

For Business or Private Phones

10 Ways Dictograph's New Phone Controller Can Increase the Service You Get from Your Phone, Speed Your Calls and Lower Your Charges.

From the people who invented the Intercom, Hearing Aid and Smoke Detector

This small electronic marvel — only 8" by 6" by 1½" — lets you do things with your telephone you never thought possible. Read these 10 ways Dictograph's new Phone Controller outdates old-fashioned telephoning —

1. Digital Time Monitor. Alerts you to minutes you are talking, long distance or locally. Keeps 5 minute calls from going to a half-hour.

2. Time-Saving Callback. Busy signal? Phone Controller calls back for you every 60 seconds. Keeps you from forgetting to.

3. One Touch "Memory" Dialing. Get at the touch of a finger 30 numbers called most frequently. Real time saver.

4. Touch Dial Converter. Lets you call by touch on rotary dial phone.

5. MCI and Sprint Compatible. No need to buy or pay for installation of a touch-tone phone.

6. Hold Button. Puts callers on hold so you can talk with others around you. More secure than hand over mouthpiece.

7. Built-in Speaker. Call without having to lift and hold phone till someone answers. Also lets others listen in.

8. Error Eraser. Dial a single wrong number, no need to redial whole number. Push clear button, error is erased.

9. De-Programming Fail-Safe. Back-up battery power keeps programming intact and in place in event of power outage.

10. Eliminates Phone Use. No need to dial from phone. Touch-dial directly from dial pad of Phone Controller.

Satisfaction Guaranteed

The Dictograph Phone Controller can be placed on desk top or wall-mounted. For single line service, plug into Bell modular jack. For multi-line service, specify Model PC 300 ML.

All Controllers have 90-day parts and labor warranty and are UL, CSA, FCC and Bell approved. Prompt service if needed. If you are not fully satisfied, return unit — or units — undamaged and in original carton within 15 days of receipt and your money will be refunded in full.
