

# BEHIND EVERY GOOD SINCLAIR IS A MEMOPAK

If you own a Timex-Sinclair 1000 or ZX81 computer, you should have a Memopak behind it. From increased memory to high resolution graphics, Memotech has a Memopak to boost your system's capabilities. Every Memopak peripheral comes in a black anodised aluminum case and is designed to fit together in "piggy back" fashion to enable you to continue to add on and still keep an integrated system look.

## Order at no risk

All Memotech products carry our 10 day money back guarantee. If you're not completely satisfied, return it in ten days and we will give you a full refund.

And every Memotech product comes with a six month warranty. Should anything be defective with your Memopak, return it to us and we will repair or replace it free of charge. Dealer inquiries welcome. To order any product write Memotech or call our toll-free number

**800/662-0949**. Please quote SN-10  
Add \$4.95 for shipping and handling.

**Memopak 64K RAM** The 64K RAM extends the memory of your Sinclair by 56K to a full 64K. It is directly addressable, user transparent, is neither switched nor paged and accepts such basic command as 10 DIM A (9000). The Memopak 64K turns your Sinclair into a powerful computer suitable for business, recreational and educational use. No additional power supply is required — \$179.95.

**Memopak 32K RAM** The 32K RAM Memopak offers your Sinclair a full 32K of directly addressable RAM. Like the 64K Memopak, it is neither switched nor paged and enables you to execute sophisticated programs and store large data bases. It is also fully compatible with Sinclair's or Memotech's 16K RAM to give you a full 48K of RAM — \$109.95.

**Memopak 16K RAM** The Memopak 16K RAM provides an economical way to increase the capabilities of your Sinclair. And at the same time, it enables you to continue to add on other features with its "piggy back" connectors. It is compatible with the Sinclair 16K or a second Memopak 16K or Memopak 32K to give 32K or 48K of RAM respectively — \$59.95.

**Memopak High Resolution Graphics** The Memopak HRG contains a 2K EPROM monitor and is fully programmable for high resolution graphics. The HRG provides for up to 192 by 248 pixel resolution — \$144.95.

**Memopak Printer Interface** The memotech centronics parallel or RS232 printer interface paks enable your Sinclair to use a wide range of compatible printers (major manufacturers' printers available through Memotech at significant savings). The resident software in the units gives the ASCII set of characters. Both Memopak printer interfaces provide lower case character capabilities. The RS232 Interface is also compatible with modems — Centronics Parallel \$104.95, RS232 \$139.95

New products coming soon Memotech will soon be introducing four new Sinclair compatible products:

- High quality direct connection keyboard
- Digitizing tablet
- 16K EPROM and programmer
- Disk drive

## Books

**Books** is an editorial service for readers' information. To order any book listed or any U.S. book in print please remit retail price, plus \$1.00 handling charge for each book, to **Book Order Service**, Science News, 1719 N Street, N.W., Washington, D.C. 20036. All books sent postpaid. Domestic orders only.

**The ABC and XYZ of Bee Culture: An Encyclopedia Pertaining to Scientific and Practical Culture of Bees** — A. I. Root. A handbook that has been used by beekeepers since 1877. This 38th edition, revised by a panel of top experts in the field, provides up-to-date information on bees, honey and beekeeping in an alphabetical format. A I Root (Scribner), 1982, 723 p., illus., \$24.95.

**Blood: The River of Life** — Jake Page. This volume is one of The Human Body series being produced by U.S. News Books. These volumes document man's quest to understand his body. Historical highlights of this quest are included along with the latest scientific advances. Articles by leading scientific researchers are a part of each volume, along with practical health care information. The beautiful art adds greatly to this outstanding series. U.S. News Bks (Scribner), 1982, 163 p., color/b&w illus., \$15.95.

**The Brain: Mystery of Matter and Mind** — Jack Fincher. This book, beautifully illustrated, unveils what is known about the brain and what is not yet known. A volume in The Human Body series. U.S. News Bks (Scribner), 1982, 159 p., color/b&w illus., \$15.95.

**The Eye: Window to the World** — Lael Wertebaker. See-through diagrams, picture essays and remarkable photography illustrate and explain the mechanics of vision. Medicine's newest ways of handling optical problems are presented. The appendix includes health care on the most common eye-related medical emergencies. The significance and symbolism of the eye in cultures around the world is examined. U.S. News Bks (Scribner), The Human Body, 1982, 159 p., color/b&w illus., \$15.95.

**The Heart: The Living Pump** — Goode P. Davis, Jr. and Edward Park. "Cardiac rhythm allows the brain to think, the lungs to breathe and the muscles to move." This magnificently illustrated book shows how this is accomplished. Tells the story of heart research through the ages to the most recent research findings. Explains various surgical techniques to correct heart defects. U.S. News Bks (Scribner), The Human Body, 1982, 159 p., color/b&w illus., \$15.95.

**Mathematics for Computing** — G. P. McKeown and V. J. Rayward-Smith. The preface indicates that mathematics is the medium through which the underlying concepts and principles of computer science may be understood. Wiley, 1982, 428 p., paper, \$24.95.

**The Rise of Robert Millikan: Portrait of a Life in American Science** — Robert H. Kargon. The book, according to the preface, is not a full record of Millikan's life or even of his scientific career. It is an essay on themes that are illustrated and illuminated by Millikan's life in American science. It is a portrait of the development of a scientist. Cornell U Pr, 1982, 203 p., illus., \$22.50.

**Tree-Ring Dating and Archaeology** — M. G. L. Baillie. Traces the development of a specific tree-ring analysis project from its inception to the successful completion of some of the longest chronologies in Europe. Looks at some of the problems associated with dendrochronology and the levels of precision possible. U of Chicago Pr, 1982, 274 p., illus., \$25.
