

# WHAT'S BETTER THAN SPEED READING?

## SPEED LEARNING

(SPEED PLUS COMPREHENSION)

**Speed Learning is replacing speed reading. It's easy to learn...lasts a lifetime...applies to everything you read...and is the only accredited course with the option of college or continuing education credits.**

Do you have too much to read and too little time to read it? Do you mentally pronounce each word as you read? Do you frequently have to go back and re-read words or whole paragraphs you just finished reading? Do you have trouble concentrating? Do you quickly forget most of what you read?

If you answer "yes" to any of these questions — then here at last is the practical help you've been waiting for. Whether you read for business or pleasure, school or college, you will build exceptional skills from this major breakthrough in effective reading, created by Dr. Russell Stauffer at the University of Delaware.

### Not just "speed reading" — but speed reading-thinking-understanding-remembering-and-learning

The new *Speed Learning Program* shows you step-by-proven-step how to increase your reading skill and speed, so you understand more, remember more and use more of everything you read. The typical remark made by the 75,000 slow readers who completed the *Speed Learning Program* was: "Why didn't someone teach me this a long time ago?" They were no longer held back by the lack of skills and poor reading habits. They could read almost as fast as they could think.

### What makes Speed Learning so successful?

The new *Speed Learning Program* does not offer you a rehash of the usual eye-exercises, timing devices, costly gadgets you've probably heard about in connection with speed reading courses or even tried and found ineffective.

In just a few spare minutes a day of easy reading and exciting listening, you discover an entirely new way to read and think — a radical departure from any-

thing you have ever seen or heard about. Research shows that reading is 95% *thinking* and only 5% eye movement. Yet most of today's speed reading programs spend their time teaching you rapid eye movement (5% of the problem) and ignore the most important part (95%) *thinking*. In brief, *Speed Learning* gives you what speed reading *can't*.

Imagine the new freedom you'll have when you learn how to dash through all types of reading material *at least* twice as fast as you do now, and with greater comprehension. Think of being able to get on top of the avalanche of newspapers, magazines and correspondence you have to read . . . finishing a stimulating book and retaining facts and details more clearly and with greater accuracy than ever before.

### Listen-and-learn at your own pace

This is a practical, easy-to-learn program that will work for you — no matter how slow a reader you think you are now. The *Speed Learning Program* is scientifically planned to get you started quickly . . . to help you in spare minutes a day. It brings you a "teacher-on-cassettes" who guides you, instructs, encourages you, explaining material as you

read. Interesting items taken from *Time Magazine*, *Business Week*, *Wall Street Journal*, *Family Circle*, *N.Y. Times* and many others, make the program stimulating, easy and fun . . . and so much more effective.

Executives, students, professional people, men and women in all walks of life from 15 to 70 have benefited from this program. *Speed Learning* is a fully accredited course . . . costing only 1/5 the price of less effective speed reading classroom courses. Now you can examine the same, easy, practical and proven methods at home . . . in spare time . . . without risking a penny.

### Examine Speed Learning FREE for 15 days

You will be thrilled at how quickly this program will begin to develop new thinking and reading skills. After listening to just one cassette and reading the preface you will quickly see how you can achieve increases in both the speed at which you read and in the amount you understand and remember.

You must be delighted with what you see or you pay nothing. Examine this remarkable program for 15 days. If, at the end of that time you are not convinced that you would like to master *Speed Learning*, simply return the program and owe nothing. See the coupon for low price and convenient credit terms.

**Note: Many companies and government agencies have tuition assistance plans for employees providing full or partial payment for college credit programs.**

**In most cases, the entire cost of your Speed Learning Program is Tax Deductible.**

# Reprint file entropy?

## ...try Sci-Mate!

With Sci-Mate™ data management software and your microcomputer, you can enhance your reprint file—by turning it into an easily accessible, personal data base.

Sci-Mate works because *it's the first data management system designed especially for reprints*. Each citation you enter can be any length and can include any descriptive notes you want to add. And *you communicate with Sci-Mate in plain English!*

When you need to locate an article, you're not limited by "keywords"—you can search by any characters, word, name, or phrase that might be anywhere in any entry. *Your searches are fast* because Sci-Mate's random access storage provides rapid retrieval.

If you need a bibliography on a specialized subject, you can print it out in minutes with Sci-Mate, or you can integrate it into your existing word processing system. Sci-Mate even *generates reports to your specifications*.

These are only a few of the features that make Sci-Mate invaluable. And it costs just \$540.

There's also additional software that takes you through searches on DIALOG, MEDLINE, ISI, and BRS even if you don't know the languages of those systems. With the Sci-Mate universal online searcher, you can immediately incorporate the results of your online searches into your Sci-Mate data management system. Sci-Mate's universal online searcher costs \$440.

Purchase both at one time and pay \$880—a \$100 savings.

Find out how Sci-Mate can help reduce entropy in *your* reprint file—call 800-523-4092, or mail the coupon below.

**SAMUEL C. FLORMAN**  
AUTHOR OF THE EXISTENTIAL PLEASURES OF ENGINEERING

By the author  
of the All-Time

\* *The Existential Pleasures of Engineering*

---

"Rebutting the idea that anti-technologists are the good guys and scientists and engineers are out to destroy our environment, Florman makes a convincing case for technological progress. And he does so with grace, wit, and sensitivity."

—*Library Journal*

---

"Mr. Florman is a respected professional engineer and a man of wide cultivation. He writes with beautiful clarity and his wit springs from his material; it is not appliqué. The reader is never in doubt about what Mr. Florman is saying. In an age of murky prose, this quality alone should win him an enthusiastic readership."

—*The New York Times Book Review*

---

"Into the acrimonious debate now raging over the proper place and function of technology, Sam Florman enters carrying a flag of truce and armed with a temperate mind as well as many salient facts. . . . Using vivid detail, shrewd assessments and calm arguments, he gives us a clearer view of urgent business: how to understand and rationally use modern science and its machines for our benefit."

—*Philadelphia Inquirer*

---

"A collection of essays notable for their clarity and erudition. . . . Florman offers a refreshing perspective and delightfully original thinking."

—*Los Angeles Times*

---

"Florman is the man we've been looking for. Incredible as the combination may appear, he is both a practicing engineer and a truly gifted writer. . . ."

—*Fortune*

---

"This collection of provocative essays should be an award-winner."
