Brains of Metamorphosis

Outstanding Titles on Microcomputers,

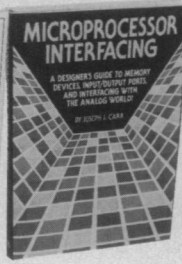

FREE 10-Day Home Trial!

ALL ABOUT HOME SATELLITE TELEVISION You'll find answers to just about any question on home satellite television in this state-of-the-art sourcebook—whether you're just curious about satellite TV... or are itching to get started setting up your own personal TVRO station. 336 pp., 43 illus. Hardbound. **Only \$19.95**
To order circle "D" on Reader Service Card

PROFESSIONAL PROGRAMMING TECHNIQUES—Starting with the BASICS Step-by-step building block procedures introduce you to the BASIC language while teaching you the problem-solving techniques used for developing business programs. 308 pp., 109 illus. Hardbound. **Only \$13.95**
To order circle "C" on Reader Service Card

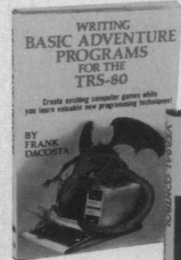

MICROPROCESSOR INTERFACING This up-to-date sourcebook can put you in the mainstream of digital interfacing and show you how to apply digital techniques to a vast range of electronic purposes! 252 pp., 263 illus. Hardbound. **Only \$13.95**
To order circle "B" on Reader Service Card

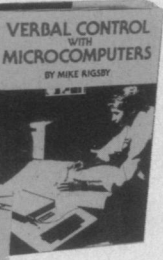

THE MICROCOMPUTER BUILDER'S BIBLE All the practical advice and hands-on help you need to put together your own specialized and sophisticated microcomputer (based on an S-100 /IEEE-696 bus) easily and at the lowest possible cost! 320 pp., 275 illus. Hardbound. **Only \$18.95**
To order circle "A" on Reader Service Card

THE ART OF COMPUTER PROGRAMMING Here's an easy, organized approach to programming using BASIC, TI-59 coding, and Z80 Assembler as example languages. Includes four complete programs and several shorter sequences to help you hone your programming skills. 312 pp., 95 illus. Hardbound. **Only \$15.95**
To order circle "I" on Reader Service Card

WRITING BASIC ADVENTURE PROGRAMS FOR THE TRS-80 Discover how to write your own original adventure programs for a Model I or Model III TRS-80 with as little as 16K of memory! Includes a sample program to show how programs are initialized, and executed. 228 pp., 102 illus. Hardbound. **Only \$14.95**
To order circle "J" on Reader Service Card

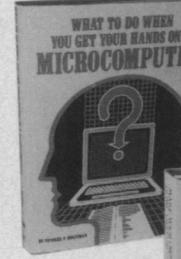

VERBAL CONTROL WITH MICROCOMPUTERS Here, the emphasis is on software verbal control techniques, how to use simple speech recognition routines on your computer without expensive peripherals. 312 pp., 83 illus., 6 tables. Hardbound. **Only \$18.95**
To order circle "K" on Reader Service Card

SEMICONDUCTORS & ELECTRONIC COMMUNICATIONS MADE EASY A 2-in-1 reference: practical applications of active circuit devices and communications technology and a quick-reference source for the hobbyist, experimenter, or technician. 324 pp., 182 illus. Hardbound. **Only \$15.95**
To order circle "L" on Reader Service Card

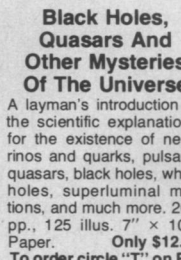

HOW TO DESIGN, BUILD & PROGRAM YOUR OWN ADVANCED WORKING COMPUTER SYSTEM Build your own computer for far less than the cost of a ready-built unit—a computer with expandable memory, hard copy input and output, a cartridge type data system and more. 322 pp., 200 illus. Hardbound. **Only \$16.95**
To order circle "M" on Reader Service Card

