

**64K
\$179.95**

Memopak 16k has just become available for a price of only \$79.95

Can you improve excellence?

We can. By adding our Memotech Memopak to the excellence of the ZX81, we have achieved perfection.

The growth of interest in computer use caused by the introduction of the Sinclair ZX81 has made new and exciting demands on the ingenuity of electronic engineers. At Memotech we have focused our attention on the design of inexpensive, reliable memory extensions.

The Memopak is a 64K RAM pack which extends the memory of the ZX81 by a further 56K. The new memory extensions are designed to be within the price range expected by Sinclair users. It plugs directly into the back of the ZX81 and does not inhibit the use of the printer or other add-on boards. There is no need for an additional power supply or leads.

Increase your memory.

The Memopak together with the ZX81 gives a full 64K, which is neither switched nor paged, and is directly addressable. The unit is user transparent and accepts such basic commands as 10 DIM A(9000).

0-8K . . . Sinclair ZX81 ROM
8-16K . . . This section of memory switches in or out in 4K blocks to leave space for memory mapping, holds its contents during cassette loads, allows communication between programs, and can be used to run assembly language routines.

16-32K . . . This area can be used for basic programs and assembly language routines.
32-64K . . . 32K of RAM memory for basic variables and large arrays.

With the Memopak extension the ZX81 is transformed into a powerful computer, suitable for business, leisure and educational use, at a fraction of the cost of comparable systems.

Free service on your Memopak.

Within the first 90 days, should anything go wrong with your Memopak return it to us and we will fix or replace it free of charge.

Try Memopak with no obligation.

You can use our Memopak in your home without obligation. After 10 days, if you are not completely satisfied, simply return it for a full refund.

Cosmic Posters!

Never before available! Five beautiful full-color posters from the Anglo-Australian Observatory featuring stunning southern-sky splendors. These posters measure 22½" x 29", are mailed rolled, and are suitable for framing. Subjects include: Spiral Galaxy in Antlia, Star Trails around South Celestial Pole, Helix Nebula, Cone Nebula, & Eagle Nebula. All Five at one Special Low Price!

Reg. \$13.50—Now!! \$11.00
SATISFACTION GUARANTEED

- Please send me:**
- All 5 posters for only \$11.00 (Regular \$13.50 value)
 - Complete catalog for \$2.00 (credit applied toward next purchase)

Foreign orders add \$2.00 for postage

“Winner of the Pulitzer Prize and the American Book Award for hardcover non-fiction.”

“A high level of narrative art”

“From mid-1978 to early 1980, a group of engineers at Data General Corporation developed a new super-mini computer. In *THE SOUL OF A NEW MACHINE*, Tracy Kidder provides a factual accounting of this achievement, and anyone interested in the annals of American industry will find the story absorbing. But Mr. Kidder...has endowed the tale with such pace, texture and poetic implication that he has elevated it to a high level of narrative art...”

“Mr. Kidder is our Dante...”

a young explorer standing on the threshold of a new age. ...He proceeds by taking the reader ‘down into’ the machine, and indeed the book consists of repeated descents—not only into an environment of wires and silicon chips, but also into dark corporate basements where secret work proceeds feverishly behind locked doors...

“In technical creativity they have found a fulfillment that occasionally verges on ecstasy...”

“The leading lights of the engineering team, chosen for their brilliance, energy and ambition, are portrayed as eccentric knights errant, clad in blue jeans and open collars, seeking with awesome intensity the grail of technological accomplishment.... The project becomes a crusade....”

“A worthy literature of science and technology”

“Mr. Kidder’s splendid book goes far toward reviving Huxley’s prophecy...of a worthy literature of science and technology.”

—from the *New York Times Book Review’s* front-page review by Samuel C. Florman

“All of Mr. Kidder’s hopes for his book have been fulfilled....”

Even someone like this reviewer, who barely understood the difference between computer hardware and software when he began, was able to follow every step.” —*Christopher Lehmann-Haupt, New York Times*

“A superb book, one that computer engineering has deserved for a long time....”

All the incredible complexity and chaos and exploitation and loneliness and strange, half-mad beauty of this field are honestly and correctly drawn here.” —*Robert Pirsig, author of Zen and the Art of Motorcycle Maintenance*

“If you like the writing of John McPhee, you’ll love the work of Tracy Kidder....”

What makes Kidder’s book so rich is that he describes the human psyche as well as the computer industry.... Brilliant, concise and original.” —*Playboy*

Science News Book Order Service

1719 N Street N.W.
Washington, D.C. 20036

Please send _____ copy(s) of

THE SOUL OF A NEW MACHINE.

I include a check, payable to

Science News Book Order Service,

for \$13.95 plus \$1.00 handling

(total \$14.95) for each copy.
