of 847 birds in 78 families—appearance, habitat, range, songs, nests, behavior, and more
 - Lives of 126 relevant naturalists and explorers
 - 770 ornithological terms defined
 - A 4,000-item bibliography

**9 x 11 • With 1,675 illustrations in color and black-and-white
 1,135 pages • \$60 at all bookstores**

Special discounted price for Science News readers: \$49.95