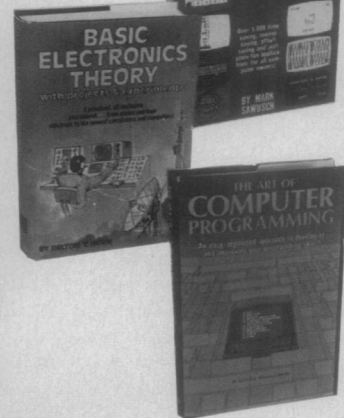

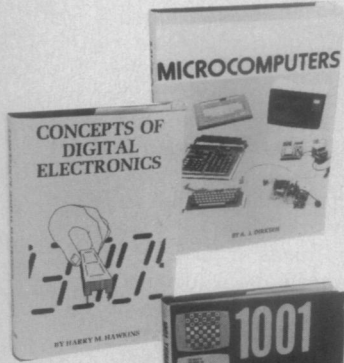

WHAT TO DO WHEN YOU GET YOUR HANDS ON A MICROCOMPUTER This beginner's guide thoroughly explains BASIC language and shows how it can be used on any small computer from TRS-80 through the Sinclair Z80. 200 pp., 98 illus. 7" x 10", Hardbound. **Only \$16.95**
To order circle "N" on Reader Service Card

MAKE YOUR OWN PROFESSIONAL HOME VIDEO RECORDINGS Practical information on choosing a home video machine. Covers equipment that's available, professional taping techniques, shows how video recorders and cameras operate and more! 304 pp., 226 illus. Hardbound. **Only \$18.95**
To order circle "O" on Reader Service Card

ATARI Programming . . . with 55 programs Everything you need to master the art of ATARI programming is right here, including 55 practical programs that take full advantage of your ATARI Model 800's sound, color, and graphics capabilities. (Most also apply to the Model 400.) 256 pp., 44 illus. 7" x 10", Hardbound. **Only \$21.95**
To order circle "S" on Reader Service Card

MAKING MONEY With Your Microcomputer A personal computer can help you run a money-making enterprise right in your own home! The authors give you 33 innovative ideas ranging from lost pet services to roommate referrals, from direct mail advertising to investment analysis. 160 pp., 62 illus. Hardbound. **Only \$12.95**
To order circle "P" on Reader Service Card

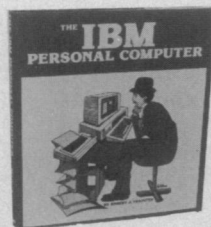

1001 THINGS TO DO WITH YOUR PERSONAL COMPUTER Over 1,000 time-saving, money-saving, effort-saving, and just-plain-fun applications—with actual programs, printouts, flowcharts, diagrams, and illustrations. 336 pp., 100 illus. Hardbound. **Only \$13.95**
To order circle "G" on Reader Service Card

BASIC ELECTRONICS THEORY—with projects & experiments It's an easy-learn, do-it-yourself explanation of fundamental electronic concepts with practical projects to illustrate each step! 532 pp., 610 illus. 4-color cover. Hardbound. **Only \$19.95**
To order circle "H" on Reader Service Card

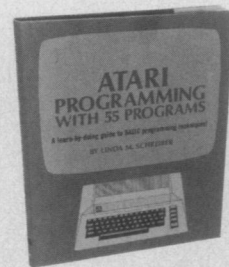

25 Exciting Computer Games in BASIC for All Ages 4*236- SPELLING 09/13/82
Includes 25 games, puzzles, and skill builders all written in BASIC for the TRS-80 with easy-to-follow conversion instructions for both Apple and PET. 288 pp., 61 illus. 7" x 10", Jacket. Hardbound. **Only \$21.95**
To order circle "Q" on Reader Service Card

25 Exciting Computer Games In BASIC For All Ages Includes 25 games, puzzles, and skill builders all written in BASIC for the TRS-80 with easy-to-follow conversion instructions for both Apple and PET. 288 pp., 61 illus. 7" x 10", Jacket. Hardbound. **Only \$21.95**
To order circle "Q" on Reader Service Card

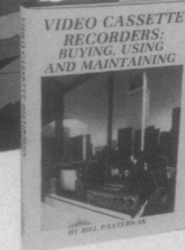

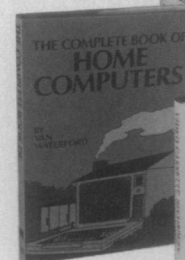

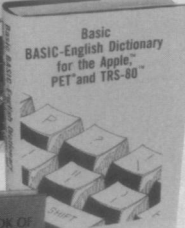

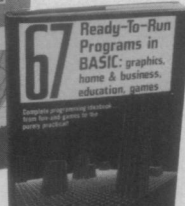

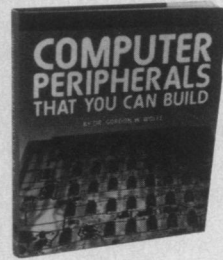

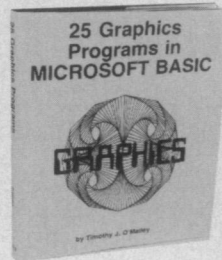

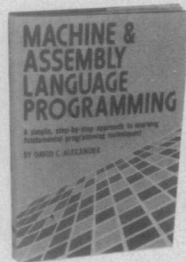

The IBM Personal Computer Answers all your questions about what the IBM PC can do, available peripheral devices, how to operate and maintain it, and provides hands-on programming guidance. PLUS, a listing of IBM PC software. 208 pp., 148 illus. 7" x 10", Hardbound. **Only \$17.95**
To order circle "R" on Reader Service Card

To order, circle the proper letters on the reader service card facing this page.

Electronics, and Home Video from **TAB**

FREE 10-Day Home Trial!

COMPUTER PERIPHERALS THAT YOU CAN BUILD Step-by-step instructions for building exciting peripheral devices. Plus, how to build a unique standard bus that lets you easily interface those peripherals to any model personal computer: IBM, Apple™, TRS™, or almost any other model! 272 pp., 248 illus. 7" x 10". Hardbound. **Only \$19.95**
To order circle "U" on Reader Service Card

25 GRAPHICS PROGRAMS IN MICROSOFT BASIC Practical, ready-to-run programs to produce graphs, plots, simulation, art, animation using an 8-bit machine with MICROSOFT BASIC. 160 pp., 83 illus. 7" x 10". Hardbound, with jacket. **Only \$17.95**
To order circle "V" on Reader Service Card

DIGITAL ELECTRONICS PROJECTS Shows how to build 17 practical working digital circuits, even complete digital devices from a digital counter demonstrator or a modular decade counter to a digital clock with alarm, a metric digital measuring wheel and more! 208 pp., 274 illus. Hardbound, With Jacket. **Only \$17.95**
To order circle "W" on Reader Service Card

MACHINE AND ASSEMBLY LANGUAGE PROGRAMMING A practical learning tool that covers everything from number systems, why and when machine and assembly language is used, to operational codes, and CPU control groups; with 55 sample programs! 210 pp., 18 illus. Hardbound. **Only \$15.95**
To order circle "X" on Reader Service Card

BUILD A PERSONAL EARTH STATION FOR WORLDWIDE SATELLITE TV RECEPTION Receive direct TV broadcasts from virtually anywhere in the world by setting up your own TVRO station! Shows everything from how to pick out the best site to set up your antenna, to hooking it up and turning it in on your own TV set! 304 pp., 201 illus. Hardbound. **Only \$15.95**
To order circle "Y" on Reader Service Card

67 READY-TO-RUN PROGRAMS IN BASIC: graphics, home & business, education, games Here's an outstanding software bargain, a collection of four software packages: games, graphics, home and business, and educational programs: to run in BASIC on the simplest home system. 182 pp., 73 illus. Hardbound. **Only \$13.95**
To order circle "Z" on Reader Service Card

Understanding Einstein's Theories of Relativity: Man's New Perspective on the Cosmos

Translates Einstein's theories of relativity into understandable terms... explains in easy-to-follow language what such exciting concepts as curved space-time black holes, and time distortion really mean! 208 pp., 247 illus. 7" x 10". Hardbound. **Only \$18.95**
To order circle "JJ" on Reader Service Card

55 ADVANCED COMPUTER PROGRAMS IN BASIC This carefully selected collection of 55 programs, written to run on a TRS-80™ 16K Level II or comparable BASIC system, covers a wide range of subjects: mathematics, business and personal management, games, and simulations. 252 pp., 78 illus. Hardbound. **Only \$16.95**
To order circle "AA" on Reader Service Card

BASIC BASIC-ENGLISH DICTIONARY FOR THE APPLE™, PET®, AND TRS-80™ Here's an easy-to-use guide that shows how to take any program written in one of the three major BASIC dialects (for Apple, PET, or TRS-80) and quickly and accurately translate it into the BASIC used on your own micro! 154 pp., 15 illus. Hardbound. **Only \$17.95**
To order circle "BB" on Reader Service Card

THE COMPLETE BOOK OF HOME COMPUTERS Here's the book that can provide you with all the expert guidance you need to choose the computer that's right for you—facts on over 30 computers from the new IBM personal computer to the Sinclair Z-80, from the ATARI 400 and 800 to the TRS-80 III. 256 pp., 234 illus. Hardbound. **Only \$17.95**
To order circle "CC" on Reader Service Card

VIDEO CASSETTE RECORDERS: BUYING, USING AND MAINTAINING From a history of video recording to a comparison of modern Betamax and VHS systems, every facet of VCRs is discussed; how to buy a home video recorder, the best blank tape to use and availability of pre-recorded software. 154 pp., 47 illus. Hardbound. **Only \$14.95**
To order circle "DD" on Reader Service Card

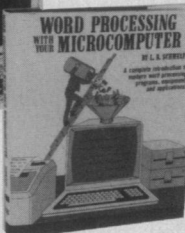

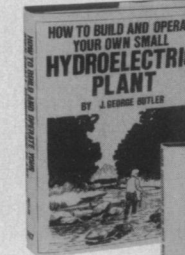

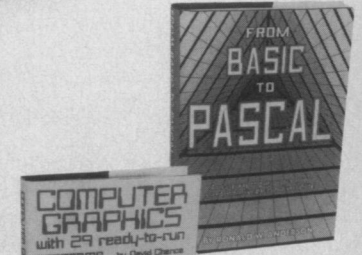

FROM BASIC TO PASCAL Here's all you need to learn pascal—a two-level compiled language that allows faster real-time and control programming and that takes up less memory space in your computer than BASIC! 324 pp., 38 illus. Hardbound. **Only \$17.95**
To order circle "EE" on Reader Service Card

COMPUTER GRAPHICS—with 29 ready-to-run programs Put more imagination and life into your TRS-80™ screen displays with pictures, drawings, and other graphic effects! All the information and "tools" you need are here! 280 pp., 58 illus. Hardbound. **Only \$15.95**
To order circle "FF" on Reader Service Card

PRINCIPLES AND PRACTICE OF LASER TECHNOLOGY Laser technology is making dramatic impact on the world we live in! Here's a first-hand look at today's state-of-the-art accomplishments and a comprehensive overview of the past, present, and future of laser technology. 294 pp., 133 illus. Hardbound, Jacket. **Only \$21.95**
To order circle "GG" on Reader Service Card

HOW TO BUILD AND OPERATE YOUR OWN SMALL HYDROELECTRIC PLANT Shows how to calculate your water power potential and build your own power plant: designing and building the dam and powerhouse, installing machinery, wiring the powerhouse and connecting it to your electrical system. 320 pp., 160 illus. Hardbound. **Only \$17.95**
To order circle "HH" on Reader Service Card

WORD PROCESSING WITH YOUR MICRO-COMPUTER Here's a complete introduction to word processing—software, equipment, and applications. Find out how to use your microcomputer to type business letters, keep track of simple mailing lists, and more! 256 pp., 202 illus. 7" x 10". Hardbound. **Only \$19.95**
To order circle "II" on Reader Service Card

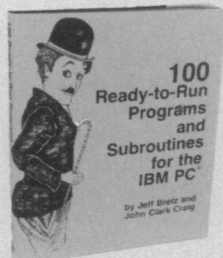

33 Games of Skill and Chance for the IBM PC™

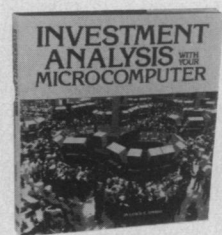

Here's a collection of challenging and entertaining games for the IBM PC that can provide hours of enjoyment, plus help you extend your computing skills and build your programming knowledge. 256 pp., 50 illus. 7" x 10", Hardbound. **Only \$18.95**
To order circle "NN" on Reader Service Card

Apple II® BASIC Here's your key to more exciting and more productive use of your Apple II using a library of sub-routines to build a name/address program called BOOTSTRAP BASIC... sub-routines that you can use for your own specific purposes by simply filling in the blanks! 240 pp., 33 illus. 7" x 10", Hardbound. **Only \$19.95**
To order circle "KK" on Reader Service Card

100 Ready-To-Run Programs and Subroutines For The IBM PC® An exciting collection of software especially for the PC—business, finance, electronics, education, graphics, and games. Here are software applications that take full advantage of the advanced features and capabilities of your IBM PC! 320 pp., 50 illus. 7" x 10", Hardbound. **Only \$22.95**
To order circle "LL" on Reader Service Card

Investment Analysis with Your Microcomputer Put your personal computer to work as a practical, time-saving tool for analyzing all kinds of financial data from capital gains to risk and return relationships, from profit analysis to variable rate loan calculations. Includes ready-to-run programs. 256 pp., 86 illus. 7" x 10", Hardbound. **Only \$19.95**
To order circle "MM" on Reader Service Card
